Bloomsbury Publishing  
The Grants Register 2023 is the most authoritative and comprehensive guide available of postgraduate and professional funding worldwide. It contains international coverage of grants in almost 60 countries, both English and non-English speaking; information on subject areas, level of study, eligibility and value of awards; and information on over 6,000 awards provided by over 1,300 awarding bodies.

Awarding bodies are arranged alphabetically with a full list of awards to allow for comprehensive reading. The Register contains full contact details including telephone, fax, email and websites as well as details of application procedures and closing dates. It is updated annually to ensure accurate information.

### **Independent Schools Yearbook 2012-2013**

Oxford University Press on Demand

This book argues that the

religious import of American environmental literature has yet to be fully recognized or understood. Making Nature Sacred explores how the quest for 'natural revelation' has been pursued through successive phases of American literary and intellectual history.

Even though impacts generated by the widespread availability and ongoing use of small arms and light weapons have not reached a magnitude sufficient to radically reorder contemporary world affairs, awareness of the nature and extent of these impacts has compelled some international actors to take decisive action. Damien Rogers examines how the international community has responded to the challenge of controlling small arms and light weapons since the early 1990s. Using a postinternationalist analytic framework, he specifically focuses on the maturing relationships between particular actors of world affairs and the nascent interconnectivity between their strategies for, and approaches

toward, controlling these weapons. Furthermore, the book identifies ways in which the captains of small arms industry, arms brokers and chief users of these weapons are able to mitigate, resist or elude the intended effects of those responses.

Publisher description

The Grants Register®

1998 Human Kinetics

The most authoritative and comprehensive guide available on postgraduate grants and professional funding worldwide. For over twenty years The Grants Register has been the leading source for up-to-date information on the availability of, and eligibility for, postgraduate and professional awards. With details of over 3,000 awards, The Grants Register is more extensive than any

comparable publication. Each entry has been verified by the awarding bodies concerned ensuring that every piece of information is accurate. As an annual publication, each edition also provides the most current details available today. The Grants Register provides an ideal reference source for those who need accurate information on postgraduate funding: careers advisors, university libraries, student organisations, and public libraries. Also available on CD-ROM.

The Grants Register 2016  
IAP

A monograph on the interface of computational complexity and randomness of sets of natural numbers.

Small Arms Survey 2003

University of Ottawa Press  
Provides guidelines for developing a coherent faculty rewards system, starting with the articulation of international priorities and following the process through the development of department guidelines and union contracts. Also includes sample documents.

**The Roman Salute**

Oxford University Press  
Dance educators in higher education have a long history of enriching the

lives of others through community-based teaching, choreography, research, and service. Yet their valuable contributions to community development may not be acknowledged as legitimate scholarship by the university or other educational organizations. If you are a dance educator or student seeking to engage in public scholarship in dance and want to ensure your work receives the attention it deserves, this resource is for you. Public Scholarship in Dance is a dance-specific guide that provides examples of what others have done and suggestions for ways dance educators can evaluate their own projects or work for scholarship. Complete with research, teaching, performance, assessments, and dissemination tools, it is a total package that supports dance educators in their professional development through public scholarship and community engagement. Author Lynnette Young Overby combines Kolb's experiential education model with her three decades of experience as a dance educator to show how dance can be public scholarship as teaching,

choreography, research, and service. Throughout the text, she shares examples of well-known dance educators who use the methodology to create community dance in a range of settings, including nursing homes, schools, community arts organizations, and underserved groups in the community. Through this text, future public scholars will learn how to do the following:

- Identify the criteria for public scholarship in dance and connect it to academic requirements for dance educators.
- Understand and apply to their projects the framework for public scholarship in dance.
- Broaden their view of public scholarship to include research, testing, choreography, performance, and service.
- Document their professional activities and development for university administrators.
- Demonstrate the value of their contributions within the framework of promotions, merit, and tenure.
- Lay the foundation for projects considered legitimate by the university and other academic settings

Features include the following:

- Real-world examples of successful community dance projects

- Dance-specific models for future project design
- Assessment tools for connecting projects to rigor in dance education
- An appendix with ready-to-use templates to guide the development, implementation, and dissemination of public scholarship in dance projects
- Suggested readings and additional resources for continued learning and professional development

The goal of this text is to assist dance educators in creating scholarly, community-focused projects. To that end, the book mirrors the stated missions of higher education—teaching, research, service, and—for dance educators—choreography. Chapter 1 establishes the historical and theoretical basis for public scholarship while defining public scholarship in dance. Chapter 2 focuses on academic service learning—including the teaching of dance—and the importance of meeting the experiential learning needs of students. Chapter 3 explores choreography as community expression and offers guidelines on assessing and developing community-based choreography. In chapter 4, dance educators delve

into research and the role it plays in shaping a career in public scholarship. Chapter 5 makes a case for service as scholarship while demonstrating specific assessment criteria that demonstrate impact. Chapter 6 explores various forms of assessment that can be used to document projects and prepare for tenure, promotion, and merit considerations. Chapter 7 concludes by proposing a vision for the future of dance education in which community is an integral part. Public Scholarship in Dance will inspire budding and experienced dance educators and arm them with the necessary tools to incorporate community engagement into their lives to positively affect students, their community, and their professional portfolios.

*An Apprenticeship in Arms*  
Routledge

In the summer of 1812 Britain stood alone, fighting for her very survival against a vast European Empire. Only the Royal Navy stood between Napoleon's legions and ultimate victory. In that dark hour America saw its chance to challenge British dominance: her troops

invaded Canada and American frigates attacked British merchant shipping, the lifeblood of British defence. War polarised America. The south and west wanted land, the north wanted peace and trade. But America had to choose between the oceans and the continent. Within weeks the land invasion had stalled, but American warships and privateers did rather better, and astonished the world by besting the Royal Navy in a series of battles. Then in three titanic single ship actions the challenge was decisively met. British frigates closed with the Chesapeake, the Essex and the President, flagship of American naval ambition. Both sides found new heroes but none could equal Captain Philip Broke, champion of history's greatest frigate battle, when HMS Shannon captured the USS Chesapeake in thirteen blood-soaked minutes. Broke's victory secured British control of the Atlantic, and within a year Washington, D.C. had been taken and burnt by British troops. Andrew Lambert, Laughton Professor of Naval History in the Department of War Studies at King's College London, brings all his

mastery of the subject and narrative brilliance to throw new light on a war which until now has been much mythologised, little understood.

*University of Michigan Official Publication* BRILL

This title includes information and analysis on global small arms production, stockpiles and legal and illicit transfers, and a review of international, regional and national measures to address the issue of small arms proliferation.

**Technique** CUA Press

It was the 50s and life was simple, until September 25, 1954. That was the night that would be etched in the memory of the citizens of Stanfield, Massachusetts. The Chief of Police described the brutal savagery of the double homicide as "the most atrocious crime in the history of the city." A fourteen-year-old girl, and

the four-year-old boy in her care were murdered at the hands of a deranged, depraved killer. *A Thread of Evidence* places the reader at the scene of the crime, an eye witness to the senseless stabbing of two innocent children. With a piece of crochet thread as their only clue, the entire police department, lead by detectives Steven Logan and Raymond Gage, scour the city in search of a maniacal savage. When all tips and leads have been exhausted, they review all evidence. They come back to the thread. The only real evidence. With tenacity and perseverance of Logan and Gage the killer is apprehended. The reader experiences the twists and turns of the investigation, and ultimately occupies a reserved seat in the Superior Court as the trial proceedings commence. *A Thread of Evidence* has been written as fiction, but inspired by an actual event. Fifty years later, it remains etched in the minds of all who had lived in the area. The author has researched court records, newspapers, interviewed neighbors, police and has drawn on personal recollections of the crime. The story has

been recounted over and over and to this day, it continues to be discussed. *A Thread of Evidence* is a compelling account of superb detective work, and unprecedented dedication of an entire police department. Directory of Research Grants A&C Black Each number is the catalogue of a specific school or college of the University.

**Law and Liberation**

Oxford University Press Alienation between the U.S. military and society has grown in recent decades. Such alienation is unhealthy, as it threatens both sufficient civilian control of the military and the long-standing ideal of the 'citizen soldier'. Nowhere is this issue more predominant than at many major universities, which began turning their backs on the military during the chaotic years of the Vietnam War. *Arms and the University* probes various dimensions of this alienation, as well as recent efforts to restore a closer relationship between the military and the university. Through theoretical and empirical analysis, Donald Alexander Downs and Ilia Murtazashvili show how a military presence on

campus in the form of ROTC (including a case study of ROTC's return to Columbia and Harvard universities), military history and national security studies can enhance the civic and liberal education of non-military students, and in the process help to bridge the civil-military gap.

The Health Professions Scholarship Program  
Springer

The raised-arm salute was the most popular symbol of Fascism, Nazism, and related political ideologies in the twentieth century and is said to have derived from an ancient Roman custom. Although modern historians and others employ it as a matter of course, the term "Roman salute" is a misnomer. The true origins of this salute can be traced back to the popular culture of the late nineteenth and early twentieth centuries that dealt with ancient Rome: historical plays and films. The visual culture of stage and screen from the 1890s to the 1920s was chiefly responsible for the wide familiarity of Europeans and Americans with forms of the raised-arm salute and made it readily available for political purposes. The Roman Salute: Cinema,

History, Ideology by Martin M. Winkler presents extensive evidence for the modern origin of the raised-arm salute from well before the birth of Fascism and traces its varieties and its dissemination. The continuing presence of certain aspects of Fascism makes an examination of all its facets desirable, especially when the true origins of a symbol as potent as the salute and the history of its dissemination are barely known to classicists and historians of ancient Rome on the one hand, and to scholars of modern European history, on the other. Thus this book will appeal to classicists and historians, including film historians, and will be of interest to readers beyond the academy.

Architecture, Form, Space & Order Springer

Women across early modern Europe suffered repressive and restrictive patriarchal measures that denied them education and a voice. Nowhere was this more apparent than in Counter-Reformation Iberia. Yet there is increasing awareness of a wealth of cultural activity by women, produced in spite of long-cherished masculine notions of biological determinism,

masculine control, and feminine shame. Women proved that given the opportunity and the education they were equal in reason and intelligence to their male counterparts. *Subtle Subversions* is the first full-length, contextual, and analytical study of the sonnets of five seventeenth-century women in Spain and Portugal: Luisa de Carvajal y Mendoza, Catalina Clara Ramírez de Guzmán, Sor María de Santa Isabel, Leonor de la Cueva y Silva, and Sor Violante del Cielo. Using the sonnets as a basis for inquiry, Gwyn Fox adds significantly to scholarship on women's interpersonal relationships through nuanced and revealing analyses of family and friendship as seen through the sonnets. She deciphers issues of subjectivity, interpersonal relationships, and power structures and engages with patronage as a major issue in women's writing. As a difficult form of poetry requiring wit, artistry and education, sonnets provided the ideal framework to display intellectual skills and education, but they also allowed the women to create a subtext of criticism of contemporary

systems of control. Although their criticisms had to be subtle, since these systems still offered them much in terms of social advancement and privilege, these women and their works revise our understanding of women's lives in Baroque Spain and Portugal. English translations accompany the Spanish quotations throughout the book. Gwyn Fox is honorary research fellow at the University of Auckland, New Zealand, where she teaches Spanish language and literature. Fox is currently translating *Los baños de Argel*, a previously untranslated play by Miguel de Cervantes. "Fox demonstrates that the fixed form of the sonnet simultaneously allowed women to showcase their intellectual talents and critique predominant masculine norms in an understated fashion. . . . Recommended." -- P.W. Manning, *Choice* "In this beautifully written study of five early modern Iberian poets, Gwyn Fox offers a revisionary history of women's poetics as well as a challenge to conventional Renaissance hermeneutics. . . . Fox delves deeply into each theme, not only

contextualizing, but also historicizing her analysis by comparing these women's writings with a broad range of examples. Indeed a bonus of this book is that it does not limit itself to the five women specified above or solely to their sonnets. Fox speaks knowledgeably about other women writers, such as Maria de Zayas and Sor Juana Ines de la Cruz, to name the most well known, and mentions lesser-known figures such as Inarda de Arteaga. . . . [Fox's] close readings of individual poems are themselves subtle and nuanced. . . . She offers original insights into the poems' social purpose. . . . It is a welcome and much-needed addition to early modern Spanish scholarship." -- Anne J. Cruz, *Renaissance Quarterly* "Fox's contribution adds to prior rediscoveries and assessments of the poetry of five Iberian women of the Baroque about whose lives, in some cases, very little is known. . . . The critical analysis offered in *Subtle Subversions* present new insights into the interpersonal relationships of women as well as their engagement with structures of social power, affirming that their

sonnets were meant to display these authors' intellect, wit, and education. . . . With her skillful readings of their sonnets, Fox offers a fuller picture of these women's poetic production and contributes to an overall understanding of upperclass women's lives in Spain and Portugal." -- Dana Bultman, *Caliope*

W. Norton & Company Peterson's *The Best Scholarships for the Best Students* is here to help ambitious, high-performing students get the most out of the educational process. This guide will help students find honors, awards, and life-changing opportunities. In addition to our descriptive award listings, there are also sections on writing about yourself, preparing a strong curriculum vitae/resume, and obtaining strong letters of recommendation. Peterson's also has advice for parents of accomplished students and advice from past student award winners. Peterson's *The Best Scholarships for the Best Students* provides expert strategies to help successful students apply

for and win major academic and experiential awards.

Forms of Hatred

AuthorHouse

"Gunfight" promises to be a seminal work in its examination of America's four-centuries-long political battle over gun control and the right to bear arms. Winkler uses the landmark 2008 case *District of Columbia v. Heller*, which invalidated a law banning handguns in the nation's capital, as a springboard for a groundbreaking historical narrative.

*Gunfight: The Battle Over the Right to Bear Arms in America* Gracewing

Publishing

This ground-breaking book offers an extensive legal analysis-grounded in public, EU, and

international law-of arms trade regulation, integrated with insights drawn from international relations. The sale of weapons and related technologies is, globally, one of the most politically controversial and ethically contentious forms of commerce. Intimately connected with sustaining repressive governments and violations of international human rights and humanitarian law, arms exports are also a central element in the economic and strategic policies of the governments of all large industrial states. They have also been the source of abundant corruption, and of serious challenges to the norms and effectiveness of

constitutional accountability in democratic states. On paper, the arms trade is heavily regulated: national legislation and international treaties are in place which purport to prohibit certain transactions and limit others. Yet despite its importance, legal and international relations scholarship on the subject has been surprisingly limited. This book fills this gap in the literature by examining and comparing the export control regimes of eight leading nations - USA, Russia, the UK, France, Germany, Sweden, China, and India - with chapters contributed by leading experts in the field of law and international relations.
