Part love story, part workplace drama, this sharply observed novel is a witty critique of the false judgments we make in a

social-media-obsessed world. “Sophie Kinsella keeps her finger on the cultural pulse, while leaving me giddy with laughter. I loved it.”—Jojo Moyes
Everywhere Katie Brenner looks, someone else is living the life she longs for, particularly her boss, Demeter Farlowe. Demeter is brilliant and creative, lives with her perfect family in a posh townhouse, and wears the coolest

clothes. Katie’s life, meanwhile, is a daily struggle—from her dismal rental to her oddball flatmates to the tense office politics she’s trying to negotiate. No wonder Katie takes refuge in not-quite-true Instagram posts, especially as she’s desperate to make her dad proud. Then, just as she’s finding her feet—not to mention a possible new romance—the worst happens.

Demeter fires Katie. Shattered but determined to stay positive, Katie retreats to her family's farm in Somerset to help them set up a vacation business. London has never seemed so far away—until Demeter unexpectedly turns up as a guest. Secrets are spilled and relationships rejiggered, and as the stakes for Katie's future get higher, she must question her own assumptions about what

makes for a truly meaningful life. Sophie Kinsella is celebrated for her vibrant, relatable characters and her great storytelling gifts. Now she returns with all of the wit, warmth, and wisdom that are the hallmarks of her bestsellers to spin this fresh, modern story about presenting the perfect life when the reality is far from the truth.

With the adoption of the Common Core State Standards (CCSS) by most of the United States, students need help developing their understanding and use of language within the

academic context. This is crucially important throughout middle school and high school, as the subjects discussed and concepts taught require a firm grasp of language in order to understand the greater complexity of the subject matter. *Building Academic Language* shows teachers what they can do to help their students grasp language principles and develop the

<p>language skills they'll need to reach their highest levels of academic achievement. The Second Edition of Building Academic Language includes new strategies for addressing specific Common Core standards and also provides answers to the most important questions across various content areas, including: What is academic language and how does it differ by content area? How can</p>	<p>language-building activities support content understanding for students? How can teachers assist students in using language more effectively, especially in the academic context? Just for California teachers! California teachers: you're going to love this! Here at last is that single teaching resource for making the critical link between our ELD Standards and the CCSS ELA Standards. Standard by standard,

you'll quickly discover how to integrate language development into your day-to-day content instruction, armed with an insider's understanding of how best to support our many English learners.

Modeled after Jim Burke's Common Core series, this Grades K-2 volume of The California ELD Standards Companion is every bit "that version of the standards you wish you had" because it's just so easy to digest and apply. It's all

here: Horizontal and vertical views reveal how each ELD Standard changes and progresses grade by grade and proficiency level by proficiency level. What the Student Does Sections, also scannable by grade and proficiency level, unpack in student-friendly language what meeting a standard looks like in practice. CCSS ELA Standards are displayed side by side with California's

ELD Standards so you can appreciate the purposeful alignment between the two as the basis for remodeling instructional practice. What the Teacher Does Sections provide specific instructional guidance by grade band, including student prompts and tips for differentiation across proficiency level. A dedicated vocabulary section offers a quick-reference glossary of key words and phrases as they are used within each ELD Standard. Each section concludes with a vignette from the California ELA/ELD Framework to illustrate exemplary standards-based instruction. Thanks to the ELD Standards, we are now free to teach our ELs the way we knew best all along: language and content taught hand in hand across the school day. Lean on Ivannia Soto and Linda Carstens' California ELD Standards Companion as your one-stop guide for delivering that excellent education our ELs so deeply deserve. English 3D Shell Education Building upon the theoretical and practical foundation outlined in their previous book, Educating English Learners, the authors show classroom teachers how to develop a repertoire of instructional techniques

that address K-12 English learners (ELs) at different English proficiency and grade levels, and across subject areas. Show, Tell, Build is organized around two decision maps for planning and implementing differentiated instruction for ELs: the Academic Subjects Protocol (for teachers of academic subjects) and the Language Arts Protocol (for teachers of language arts). The instructional

tools and techniques described in each chapter help teachers provide communication support for ELs through showing and telling, and develop their language proficiency through building their skills. The book also discusses the demands that academic language poses for ELs and ways to assess students' proficiency in English. Show, Tell, Build provides classroom teachers,

English language development specialists, literacy coaches, and school leaders with valuable knowledge and skills to support ELs' academic success.

Where would we be without conversation? Throughout history, conversations have allowed us to see different perspectives, build ideas, and solve problems. Conversations, particularly those referred to in this book as academic conversations, push students to think and learn in lasting ways. Academic conversations are back-and-forth dialogues in which students focus on a topic and

explore it by building, challenging, and negotiating relevant ideas. Unfortunately, academic conversations are rare in many classrooms. Talk is often dominated by the teacher and a few students, or it does not advance beyond short responses to the teacher's questions. Even certain teaching approaches and curriculum programs neglect to train students

how to maintain a focused, respectful, and thoughtful conversation. To address these challenges, authors Jeff Zwiers and Marie Crawford have identified five core communication skills to help students hold productive academic conversations across content areas. These skills include: elaborating and clarifying, supporting ideas with evidence, building on and/or challenging

ideas, paraphrasing, and synthesizing. This book shows teachers how to weave the cultivation of academic conversation skills and conversations into current teaching approaches. More specifically, it describes how to use conversations to build the following: Academic vocabulary and grammar Critical thinking skills such as persuasion, interpretation, consideration

of multiple perspectives, evaluation, and application Literacy skills such as questioning, predicting, connecting to prior knowledge, and summarizing Complex and abstract essential understanding s in content areas such as adaptation, human nature, bias, conservation of mass, energy, gravity, irony, democracy, greed, and more An academic classroom

environment brimming with respect for others' ideas, equity of voice, engagement, and mutual support The ideas in this book stem from many hours of classroom practice, research, and video analysis across grade levels and content areas. Readers will find numerous practical activities for working on each conversation skill, crafting conversation-worthy tasks, and using conversations

to teach and assess. Academic Conversations offers an in-depth approach to helping students develop into the future parents, teachers, and leaders who will collaborate to build a better world. *The Wedding Girl* Guilford Press Make every student fluent in the language of learning. bestselling crime novelist Caz Frear returns with her third superb novel featuring Cat Kinsella, a cop “on par with Susie Steiner’s and Tana French’s female detectives” (Kirkus Reviews). Four victims. Killer caught. Case closed . . . or is it? Growing up in a London family with ties to organized crime, Detective Constable Cat Kinsella knows the criminal world better than most cops do. As a member of the city’s Metropolitan Police, she’s made efforts to distinguish herself from her relatives. But leading an upstanding life isn’t always easy, and Cat has come close to crossing the line, a fact she keeps well hidden from her superiors. Working their latest case, Cat and her partner Luigi Parnell discover a connection to a notorious criminal: serial killer Christopher Masters, who abducted and killed several women in 2012. Though the cops eventually apprehended him, his final victim, Holly Kemp, was never found and he never confessed to her murder, despite the solid eyewitness testimony against him. Now, six years later, the discovery of Holly’s remains near Cambridge seems to be the definitive proof needed to close the case. Still, a few key items of evidence don’t quite
