From his upbringing with seven siblings in rural New Zealand, experiences in Ireland as a child, to his rise through the rugby ranks with Taranaki and the Hurricanes, Beauden Barrett will give an insight into what has made him the player he's become, the setbacks he had along the way and the choices he had to make. One big decision as an 18-year old changed the course of his career and, instead of being lost to New Zealand rugby entirely, set Beauden on the path towards becoming an All Black. Now widely seen as one of the best players in the game, he could have been an AFL star in Australia if it weren't for one phone call. He may have gone from high school to the All Blacks in the space of three years, but the path was far from smooth. Packed with tips and skills, along with drills for different ages and abilities to help young players progress their game, Beauden will also offer advice on how to become a better player off the field, how he learned to adapt to life as a professional sportsman at such a young age and who helped him along the way. *Beauty - Skills, Drills and the Path to the Top* is an aspirational read for fans young and old.

'There is so much more to the man than single-minded determination.' Sunday Telegraph 'His first day in the job of England coach is superbly described, and thereafter he is forever going the extra yard to make his team great.' Sunday Times _____ Winning! tells a remarkable story - an unforgettable journey that began in September 1997 and took the English Rugby Team team from the lower ranks of international first-class rugby to the top as World Cup Champions. Sir Clive Woodward and his team mounted a campaign of vast change, great learning, team building and clear vision to achieve their aim. 'We would question everything, change anything and leave no stone unturned,' he writes. WINNING! will talk about the team's journey of innovation and discovery and will reveal exactly how it happened, the fundamentals of their success and how these principles can be applied to any human endeavour. 'We changed the way we coached, the way we played and, of equal importance, how we operated off the field.' Bringing his business management skills to the game, Woodward simplified the entire approach to the structure of the team and created new management systems both on and off the pitch. In an anecdotal style, Clive Woodward entertains and informs while he describes the thrilling build-up to England's World Cup triumph in 2003.

Faa'imata represents the traditional home of Kava, a significant figure and source of Tongan culture. Thus, as in the legend of the origin of Kava, Faa'imata connotes a place where great sacrifices have been laid to honour authority and yet also where kingly favours have been granted that covered shortcomings and inadequacies. More significantly, it marks a place where new beginnings and new legacies can sprout. Therefore the Road to Faa'imata represents the many facets and multiple interpretations of the pathways and passages traversed by each of the Tonga High School ex-student featured. It represents an equalizer of sorts where students coming from diverse backgrounds and stations in society are provided with empowering opportunities to achieve outcomes that benefit Tonga, reflecting their capacity to absorb, critique and reapply what they have learnt.

This enhanced edition contains match footage highlights from every tour from 1955 to 2009, additional photographs and text, as well as a statistical section and an abridged history of the Lions. This is the history of the British & Irish Lions... in their own words. For 125 years the British & Irish Lions have stood out as a symbol of the ethics, values and romance at the heart of rugby union. To represent the Lions is the pinnacle for every international player in Britain and Ireland, and the dream of tens of thousands of avid fans who follow them. A Lions tour, undertaken every four years to the southern hemisphere, is more than a series of rugby matches played out on foreign fields; it is an epic crusade where the chosen few face a succession of mental and physical challenges on their way to the Test arena, where they do battle with the superpowers of the world game. Behind the Lions sees four esteemed rugby writers from each of the Home Nations delve to the very heart of what it means to be a Lion, using diaries and letters from those who pioneered the concept, to interviews with a vast array of players who have followed in their footsteps. In so doing they have

uncovered the passion, pride and honour experienced when taking up the unique challenge of a Lions tour. This is a tale of heart-break and ecstasy, humour and poignancy that is at once inspirational, moving and utterly compelling. And it is the only story worth hearing: the players' own.

In his entertaining and informative new book, Sir Clive Woodward analyses the events of the 2019 Rugby World Cup, offering his unique perspective on the performance of players and coaches, from Owen Farrell and Kieran Read, to Eddie Jones and Steve Hansen. HOW TO WIN: Talent Alone is Not Enough is much more than the story of a tournament, however. It is the distillation of a philosophy of leadership developed during a lifetime in high-performance environments, from the rugby field to the boardroom. Tapping into his experience of winning the 2003 World Cup, being a part of the leadership team that delivered Olympic Success in 2012 and lessons drawn from Japan 2019, the author delivers a go-to manual in how to improve both individual and team performance in order to reach the pinnacle in sport and in business. Every individual position in rugby requires a unique set of skills, knowledge and expertise that collectively form a balanced team; the same is true in any successful business or organisation. From 1 to 15, the former England and British and Irish Lions coach identifies the key attributes and uses these defining traits to explain his collaborative 'Teamship' leadership style. With a fascinating blend of analysis, insight and anecdote, and the highs and lows of a memorable Rugby World Cup as the setting, Clive reveals how to lead the culture of a winning team - in any context.

The remaining chapters discuss the diurnal changes, the statistical prediction, the mode theory, and the propagation of very and extremely low frequency radio waves in the ionosphere. This memoir tells the story of the first twenty-one years of my life, growing up and coming of age in the working class Dublin Corporation housing estate of Crumlin. Although humorous when telling my tale, the book also includes stories of abuse, death and loss. The chapters unfold from my unlikely birth - the youngest of fifteen children - to Crumlin life, the death of my brother Paddy in a London road accident and the abuse I suffered through a 'Christian' Brother at school. From a little boy priest in Blackrock College and then as an apprentice projectionist in the Kenilworth Cinema and a year as clapper/loader in Ardmore Studios. The story goes on through my difficult teenage years of

alienation from my father and his death at the age of seventy, a month before my 21st birthday and a few months before my marrying my pregnant 18-year-old girlfriend. That marked the end of my life in 147, Leighlin Road and the start of my life as a married man and father-to-be. This book will be of interest to anyone of a Dublin/Irish heritage who will understand my journey. Back in my day emigration, particularly to England, was part of Irish life and that is reflected in my story. I am an experienced storyteller and now I am finally telling my own story of the years that formed the man I am today.

Tom Richards is the only Australian-born Test rugby player to have played for both Australia and the British Lions. When the Australian team won the Gold Medal for rugby at the 1908 Olympic Games, the London Times pronounced: 'If ever the Earth had to select a Rugby Football team to play against Mars, Tom Richards would be the first player chosen.' With an introduction by leading Australian rugby writer Greg Growden, Richards's diaries offer wonderful insights into his extraordinary sporting life, but more importantly provide perceptive and acute observations of the brutality and the humanity he observed on the front lines of World War I. His diaries are a revealing and very personal account of what occurred throughout the Gallipoli campaign and then the Western Front, where he received a Military Cross for his courage under German fire. As a great observer of human tragedy and frailties, Richards is acerbic in his opinions and often critical of his superiors and fellow soldiers, repeatedly finding fault with the British in charge. But it is his vivid descriptions of the many other characters who crossed his path that confirm this to be a significant contribution to our understanding of the Great War. Wallaby Warrior is a rich and intimate observation of life from a very different time by one of Australia's greatest rugby players, and the man after whom the trophy for rugby union tests between Australia and the British Lions is named.
