The volume, complexity, and irregularity of computational data in modern algorithms and simulations necessitates an unorthodox approach to computing. Understanding the facets and possibilities of soft computing algorithms is necessary for the accurate and timely processing of complex data. Research Advances in the Integration of Big Data and Smart Computing builds on the available literature in the realm of Big Data while providing further research opportunities in this dynamic field. This publication provides the resources necessary for technology developers, scientists, and policymakers to adopt and implement new paradigms in computational methods across the globe. The chapters in this publication advance the body of knowledge on soft computing techniques through topics such as transmission control protocol for mobile ad hoc networks, feature extraction, comparative analysis of filtering techniques, big data in economic policy, and advanced dimensionality reduction methods.

Polymeric and composite materials are in high demand and their continuing development is making our life style more comfortable. The present book reviews the latest research results in the field and explores the technological advantages of these materials in environmental, biomedical, actuator and fuel cell applications. Also discussed are applications of polymeric and composite materials in such areas as shape memory polymers, green composites for artificial organs, geomembranes for the safe disposal of waste, removal of heavy metals and dyes, adhesives, sensors and actuators, fuel cells, membrane and environmental sustainability, etc.

International Journal of Indian Psychology, Volume 6, Issue 1, (No. 5) Ashok Yakkaldevi

Mahadeviyakka, or Akkamahadevi was born at Udatadi a village not far from Shimoga, which was then the capital of King Kausika.

Her parents were named Sumati and Nirmalay' Akkamahadevi herself seems to have had her initiation in early childhood and the impress of the seal of Grace must have been strong on her, for she was from that moment a dedicated child. Beautiful as she was in person (traditional biographers, in their charming old way, describe her as a Rudrakannike). She was more beautiful in mind and heart. So firm was her conviction of being already wedded to her lord Mallikajuna, that at the age of eighteen, in a country, at a time noted for early marriages, she was still single. The turning-point in her life came when King Kausika, returning from a hunt, saw her among the crowd that had been drawn by the din and splendour of the cavalcade, and on the instant fell captive to her beauty.

Incredible champions are those who are passionate about impacting the society with deeds of humbleness. They give utmost care for fellow humans! You may get to know the trigger for a champion to choose whatever he wanted to do in life. Social activity is not weird, be sacrificing and suffering! It can be pleasure and a way of living. You do not need to chuck everything to be a social activist. You can do it as part of your living and other pecuniary engagements. It is all about love for fellow humans and how to impact their life in a meaningful way. You enjoy giving resources namely time, money and managerial capability. They see value in your service and move up in life with dignity and pride. You may become a champion. Understand the trigger, ride the opportunities and face the challenges to make fellow humans happy in your own way.
