International Law* Encyclomedia Publishers
The ancient history of Greece holds a
great deal of interest to many, particularly
to those whose culture and religion grew
from early Greek civilisation. Originally
published in 1913, Hall provides a
thorough history of the origins of Ancient
Greek civilisation as well as commenting

on Egypt, Syria, Palestine and Babylon
amongst others. This title will be of
interest to students of Classics and
Ancient History.

Herodotus Editoriale Jaca Book
Presented in this volume is a collection of
the shorter writings of one of the more
innovative scholars working on the
relationship between the writings of the
Hebrew Bible and its ancient Near East
context. Topics include: ANE environment,
literature of the ANE, myth versus history,
Nebuchadnezzar I's Elamite crisis, Job and
the Israelite religious tradition, motif of the

weeping God in Jeremiah, lament tradition
in ANE, the hand of Yahweh, and whether
God lies.

Life in Neolithic Farming Communities

Editoriale Jaca Book
Memoria presente - vol. 1, dalla Preistoria
alla fine della repubblica romana - è un
manuale agile, chiaro e completo,
arricchito da un innovativo Atlante
tematico per esplorare nello spazio e nel
tempo l'economia, la tecnologia, gli
scambi. Un modo nuovo per comprendere
l'integrazione tra storia e saperi settoriali
negli Istituti Tecnici. Questo prodotto

Antico Oriente Editoriale Jaca Book

Drawing on both the results of recent archaeological research and anthropological theory, leading experts synthesize current thinking on the nature of and variation within Neolithic social arrangements. The authors analyze archaeological data within a range of methodological and theoretical perspectives to reconstruct key aspects of ritual practices, labor organization, and collective social identity at the scale of the household, community, and region.

The Ancient Gods Armando Editore

This book offers a unique survey of legal practices and ideas relating to international relations in the Ancient Near East between 2500 and 330 BCE.

The Bible and the Ancient Near East BRILL

In Brill'Companion to Military Defeat in Ancient Mediterranean Society, Jessica H. Clark and Brian Turner compile original case studies that examine how Near Eastern, Greek, and Roman societies addressed – or failed to address – their

military defeats and casualties of war.

Il vicino Oriente antico dalle origini ad Alessandro Magno Routledge

Paperback reprint of the cloth original Winner of the 2004 Outstanding Academic Title award from the American Library Association! Filling a gap in classroom texts, more than 60 essays by major scholars in the field have been gathered to create the most up-to-date and complete book available on Levantine and Near Eastern archaeology.

Civilizations of the Ancient Near East Routledge

Consists of articles organized in eleven parts: the ancient Near East in Western thought; the environment; population; social institutions; history and culture; economy and trade; technology and artistic production; religion and science; language, writing, and literature; visual and performing arts; and retrospective essays.

The Ancient Near East, C. 3000-330 BC Barnes & Noble

A single-authored two-volume work which makes no claims to comprehensiveness, but selectively treats periods and areas usually studied in universities (treatment

of Egypt is brief because of the availability of studies of Egyptian history at all levels). It is intended as an introduction to ancient Near Eastern history, to the main sources used for reconstructing societies and political systems, and to some historical problems and scholarly debates. The area discussed extends from Turkey (Anatolia) and Egypt in the west through the Levant (which includes Israel, Lebanon, Jordan, and Syria west of the Euphrates) to Mesopotamia into Iran. Volume I covers c.3000 BC to c.1200 BC; volume II, 1200 BC to 330 BC. The author is a Reader in Ancient History at University College London. Annotation copyright by Book News, Inc., Portland, OR.

L'antichità. Le civiltà del Vicino Oriente Routledge

This book challenges the current view of the Homeric epics, according to which they reflect only the institutions and ideas of their own time, telling us nothing about the Mycenaean Age preceding it. Using a comparative analysis of evidence from the Near East and the Homeric corpus, Peter Karavites comes to the bold conclusion that the epics actually contain much that harks back to the Mycenaean Age, and

that the two eras may not be completely discontinuous after all. Most contemporary scholars maintain that the mighty Mycenaean period was almost completely separated from the Dark Ages and that virtually no evidence of the former remains, with the exception of the archeological finds and the meager testimony of the Linear B tablets. However, the Near Eastern evidence about treaties and other forms of promising suggests that the Iliad and Odyssey may indeed provide historical pictures of the Mycenaean times featured in their narratives.

Monografie di archeologia e d'arte
Routledge

In *Death, Burial and Rebirth in the Religions of Antiquity*, Jon Davies charts the significance of death to the emerging religious cults in the pre-Christian and early Christian world. He analyses the varied burial rituals and examines the different notions of the afterlife. Among the areas covered are: * Osiris and Isis: the life theology of Ancient Egypt * burying the Jewish dead * Roman religion and Roman funerals * Early Christian burial * the nature of martyrdom. Jon

Davies also draws on the sociological theory of Max Weber to present a comprehensive introduction to and overview of death, burial and the afterlife in the first Christian centuries which offers insights into the relationship between social change and attitudes to death and dying.

Petrolio e rivoluzione. Il Vicino Oriente negli anni d'oro Charles Scribner's Sons
What do we know of the real Nebuchadnezzar? Was there an historical precedent for the mythical Gilgamesh? Who were the Hittites? When did Isaiah preach? How did Jezebel get her reputation? These and many more questions are answered in this fascinating survey of the people who inhabited the Near East between the twenty-fifth and the second centuries BC. From Palestine to Iran and from Alexander the Great to Zechariah, *Who's Who in the Ancient Near East* presents a unique and comprehensive reference guide for all those with an interest in the ancient history of the area. A comprehensive glossary, chronological charts, maps and bibliographical information complement the biographical entries.

Testimoni Nella Documentazione Del Vicino Oriente Antico BRILL

The Ancient Near East embraces a vast geographical area, from the borders of Iran and Afghanistan in the east to the Levant and Anatolia, and from the Black Sea in the north to Egypt in the south. It was a region of enormous cultural, political and linguistic diversity. In this authoritative new study, Amélie Kuhrt examines its history from the earliest written documents to the conquest of Alexander the Great, c.3000-330 BC. This work dispels many of the misapprehensions which have surrounded the study of the region. It provides a lucid, up-to-date narrative which takes into account the latest archaeological and textual discoveries and deals with the complex problems of interpretation and methodology. The Ancient Near East is an essential text for all students of history of this region and a valuable introduction for students and scholars working in related subjects. Winner of the AHO's 1997 James Henry Breasted Award.

Il vicino Oriente. Un montaggio irrisolvibile
Editoriale Jaca Book

During the Ptolemaic period, Egyptian

temples were divided into three ranks: first, second and third class. This volume examines the rules according to which Egyptian sacred buildings were classified and how the different classes of temples were planned and arranged.
