Meet Liam, Ava, Oki, Chloe and Noah — Canadian kids representing a multicultural blend of culture and race that typifies our amazing country. They'll take you through a year in the life of Canada's kids, from celebrations, traditions and events, to our everyday way of life and the little things that make childhood so memorable. Now in paperback, *A Canadian Year* is a picture book bursting with national pride. It's a snapshot of who we are as Canadians, blending our modern-day culture and lifestyle with past traditions and native heritage. Its pages feature meandering text, dates and gorgeous illustrations showcasing our five Canadian kids at play, at school, at home, and enjoying the sights and sites of our nation. From the frozen glaciers of our north to the sweeping prairies, rocky mountains and great lakes, from vibrant cities to tiny towns, this is our Canadian childhood.

Since the first trade deal with the US in 1987, Canada has insisted on a "cultural exemption" to ensure that governments were free to protect Canadian culture and to restrict foreign ownership and limit foreign content in the media. Negotiators and government ministers considered the cultural exemption key to reassuring Canadians that the deal did not undermine our cultural sovereignty. In every trade deal since, culture has been a contentious issue. Media giants and foreign governments have pushed for unlimited access to Canada. Ottawa has worked with cultural industries to maintain the cultural exemption. Garry Neil has been close to every one of these negotiations, and has been a key advisor to cultural groups on trade deals. He has been part of the international initiative to assert the importance of cultural diversity in the world, and to create effective measures to guarantee it. This book reflects his experience trying to ensure that the reality matches the rhetoric when it comes to culture. As he sees it, in spite of the claims, Canadian cultural policies and programs have been steadily restricted by successive trade deals. He explains how this has happened, and what needs to be done for Canada to maintain our cultural sovereignty and creative life in the face of multinational corporations and their government supporters who are promoting a world monoculture.

The chapters in *The Oxford Handbook of Canadian Cinema* present a rich, diverse overview of Canadian cinema. Responding to the latest developments in Canadian film studies, this volume takes into account the variety of artistic voices, media technologies, and places which have marked cinema in Canada throughout its history. Drawing on a range of established and emerging scholars from a range of disciplines, this volume will be useful to teachers, scholars, and to a general readership interested in cinema in Canada. Moving beyond the director-focused approach of much previous scholarship, this book is concerned with communities, institutions, and audiences for Canadian cinema at both national and international levels. The choice of subjects covered ranges from popular, genre cinema to the most experimental of artistic interventions. Canadian cinema is seen in its interaction with other forms of art-making and media production in Canada and at the international level. Particular attention has been paid to the work of Indigenous filmmakers, members of diasporic communities and feminist and LGBTQ artists. The result is a book attentive to the complex social and institutional contexts in which Canadian cinema is made and consumed.

Since 9/11 there have been many changes to the external environment of Canadian immigration, a number of criticisms of current immigration policy in Canada, and several proposals for dealing with current labour market needs and settlement patterns of immigrants to Canada. In *Canadian Immigration Policy for the 21st Century* the authors examine the issues raised by these concerns. the role of immigration in meeting Canada's demographic and labour market needs, decentralization of immigration policy with special focus on the Quebec perspective and the recent Manitoba experience, policy responses to increasing international labour mobility, immigration data resources in Canada, the changing immigrant experience in the labour market including issues of skill recognition and the effects of business cycles on labour market integration, and social inclusion of immigrants, including the health of immigrant children and visible minority enclaves in major Canadian cities.

The idea of the Arctic Ocean as a mediterranean sea is a shock to those of us[]and that includes most of us[]who cannot shake ourselves free of the Mercatorean vision. Yet this theme is repeated by many of the eminent contributors to this volume: as Michael Marsden states, "IT is difficult to impress upon the public and industry at large that the most essential quality of the Arctic is not cold, or gold, or polar bears, but a central position in the world community." This book, then, is about the North as a frontier, and about Canada's relations with the world beyond that frontier. It is about the Arctic community of which Canada is one of the major members, along with the Soviet Union, the United States, Denmark, Iceland, and Norway. It is also an exercise in perspective. Canadians have long been aware of the significance of their Atlantic and Pacific frontiers and of the implications of their Southern frontier. This volume points out that Canada is not a three-sided country. While it does not neglect the military importance of the Arctic, it endeavours to widen the scope of interest. But it does not present the familiar arguments about the surpassing importance of the Arctic. It deflates as well as inflates. Its purpose is to assess as precisely as possible the implications of the Arctic frontier, not to induce either visions or nightmares. It is intended not only for Canadians but for all those who are interested in the polar regions or in the shape of the world at large. The papers in this volume were assembled in collaboration by the Canadian Institute of International Affairs and the Arctic Institute of North America.
