Second  
Edition  
Pearson  
Higher Ed  
Doing well  
with money  
isn't  
necessarily  
about what  
you know. It's  
about how you  
behave. And  
behavior is  
hard to teach,  
even to really

smart people.  
Money—invest  
ing, personal  
finance, and  
business  
decisions—is  
typically  
taught as a  
math-based  
field, where  
data and  
formulas tell  
us exactly  
what to do.  
But in the real  
world people  
don't make  
financial  
decisions on a  
spreadsheet.  
They make  
them at the  
dinner table,  
or in a  
meeting room,  
where  
personal  
history, your  
own unique

view of the world, ego, pride, marketing, and odd incentives are scrambled together. In *The Psychology of Money*, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about money and teaches you how to make better sense of one of life's most important topics. *Fundamentals of Business (black and White)*
