Our future has crumbled. In the late 2020s, the grid finally flickered out for the last time, succumbing to attacks from a newly formed Resistance, fuel scarcity, and general entropy. It is now the year 2037 and many have died, with the few that managed to escape death solely concerned with their daily survival. Gavin Collier is one of those lucky few, but survival alone isn't enough for him anymore. Recognizing that the meaning of life didn't crumble along with the rest of the world, he embarks on a dangerous and personal journey for reasons that few can understand. After leaving his home for the first time in years, Gavin must commit murder in order to save his life, only surviving through good luck and sheer force of will. The series of events that follow will alter Gavin's life forever. He finds true love for the first time, and when his love makes the journey to join Gavin at his family farm, the violence and evil of the outside world follows her there. Renewed by hope and the power of love, Gavin will do whatever it takes to protect his future wife and the remaining members of his beloved family, as the dangerous forces close in on his cherished farm and small community. Gavin's family had been surviving with little help from the outside world, but now they must come together with their neighbors to fight for their land and those they love. Personalities clash, lives are lost, and fear is inescapable. They all must struggle to keep their humanity in this new, brutal world. Gavin knows that they must prevail at all costs, and keep the flames of freedom and faith burning during one of humanity's darkest times. Doing so is the only way to make life worth living, and worth something more than just survival.

The extraordinary array of images included in this volume reveals the full and rich history of the Middle Ages. Exploring material objects from the European, Byzantine and Islamic worlds, the book casts a new light on the cultures that formed them, each culture illuminated by its treasures. The objects are divided among four topics: The Holy and the Faithful; The Sinful and the Spectral; Daily Life and Its Fictions, and Death and Its Aftermath. Each section is organized chronologically, and every object is accompanied by a penetrating essay that focuses on its visual and cultural significance within the wider context in which the object was made and used. Spot maps add yet another way to visualize and consider the significance of the objects and the history that they reveal. Lavishly illustrated, this is an appealing and original guide to the cultural history of the Middle Ages.

EDITED BY REV. THOMAS DAVIDSON ASSISTANT-EDITOR OF 'CHAMBERS'S ENCYCLOPÆDIA' EDITOR OF 'CHAMBERS'S ENGLISH DICTIONARY' Since there are many other updated English dictionaries online and otherwise in the digital form, downloading this dictionary of the yesteryears might not be of any use as a means to find the meaning of English words. However to those who would like to know the whereabouts of the pristine-English that was there in pristine-England, this dictionary would be an ideal possession. It was an age when many English letters came in various combined form - the so-called Alphabetic ligatures. Another mentionable item would be insights that can be

had on what were original meanings of various English words. There are so-many words whose meaning has altered much over the past few years and decades.

"A publication revealing the extraordinary talents of the sculptors of New Guinea, in turn, marked with staggering ferocity and surprising delicacy. The rituals of the native inhabitants of this major island sometimes involved headhunting, perceived as a need to appropriate the enemy's vital forces in order to increase one's own. It is a complex mythology that has given rise to numerous sacred or magic sculptures, the oldest of which were carved with stone tools or sharp shell edges and finished with the pointed teeth of small animals. The Barbier-Mueller Museum presents almost two hundred pieces from New Guinea belonging to its collections, documented by superb photographs, some of which are previously unpublished." --Dust Jacket.

Who, in the name of wonder, had taken the Moonstone out of Miss Rachel's drawer? A celebrated Indian yellow diamond is first stolen from India, then vanishes from a Yorkshire country house. Who took it? And where is it now? A dramatist as well as a novelist, Wilkie Collins gives to each of his narrators a household servant, a detective, a lawyer, a cloth-eared Evangelical, a dying medical man, vibrant identities as they separately tell the part of the story that concerns themselves. One of the great triumphs of nineteenth-century sensation fiction, *The Moonstone* tells of a mystery that for page after page becomes more, not less inexplicable. Collins's novel of addictions is itself addictive, moving through a sequence of startling revelations towards the final disclosure of the truth. Entranced with double lives, with men and women who only know part of the story, Collins weaves their narratives into a web of suspense. *The Moonstone* is a text that grows imaginatively out of the secrets that the unconventional Collins was obliged to keep as he wrote the novel.
