Iron Age Government Printing Office  
This publication is a two-yearly report on trends in the steelmaking capacity in economies that are not members of the OECD. This report examines the current steelmaking capacity of these economies and likely changes therein up to the year 2012.

Decisions and Orders of the National Labor Relations Board Minerals Yearbook:  
Volume 3: A

This reference text provides detailed information on the world's 1200 largest and most influential companies. Each entry contains details such as: company's legal name; mailing address; ownership; sales and market value; stock index; and principal subsidiaries. Each two to four page entry is detailed with facts gathered from popular magazines, academic periodicals, books, annual reports and the

archives of the companies themselves. Information is also provided about founders, expansions and losses, and labour/management actions. Entries are arranged alphabetically by industry name, and there is a cumulative index to companies and personal names.  
*Conditions of Competition in the Western U.S. Steel Market Between Certain Domestic and Foreign Steel Products*  
OECD Publishing  
The Minerals Yearbook is an annual publication that reviews the mineral and

material industries of the United States and foreign countries. The Yearbook contains statistical data on materials and minerals and includes information on economic and technical trends and development. The Minerals Yearbook includes chapters on approximately 90 commodities and over 175 countries. This volume of the Minerals Yearbook provides an annual review of mineral production and trade and of mineral-related government and industry developments in more than 175 foreign countries. Each report includes sections on government policies and programs, environmental issues, trade and production data, industry structure and ownership, commodity sector developments, infrastructure, and a summary outlook.

*Decisions and Orders of the National Labor Relations Board* Hoover's

This book covers all aspects and elements of rolling technology in one volume with even the most technical jargon being communicated in an easy to understand language. The book is exhaustive as topics ranging from rolls, rolls cooling, roll turning, roll reclamation, investigation of roll breakage, roll management and roll

bearing all have been dealt in detail as these constitute the most important element of production cost. A separate chapter has been dedicated to operational management of a rolling mill, which includes safety and inventory. Packaging of the finished products and modern operating mill practices and technologies are also discussed in detail. This book will be a useful tool for shop floor personnel and for all senior management operating in the rolling mill industry; it is also a must read for all polytechnic / engineering students of metallurgical / mechanical / process engineering. This book may also be useful as reference book for students/professionals of rolling technology. Note: T&F does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.

**International Directory of Company Histories** Saint James Press

Multi-volume major reference work bringing together histories of companies that are a leading influence in a particular industry or geographic location. For students, job candidates, business executives, historians and investors.  
*AISE Steel Technology* OECD Publishing

Includes the decisions and orders of the Board, a table of cases, and a cross reference index from the advance sheet numbers to the volume page numbers.  
*Iron and Steel Engineer* Government Printing Office

This report on steel capacity developments in non-OECD countries is done every two years. It reviews available material on existing capacity and on likely developments through 2003.

**Chilton's Iron Age** DIANE Publishing  
The region of Europe and Central Eurasia defined in this volume encompasses territory that extends from the Atlantic Coast of Europe to the Pacific Coast of the Russian Federation. It includes the British Isles, Iceland, and Greenland (a self-governing part of the Kingdom of Denmark). Included are mineral commodity outlook tables, plus global overview research for particularly commodities within a specific regions/countries are presented throughout the text. Manufacturers of these metals and commodities, along with trade brokers that may specialize in imports and exports, political scientists, and economists may also be interested in

this volume. Students pursuing research on specific metals and mineral commodities for world economy courses may be interested in this volume. Related products: Other print volumes in the Minerals Yearbook series can be found here:
