"Building information modeling (BIM) is the new AutoCAD for architects and interior designers--and Revit Architecture is the leading software package in the BIM marketplace. Revit Architecture 2014 for Designers is

written specifically for architects and interior designers as they transition from CAD to BIM. Beginning with the building blocks of BIM modeling (walls, windows, and doors), the text progresses through dynamically generated 2-dimensional and 3-dimensional views to advanced features--such as photorealistic rendering, custom title blocks, and exporting drawings to AutoCAD and SketchUp. Instructions are fully illustrated, creating a smooth transition to the BIM environment for all designers. Clear, concise, and above all visual, this is the essential Revit guide written specifically for interior designers and architects."--Publisher's website.

Intro to Biblical Greek Scope of Course
Intro to Biblical Greek is an elective course that lays the groundwork for further study of the language. The course is appropriate for middle school and high school students, though middle schoolers may find it a strong challenge. The purpose of the course is to simplify many of the basic concepts of biblical Greek and give you an edge should you continue with more advanced studies of the language. This is not structured as a typical language course. It is essentially a "starter kit" that will get you reading and understanding biblical Greek. It will

not give you a daily lesson on pronunciation or practicing verb conjugation, but is instead designed to give you a working knowledge of biblical Greek, not a specific mastery of it.

Course Description This video-based learning program is a basic introduction to biblical or Koine Greek. Complete a flexible course that includes suggestions for lesson schedules depending on how extensive you want the course to be. Student worksheets, practice sheets, quizzes, answer keys, and suggested ongoing resources and projects to enhance learning are included in this study guide. This course is perfect for those students who plan to attend seminary, or those who are just interested in learning about the New Testament Greek or wanting to experience a deeper study of biblical text. You will discover: The Greek alphabet Punctuation (and how it's used!) Nouns, verbs, voice, and moods Nominative, genitives, vocatives, accusatives, and datives (the -tives of when to use what word and how) How to understand many of the Greek references your pastor makes The importance of properly translating the Bible A basic understanding of how a concordance and lexicon work A refresher course in English grammar How to apply your new skills! Developed for use by individuals or families, now in just one semester you can go beyond simple memorization to actually begin to grasp the meaning and message of the Greek texts! An understanding of biblical Greek can help students understand the truths of the New Testament in a deeper way, as well as grasping the fullness of God's perfect timing, using a vastly known language to communicate the Good News of Jesus Christ throughout the Western world. Be inspired to love the

Savior more as you grasp the Bible's message more clearly!

The present volume explores the ever-evolving understandings and diverse manifestations of the Hebrew notion of torah in early Jewish and Christian literature and the different roles torah played within those communities, whether in Judea or in the Hellenistic and early Roman diaspora. This collection of essays is purposefully wide-ranging, with contributors exploring and rethinking some of the most basic scholarly assumptions and preconceptions about the nature of torah in light of new critical approaches and methodologies with the goal of seeing how different vantage points and different conclusions can better address the complexity of the topic and better reflect the ambiguity and fluidity inherent in the concept of torah itself. Contributors include Gabriele Boccaccini, Francis Borchart, Calum Carmichael, Federico Dal Bo, Lutz Doering, Oliver Dyma, Paula Fredriksen, Robert G. Hall, Magnar Kartveit, Anne Kreps, David Lambert, Michael Legaspi, Jason A. Myers, Juan Carlos Ossandón Widow, Anders Klostergaard Petersen, Patrick Pouchelle, Jeremy Punt, Michael L. Satlow, Joachim Schaper, William Schniedewind, Elisa Uusimäki, Jacqueline Vayntrub, Jonathan Vroom, James W. Watts, Benjamin G. Wright III, and Jason M. Zurawski.
