Digital Learning in High-Needs Schools examines the challenges and affordances that arise when high-needs school communities integrate educational technologies into their unique settings. Although remote, blended, and networked learning are ubiquitous today, a number of cultural, economic, and political realities—from the digital divide and digital literacy to poverty and language barriers—affect our most vulnerable and underresourced teachers and students. This book uses critical theory to compassionately scrutinize and unpack the systemic issues that impact high-needs schools' implementation of digital learning tools. Incisive sociocultural analyses across fifteen original chapters explore the intersection of society, technology, people, politics, and education in high-needs school contexts. Informed by real-world cases pertaining to technology infrastructure, formative feedback, Universal Design for Learning, and more, these chapters illuminate how best practices emerge from culturally responsive and context-specific foundations.

Designed for schools that want to build on the SEAL programme for primary schools and really focus on positive reinforcement, this book supplements the Primary SEAL resources and covers a huge range of issues which affect self-esteem and self-worth. Each topic has an introduction, an activity page and full instructions for carrying out the activity. The first part of this book deals with the child's self-image and contains activities to build self-worth and self-esteem. It explores feelings in the context of the child as an individual, developing self-awareness and helping the child to realise that it really is 'Good to be me'. The 50 activities help children understand how and why feelings lead them to behave the way they do - particularly the feelings of being excited, proud, surprised, hopeful, disappointed, worried and anxious. Building effective relationships with others has a huge impact on self-confidence and the skills needed are developed in the second part in the same activity-based way. Many of the activities concentrate on building community within the school, concentrating on caring for others and teamwork. All the supplementary materials are supplied on the included CD-ROM for ease of reproduction.
