A noir and sensual page-turner that cracks open the Mafia's secret world through the stories of four lives Palermo in the 1980s is a perfect place for a young crime reporter to get his start. The Sicilian Mafia is at work, threatening, wounding, and killing anyone who dares to defy their orders. Our protagonist is himself no angel, hardly compassionate, a bit macho and egocentric, but candid in his recounting of what has unfolded in front of his eyes both on the job and in his private life. Di Piazza, who is also a Sicilian journalist, tells his stories as if he were reporting actual events. His description of the tense bravado of a youth growing up in the midst of Mafia terror is strikingly acute.

What is in the best interest of our students? Is it teaching to the newest standards movement, like the Common Core? Teaching that prepares students to take a test? Or is it something more meaningful and authentic? In his new book, *In the Best Interest of Students*, Kelly Gallagher notes that there are real strengths in the Common Core standards, and there are significant weaknesses as well. He takes the long view, reminding us that standards come and go but what remains constant is the need to stay true to what we know works in the teaching of reading, writing, speaking and listening. Instead of blindly adhering to the latest standards movement, Kelly advocates: - Dialing up the amount of reading and writing students are doing. - Balancing rigorous, high-quality literature and non-fiction with high-interest, student-selected titles. - Giving students much more choice when it comes to reading and writing activities. - Encouraging readers to deepen their comprehension by moving beyond the "four corners of the text." - Using modeling to enrich students' writing skills in the prewriting, drafting, and revision stages. - Helping young writers to achieve more authenticity through the blending of genres. - Resisting the de-emphasis of narrative and imaginative reading and writing. - Providing students with more opportunities to sharpen their listening and speaking skills - Planning lessons that move beyond Common Core expectations. In this provocative and insightful new book, Kelly surveys the teaching landscape since the publication of his highly regarded book *Readicide*, and finds that although some progress has been made, more needs to be done. Amid the frenzy of trying to teach to a new set of standards, Kelly Gallagher is a strong voice of reason, reminding us that instruction should be anchored around one guiding question: What is in the best interest of our students?

Following the route taken by British explorer Ivan Champion in 1927, and amid breathtaking landscapes and wildlife, Salak traveled across this remote Pacific island-often called the last frontier of adventure travel-by dugout canoe and on

foot. Along the way, she stayed in a village where cannibals were still practiced behind the backs of the missionaries, met the leader of the OPM-the separatist guerrilla movement opposing the Indonesian occupation of Western New Guinea-and undertook an epic trek through the jungle. The New York Times said "Kira Salak is tough, a real-life Lara Croft." And Edward Marriott, proclaimed Four Corners to be "A travel book that

transcends the genre?="It is, like all the best travel narratives, a resonant interior journey, and offers wisdom for our times."
