"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Killingworth Upon Matinecock, in the Township of Oyster Bay, Long Island, N.Y Pearson Higher Ed  
 "The immigrant with whom we are primarily interested was Georg Christoff Oechslen. Tradition has it that his family had lived in Alsace for a generation or two already after leaving Schaffhausen, and that his father had been impressed into the Army of Frederick William I ... [he] was born about 1705-1706 ... arrived in Philadelphia on October 2, 1727 on the ship "Adventure" ... apparently lived in the vicinity of Philadelphia for a few years, joining in that extensive excursion of the "Pennsylvania Germans" to Loudoun County, Virginia ... He was married about the same time, but whether in Pennsylvania or Virginia is not known, nor is the maiden name of his wife known, other than that she was called Catherine"--Page 18. Descendants eventually adopted the surname Exline and Axline. Descendants lived in Pennsylvania, Virginia, Colorado, Kansas, Ohio, Iowa, Indiana, Illinois, Missouri, California and elsewhere

This book brings together past experience, current work and promising future trends associated with distributed computing, artificial intelligence and their application in order to provide efficient solutions to real problems. DCAI 2020 is a forum to present applications of innovative techniques for studying and solving complex problems in artificial intelligence and computing areas. This year's technical program will present both high quality and diversity, with contributions in well-established and evolving areas of research. Specifically, 83 papers were submitted to main track and special sessions, by authors from 26 different countries representing a truly "wide area network" of research activity. The DCAI'20 technical program has selected 35 papers and, as in past editions, it will be special issues in ranked journals. This symposium is organized by the University of L'Aquila (Italy). We would like to thank all the contributing authors, the members of the Program Committee and the sponsors (IBM, Armundia Group, EurAI, AEPIA, APPIA, CINI, OIT, UGR, HU, SCU, USAL, AIR Institute and UNIVAQ).

What is the American thriller? Has it developed over time? What was it like in the past? This is a book about thrillers and gaining knowledge of what American thrillers were like in a specific period - the 1970s. Analysing seventies texts about crime, police, detectives, corruption, paranoia and revenge, The American Thriller aims to open debates on genre in the light of audience theory, literary history and the place of popular fiction at the moment of its production.

This book examines the nature of retail financial transaction infrastructures. Contributions assume a long-term outlook in their exploration of the key financial processes and systems that support a global transition to a cashless economy. The volume offers both modern and historic accounts that demonstrate the constantly changing role of payment instruments. It brings together different theoretical approaches to the study, re-examining and forecasting changes in retail payment systems. Chapters explore a global transition to a cashless society and contemplate future alternatives to cash, cheques and plastic, featuring the perspectives of academics from different disciplines in conversation and industry participants from six continents. Readers are invited to discover the innovation in payment systems and how it co-evolves with changes in society and organisations through personal, corporate and governmental processes.
