Jones and Davis are fighting. There's a skeleton in the well. There's more to being Welsh than having the accent, isn't there? Written for a single performer, Tara Robinson and Steffan Donnelly's My Body Welsh is a lyrical thriller which guides the audience through Llanfairpwllgwyngyllgogerychwyrndrobwlllantysiliogogoch and into a world of slippery small-town myth-making. My Body Welsh is a vibrant, part-bilingual piece of contemporary theatre that investigates the role storytelling plays in constructing national identity. My Body Welsh was published to coincide with Invertigo Theatre's tour of the play in January 2017.

 What can social spaces tell us about social relations in society? How do everyday social spaces like teashops, reading rooms, and libraries reify—or subvert—dominant social structures like caste and gender? These are the questions that this book explores through a study of modern Kerala. Using archival material, discourse analysis, participant observation, and personal interviews, this book traces the transformation of public spaces through the nineteenth and twentieth centuries. The volume focuses on how "modernity" has also been a struggle for access to public spaces, and non-institutional spaces like teashops, markets, public roads, temple grounds, reading rooms, and libraries have all been crucial to how political culture was shaped, and how dominant hegemonies—caste, class, or capital—have been challenged. It suggests that the secular public sphere that emerged in the last century in Kerala was a result of the constant negotiations between conflicting ideas which were put to test in these social spaces. At a time when digital spaces are fast replacing physical ones, this book is a timely reminder of the struggles that led to the emergence of

secular public spaces in Kerala. It contributes to similar studies on public space that have emerged from other parts of the world over the last decades. A major contribution to understanding modern India, this book will be of interest to scholars and researchers of social history, political science, political sociology, gender studies, linguistics, and South Asian studies.

This authoritative work sheds light on the religious world of the Kalasha people of the Birir valley in the Chitral district of Pakistan, focusing on their winter feasts, which culminate every year in a great winter solstice festival. The Kalasha are not only the last example of a pre-Islamic culture in the Hindu Kush and Karakorum mountains but also practice the last observable example anywhere in the world of an archaic Indo-European religion. In this book, Augusto S. Cacopardo takes readers inside the world of the Kalasha people. Cacopardo outlines the history and culture of this ancient but still extant people. Exploring an array of relevant literature, he enriches our understanding of their practices and beliefs through illuminating comparisons with both the Indian religious world and the religious folklore of Europe. Bringing together several disciplinary approaches and drawing on extensive ethnographic fieldwork, this book offers the first extended study of this little-known but fascinating Kalasha community. It will take its place as a standard international reference source on the anthropology, ethnography, and history of religions in Pakistan and Central South Asia.

Ibn Warraq is a courageous writer on Islam and a passionate defender of reason who continues to struggle on behalf of reason with a culture that seems to be at odds with reason. In this respect, his work, as in the preparation of this edited volume, is an indispensable tool for Muslims themselves so they can wage their struggle for enlightenment and reform of their faith tradition.- Middle East Quarterly...probably the first book of its kind-a compendium of testimonies from former Muslims about the reasons for their estrangement from the Islamic faith itself.-New York Review of BooksIn the West abandoning one's religion (apostasy) can be a difficult, emotional decision, which sometimes has social repercussions. However, in culturally diverse societies where there is a mixture of ethnic groups and various philosophies of life, most people look upon such shifts in intellectual allegiance as a matter of personal choice and individual right. By contrast, in Islam apostasy is still viewed as an almost unthinkable act, and in orthodox circles it is considered a crime punishable by death. Renowned scholar of Islamic Studies Bernard Lewis described the seriousness of leaving the Islamic faith in the following dire terms: Apostasy was a crime as well as a sin, and the apostate was damned both in this world and the next. His crime was treason ù desertion and betrayal of the community to which he belonged, and to which he owed loyalty; his life and property were forfeit. He was a dead limb to be excised.Defying the death penalty applicable to all apostates in Islam, the ex-Muslims who are here represented feel it is their duty to speak up against their former faith, to tell the truth about the fastest growing religion in the world. These former Muslims, from all parts of the Islamic world, recount how they slowly came to realize that the religion into which they were born was in many respects unbelievable and sometimes even dangerous.These memoirs of personal journeys to enlightenment and intellectual freedom make for moving reading and are a courageous signal to other ex-Muslims to come out of the closet.Ibn Warraq is the highly acclaimed author of Why I Am Not a Muslim and Defending the West. He is also the editor of The Origins of the Koran, What the Koran Really Says, Leaving Islam, The Quest for the Historical Muhammad, and Which Koran'.

The state of Kerala in southern India is notable for the ways in which lower-class mobilization and state intervention have combined to create one of the most successful cases of social and redistributive development in the Third World. In contrast to predictions that labor militancy in developing countries threatens to overload fledgling democratic institutions and derail economic growth, The Labor of Development shows that the political and economic inclusion of industrial and agricultural workers in Kerala set the stage for a democratically negotiated capitalist transformation.When compared to the other Indian states, Kerala's departure from the national pattern is tied to its history of social movements and highlights the significance of understanding sub-national patterns of democratic consolidation and state building. The case of Kerala provides important theoretical insights into the circumstances under which the expansion of political and social citizenship can become the basis for managing economic change. Using examples from agriculture, industry, and the informal sector, Patrick Heller examines the institutional and political dynamics through which the demands of organized labor and the imperatives of capitalist growth have evolved from a period of open conflict and stagnation to one of class compromise. He also demonstrates that the Kerala model has broad ramifications for understanding the relationship between substantive democracy and market economies in low-income countries.
