Hi, Koo! Greenwillow Books
Stillwater, the beloved Zen panda, now in his own Apple TV+ original series! On life's journey...kindness is the key. Leo and Molly love their new neighborhood. Most of all they love their friend Stillwater. The three friends are quite

a team! From Caldecott Honoree Jon J Muth comes a story about sharing, another about patience, and a third about compassion. With warmth and fun, they learn from one another in the most surprising ways....
Dracula Scholastic Inc. Caldecott Honoree and NEW YORK TIMES bestselling author/artist Jon J Muth takes a fresh and

exciting new look at the four seasons! Eating warm cookies on a cold day is easy water catches every thrown stone skip skip splash With a featherlight touch and disarming charm, Jon J Muth--and his delightful little panda bear, Koo--challenge readers to stretch their minds and imaginations with twenty-six haikus about the four seasons. Koo Jeong A Simon and Schuster The family from Secrets of the Garden are back in a new book about backyard science that explains why the seasons change. Alice and her friend Zack explore the reasons for the seasons. Alice's narrative is all about noticing the changes as fall turns into

winter, spring, and then summer. She explains how the earth's yearlong journey around the sun, combined with the tilt in the earth's axis, makes the seasons happen. Alice's text is clear and simple, and experiential. Two very helpful—and very funny—chickens give more science details and further explanation through charts, diagrams, and sidebars. Packed with sensory details, humor, and solid science, this book makes a complicated concept completely clear for young readers—and also for the many parents who struggle to answer their kids' questions! "Several adults of my acquaintance . . . would find Secrets of the Seasons to be an

eye-popping revelation." —John Lithgow, The New York Times Book Review

Scholastic Inc.

Presents twelve Zen Buddhist affirmational sayings on happiness.

Secrets of the Seasons: Orbiting the Sun in Our Backyard

National Geographic Books Award-winning artist Jon J Muth retells the favorite tale of a selfish community who is tricked into creating a delicious soup from stones. Set in China in

Muth's hauntingly beautiful watercolors. Three strangers, hungry and tired, pass through a war-torn village. Embittered and suspicious from the war, the people hide their food and close their windows tight. That is, until the clever strangers suggest making a soup from stones. Intrigued by the idea, everyone brings what they have until-- together, they have made a feast fit for a king! In this inspiring story about the strength people possess when they work together, Muth takes a simple, beloved tale and adds his own fresh twist. The Three Questions Bloomsbury Publishing USA The author relates how she was sold by poor parents into slavery

and forced to endure brutal servitude in California until a neighbor's anonymous call to the police began her journey to freedom and her subsequent efforts to fight for child slaves.

Gershon's Monster

Simon and Schuster

The perfect tool to help inspire compassion in our world's youth."

—Jane Goodall, world-renowned

primatologist The 20th anniversary edition of the hilarious picture book that poses the classic conundrum: To squish or not to squish? With a meaningful message

about the importance of caring for creatures big and small, this is a perfect gift for Earth Day. What would you do if the ant you were about to step on looked up and started talking? Would you stop and listen? That's what happens in this funny, thought-provoking book.

Originally a song by a father-daughter team, this surprising conversation between a tiny ant and a little girl is bound to inspire important discussions about caring, kindness and respect for both animals and humans.

Zen Ghosts "O'Reilly Media, Inc."

This book is the "Hello, World" tutorial for building products, technologies, and teams in a startup environment. It's based on the experiences of

the author, Yevgeniy (Jim) Brikman, as well as interviews with programmers from some of the most successful startups of the last decade, including Google, Facebook, LinkedIn, Twitter, GitHub, Stripe, Instagram, AdMob, Pinterest, and many others. Hello, Startup is a practical, how-to guide that consists of three parts: Products, Technologies, and Teams. Although at its core, this is a book for programmers, by programmers, only Part II (Technologies) is significantly technical, while the rest should be accessible to technical and non-technical audiences alike. If you're at all interested in startups—whether you're a programmer at the beginning of

your career, a seasoned developer bored with large company politics, or a manager looking to motivate your engineers—this book is for you.

Cloud Cuckoo Land C&R Press

With his stunning

watercolors -- and text that resounds with universal truths, award-winning artist Jon J Muth has transformed a story by Tolstoy into a timeless fable for young readers. What is the best time to do things? Who is the most important one? What is the right thing to do? Nikolai knows that he wants to be the best person he can be, but often he is unsure if he is doing the right thing. So he goes to ask Leo, the wise turtle. But it is Nikolai's own response to a stranger's cry for help that leads him directly to the answers he is looking for. Jon J Muth combined his studies of Zen with his love for Tolstoy to create this profound, yet simple book about compassion and living in the moment.

Sweet Dreamers

Stillwater, the beloved Zen panda, now in his own Apple TV+ original series! Stillwater the Panda returns in a delightful companion to his Caldecott Honor Book, *Zen Shorts*.

Summer has arrived -- and so has Koo, Stillwater's haiku-speaking young nephew. And when Stillwater encourages Koo, and his friends Addy, Michael, and Karl to help a grouchy old neighbor in need, their efforts are rewarded in unexpected ways. *Zen Ties* is a charming story of compassion and friendship that reaffirms the importance of our ties to one another.

Guyku Scholastic Inc.

On the outside, twenty-eight-year-old Fiona Yu appears to be just

another Hello Kitty--an educated, well-mannered Asian American woman. Secretly, she feels torn between the traditional Chinese values of her family and the social mores of being an American girl. To escape the burden of carrying her family's honor, Fiona decides to take her own virginity. In the process, she makes a surprising discovery that reunites her with a long-lost friend, Sean Killroy. Sean introduces her to a dark world of excitement, danger, cunning, and cruelty, pushing her to the limits of her own morality. But Fiona's father throws her new life into disarray when he dupes her into an overnight trip that results in a hasty engagement to Don

Koo, the spoiled son of a wealthy chef. Determined to thwart her parents' plans to marry her off into Asian suburbia, Fiona seeks her freedom at any price. How far will she go to bury the Hello Kitty stereotype forever? Fiona's journey of self-discovery is biting and clever as she embraces her true nature and creates her own version of the American Dream, eliminating--without fear or remorse--anyone who stands in her way.

Addy's Cup of Sugar (A Stillwater Book)
Scholastic Inc.

In a sweet rhyming ode to unconditional love, debut author Kate Dopirak celebrates the silly ups and downs of life with a little one. Introducing an

adorable fox family, where the older brother is sweet...and a bit of a stinker. But whether he gets along (or doesn't) with his baby sibling, whether he is helpful (or not) to his family, or whether he behaves (or doesn't) when it's time to settle down, his Mama is always right there to reassure him that, "No matter what you do, you will always be my boo."

Moonshadow Simon and Schuster Stillwater, the beloved Zen panda, now in his own Apple TV+ original series! Jon J Muth's enlightening new picture book is based on an ancient Buddhist legend, and features Stillwater the Panda from Jon's Caldecott Honor Book and New York Times Bestselling book, *Zen Shorts*. * "A

master class of picture-book storytelling." -- Kirkus Reviews, starred review Addy has moved to a new neighborhood with her beloved kitten, Trumpet. They are best friends, and inseparable. But when Trumpet is hit by a car, Addy seeks her wise friend, Stillwater. She is sure he will know how to bring Trumpet back to life. Stillwater tells Addy she will need to find a special medicine. To do this, she must go to everyone in the neighborhood and collect a cup of sugar. But there is one condition: it can only come from the home of someone who has never been touched by loss. Addy goes from house to house. And when she returns home, Stillwater asks

for her cup of sugar. But, of course, she has none. For there isn't a person who has not felt the pain of loss. How Addy comes to understand how this special medicine works makes for a reassuring story of consolation and healing. Muth's stunning interpretation of this Buddhist tale is infused with light and compassion. And it celebrates the fragile and sacred moments we all share with those we love.

The revised edition of this highly acclaimed

work presents crucial lessons from Japan's recession that could aid the US and other economies as they struggle to recover from the current financial crisis. This book is about Japan's 15-year long recession and how it affected current theoretical thinking about its causes and cures. It has a detailed explanation on what happened to Japan, but the discoveries made are so far-reaching that a large portion of economics literature will have to be modified to accommodate another half to the macroeconomic spectrum of possibilities that conventional theorists have overlooked. The author developed the idea of

yin and yang business cycles where the conventional world of profit maximization is the yang and the world of balance sheet recession, where companies are minimizing debt, is the yin. Once so divided, many varied theories developed in macro economics since the 1930s can be nicely categorized into a single comprehensive theory- The Holy Grail of Macro Economics
