SAP S/4 HANA for Financial Accounting Associates: SAP Certified Application Associate These questions are similar to the ones asked in the actual Test. How should we know? We know, because although we have been working as an SAP Hana and Finance consultant for many years, we have recently certified with the latest version of the Certification test. Before you start here are some Key features of the Certification Exam. This certification exam verifies that the candidate has the knowledge required in the area of SAP S/4 HANA for Financial Accounting. This certificate builds on basic consultant skills and experience that is then refined by practical experience during several projects. Candidates must also demonstrate understanding of Financial Closing, Accounts Payable, Accounts Receivables, General Ledger Accounting, Asset Accounting and Cross Functional Topics. The exam is Computer based and you have three hours to to answer 80 Questions. The Questions are (mostly) multiple choice type and there is NO penalty for an incorrect answer. Some of the Questions have more than one correct answer. You must get ALL the options correct for you to be awarded points. For questions with a single answer, the answers will have a button next to them. You will be able to select only one button. For questions with multiple answers, the answers will have a 'tick box' next to them. This allows you to select multiple answers. You are not allowed to use any reference materials during the certification test (no access to online documentation or to any SAP system). Clearing the Certification will not automatically lead you to a job. However a Certification with some project experience will certainly open a lot of doors for you. So if you have little or no experience, you should get yourself certified, get some project experience, and then the whole of the SAP Consulting World open for you to explore. Helping you with the first step on you ladder to success is this book! Some UNIQUE features of this Book: - There is NO Other quality material in the market for this Certification exam. - The authors have themselves cleared the exam. - All questions are multiple choice format, similar the questions you will get in the actual exam. - Over 150 authentic questions, testing the exact same concepts that will be tested in Your exam!

The rush of entrepreneurial activity in China has been watched with interest by the financial world. This book, the result of an international symposium on Chinese accounting and financial management, assesses the little-known accounting scene in China which up until 1978 remained behind closed doors. Divided into four sections, the volume covers: Chinese perspectives on accounting the business and financial structure of China, including the re-emergence of a Chinese stock market the regulatory framework of accounting in China and comparisons with international accounting standards; the impact of current reforms in Chinese accounting practice the emergence of a new accounting profession in China. The concluding chapter provides an overview of the cultural context of the reforms which took place in the 1990s. By using comparisons with other Asian countries' accounting systems, like Taiwan, the contributors to the volume give an analysis of the state of accountancy in China during the 1990s.

This book analyses the value orientation system of education in Tibet and examines the special education interventions aimed at children with disabilities in the region. The authors draw on their interviews with students, parents, and teachers to shed light on how education is viewed by the general population in Tibet. The book looks at themes such as traditional Tibetan education, the ways in which value orientation affects the development of disabled children, the role of special education interventions in building self-esteem and confidence, and the importance of developing pedagogical care and special schools in Tibet. It also reviews China's existing legal provisions and policies dedicated to persons with disabilities in comparison with Tibet. Finally, it emphasizes the role of practicing social acceptance for children with special educational needs and recommends developing special education interventions based on the cultural foundation and real social conditions of the ethnic group. Based on in-depth qualitative and quantitative research, this book will be of interest to teachers, students, and researchers of education, special education, curriculum studies, sociology, anthropology, disability studies, minority studies and cultural studies. It will also be useful for educationalists, special education institutions, policymakers, social activists, and NGOs.
