Pie Corbett's ground-breaking Talk for Writing approach has been successfully used by thousands of schools to teach writing creatively in an engaging way that motivates children. Now Pie and Julia take this multi-sensory approach to Early Years settings

introducing a simple way to inspire young children's language development through storytelling. Children learn language through memorable, meaningful repetition. The Talk for Writing approach enables children to internalise the language of story so that they can imitate it, innovate on it and create their own effective stories independently. Talk for Writing in the Early Years will show you how to put rhyme and story at the heart of your work with children and parents so that young learners language development and creativity flourishes. This multimedia resource shows you how to:

- Select a story or rhyme the children will enjoy and tell it engagingly,

encouraging the children to join in •Use a story map so they can picture what happens •Use actions to reinforce meaning and emphasise key language patterns •Help children build a bank of tales, developing their linguistic repertoire

The 2 OLCs contain: 1 Footage of Pie Corbett conferences with EY teachers showing Talk for Writing in action 2 Clips of nursery children engaged in the Talk for Writing approach 3 Advice on how to use the OLC and handouts to train all staff in the approach 4 Interviews with parents and nursery school teachers on the impact of Talk for Writing 5 21 stories with story maps

War, famine, disease; just a few of the many evils with which we share our world and daily lives but never aware that they exist as physical forms, escaped from the prison world of Exilia. The key to Exilia, lost since before recorded history, has now been found. The entrance to the prison world has been discovered, and the story told to the children by the last of the caretakers is just the beginning of what will become a quest of daring, confrontation, humour and spine tingling terror. The world has been waiting for millennia for the key to be found, for the long awaited moment to arrive when the defenders of good would be freed from their own imprisonment to

continue their fight against the evils. But in order to so, Gabby and the brothers must first enter the world of Exilia and fulfil their quest. Guided by the map on the key they must travel through a world where time itself doesn't exist, where the extraordinary is the ordinary, the unbelievable is the believable, and nightmares are a reality. The creatures of evil must be confronted, battled or avoided. A future of peace and tranquillity, or pain and suffering, will depend on either success or failure. But can their quest be fulfilled - can they succeed?

Anyone who has ever

stood on the shores of Monterey Bay, watching the rolling ocean waves and frolicking otters, knows it is a unique place. But even residents on this idyllic California coast may not realize its full history. Monterey began as a natural paradise, but became the poster child for industrial devastation in John Steinbeck's Cannery Row, and is now one of the most celebrated shorelines in the world. It is a remarkable story of life, death, and revival—told here for the first time in all its stunning color and bleak grays. *The Death and Life of Monterey Bay* begins in the eighteenth century when Spanish and French explorers encountered a rocky shoreline brimming

with life—raucous sea birds, abundant sea otters, barking sea lions, halibut the size of wagon wheels, waters thick with whales. A century and a half later, many of the sea creatures had disappeared, replaced by sardine canneries that sickened residents with their stench but kept the money flowing. When the fish ran out and the climate turned, the factories emptied and the community crumbled. But today, both Monterey's economy and wildlife are resplendent. How did it happen? The answer is deceptively simple: through the extraordinary acts of ordinary people. The *Death and Life of Monterey Bay* is the biography of a place,

but also of the residents who reclaimed it. Monterey is thriving because of an eccentric mayor who wasn't afraid to use pistols, axes, or the force of law to protect her coasts. It is because of fishermen who love their livelihood, scientists who are fascinated by the sea's mysteries, and philanthropists and community leaders willing to invest in a world-class aquarium. The shores of Monterey Bay revived because of human passion—passion that enlivens every page of this hopeful book. *Motor Truck Open Road Media* Unbeknown to Harry and Saffy the evil Vuples Syndicate have infiltrated the peaceful countryside of Hiddeyhole and Tail

and set up an international crime ring trading in the illicit Mousee and Blood Diamonds. Harry's and Saffy's new found friends from Spy School must help them to overcome Mr Vernon Fox, Rubeeee Roxy Foxy, Callum Cocky Fox and Gunky Fox along with the rattus rattus gang to bring peace again to their beautiful farm. Will they be able to crack the codes? Will Forest Teriyaki McTwittle, the Thane of Felinnne be able to stay away from the Mousee?.

Imagine waking up inside someone else's body, and in a different century. What would you do? How would the new world around you react to you? This is what happens all the

time to Zak Emblin, an editor from 21st century Birmingham, UK, and Sarah Templeman, a prison service doctor from twenty second century New Palm Springs, USA, who are 'reincarnaters', connected across time by a shared soul. Imagine you are a bright, young scientist, Carmen Fry, who stumbles across the truth behind reincarnation. All you need is a subject to prove your theory to the world, but you can't find one. Until one day, when you are chatting online, you find Zak, and are immediately attracted to him. This is the story of three people, caught in a love triangle, sharing a secret that no-one else will believe, that when we

die we form a connection with a future self, who shares our reincarnated soul. A connection so strong that sometimes we can become that future person and they can become us. We can swap bodies across time.

Harness "Code Halos" to gain competitive advantage in the digital era Amazon beating Borders, Netflix beating Blockbuster, Apple beating Kodak, and the rise of companies like Google, LinkedIn, and Pandora are not isolated or random events. Today's outliers in revenue growth and value creation are winning with a new set of rules. They are dominating by managing the information that surrounds people, organizations, processes, and products—what authors Malcolm Frank, Paul Roehrig, and Ben Pring call Code Halos. This is far beyond "Big

Data" and analytics. Code Halos spark new commercial models that can dramatically flip market dominance from industry stalwarts to challengers. In this new book, the authors show leaders how digital innovators and traditional companies can build Code Halo solutions to drive success. The book: Examines the explosion of digital information that now surrounds us and describes the profound impact this is having on individuals, corporations, and societies; Shows how the Crossroads Model can help anticipate and navigate this market shift; Provides examples of traditional firms already harnessing the power of Code Halos including GE's "Brilliant

Machines," Disney's theme park "Magic Band," and Allstate's mobile devices and analytics that transform auto insurance. With reasoned insight, new data, real-world cases, and practical guidance, Code Halos shows seasoned executives, entrepreneurs, students, line-of-business owners, and technology leaders how to master the new rules of the Code Halo economy.

 Commander Didlittle is a brilliant, soft-hearted, hard-nosed Commander who is sent on impossible missions. His brilliance is needed to make it through the incredible messes he gets into by never reading his orders carefully

enough. His friendship with Canterbury, a ghost, also helps. But will he be able to rescue the Flanagan family from their elusive captors, the Teeny Weenie Meanies, and restore peace to the Kumquat Island Coffee Company? Maybe with the help of the true hero of this story, nine-year-old Bradley Flanagan, who displays an abundance of common sense an attribute that is truly lacking in laughable but lovable Commander Didlittle. Join Commander Didlittle, Bradley, Canterbury, and Sergeant-Major Stinkworthy on this exciting adventure as they fight Beastie Boars, seek out the ghost of Gaston Y Goatwich, and race

against time to save the Flanagan family from a teeny tiny fate.

'Cut his eyes out, so he has. What kind of a monster could . . . Cut his eyes out?' The brutal murder of ten-year-old Callum Bradley sent shockwaves across Scotland. But weeks have stretched on with no solid leads except for a 999 call which may have hinted at the boy's mutilation and murder. However, the call was made three weeks before the crime took place. The caller, a resident at an Edinburgh care home, is drifting in and out of lucidity due to dementia. It is a dead end to his colleagues, though Sergeant Don

Colyear cannot let it drop. When another murder horrifies the city, the clock is suddenly ticking for Colyear and he is drawn far away from his usual beat, to hunt down a violent killer before it is too late.

The inspiration for *The Durrells in Corfu*, a Masterpiece production on public television: A naturalist's account of his childhood on the exotic Greek island. When the Durrells could no longer endure the gray English climate, they did what any sensible family would do: sold their house and relocated to the sun-soaked island of Corfu. As they settled into their new home, hilarious

mishaps ensued as a ten-year-old Gerald Durrell pursued his interest in natural history and explored the island's fauna. Soon, toads and tortoises, bats and butterflies—as well as scorpions, geckos, ladybugs, praying mantises, octopuses, pigeons, and gulls—became a common sight in the Durrell villa. Uproarious tales of the island's animals and Durrell's fond reflections on his family bring this delightful memoir to life. Capturing the joyous chaos of growing up in an unconventional household, *My Family and Other Animals* will transport you to a place you won't want to leave. This ebook features an illustrated biography of Gerald

Durrell including rare photos from the author's estate.

Working with young children on the autistic spectrum and supporting them as they learn can be fascinating, challenging, often overwhelmingly difficult, but more than

anything else, hugely rewarding. Strategies to Support Children with Autism and other Complex Needs bridges the gap between explaining what autism is and finding ways to interact through having a balance of play activities interspersed with more formal teaching of skills of everyday living. This highly practical text provides a bank of strategies that are specially designed to be matched to the developmental status of each child. These strategies are endorsed by academics who have monitored the children's responses in communicating, pretending, playing, moving, and singing and describe how the children have

responded positively over time. This book covers a variety of topics such as: The importance of play for enhancing learning for children with autism and other complex needs Evaluating different ways of developing communication Transferring learning from one environment to another to aid memorizing. Understanding the impact of sensory hypo and hyperactivity on children's learning. Developing a 'Theory of Mind' The importance of movement, music and having fun Observation and assessment schedules are provided, along with clear and helpful evaluation forms which show staff in primary and early years

settings how children on the autistic spectrum can be helped to make meaningful and encouraging progress. This text is a vital read for any practitioners working with children on the autistic spectrum or with complex learning difficulties.

With their world on the brink of war, three young heroes from opposite sides of the conflict embark on a dangerous quest that could change everything. This beautiful book expands on the events of Season 1 of the hit Netflix show *The Dragon Prince*. **WAR IS COMING . . .** Four full moons past, humans crossed into the

magical lands of Xadia and committed an unspeakable crime: They destroyed the only egg of the Dragon King and Queen. Now a young Moonshadow elf assassin has been sent on her first mission; she will make the humans pay for their heinous act. But before she can complete her task, she and two human princes make an astonishing discovery . . . a discovery that could change everything. And so the three reluctant allies set off in a desperate attempt to stop the coming war. Their journey won't be easy, but the trio soon learns that the most serious threat to their quest can't be fought with magic or physical strength. Can these young heroes overcome the

longstanding hatred between humans and elves, and restore peace to their world? Written by Aaron Ehasz (co-creator of The Dragon Prince and head writer of Avatar: The Last Airbender) and Melanie McGanney Ehasz, this first canon novel based on the Netflix original series finally gives fans the full story.

Some secrets take a

lifetime to tell. An unexpected letter from her childhood friend Grace forces May to relive their extraordinary past and confront the events that drove them apart fifty years earlier. May's father won the Diamond Anchor, a dilapidated pub perched on the ocean's edge, in a game of cards - a gamble which positioned her at the heart of the close-knit community for seventy years, and gave her custody of its stories. Now, trying to maintain a careful balance between the demands of the collapsing building and her own solitary life, May must decide whether to reach out to Grace, whose health is fading, or let her go. With all the humor and storytelling of small-

town life, *The Diamond Anchor* is a brilliant tale of the places and relationships that define us.
