The religious leaders in Jerusalem trembled with fury. The apostle Paul used to be one of them. But since his trip to Damascus, Paul now taught that Yeshua was the Messiah. "Paul is teaching lies," said the priests. "We must stop him!" Thrown into prison, Paul knows he has done nothing wrong. He sails to Rome to stand before Caesar, the mighty Roman Emperor. But

the seas are rough and dangerous. Will Paul reach Rome alive? Filled with colorful illustrations and biblical truth, Shipwrecked! is part of the Bible Pathway Adventures series of biblical adventures. If your children like gripping action and courageous Israelites, then they'll love this biblical adventure series from Bible Pathway Adventures. The search for truth is more fun than

tradition! <i>Those of the Way</i> New Leaf Publishing Group This book tells the story of the wedding in Cana (John 2:1-11). The Arch® Book series tells popular Bible stories through fun-to-read rhymes and bright illustrations. This well-loved series captures the attention of children	narratives in chronological order, making it easy to follow the Bible's historical flow and building up to the thrilling climax of God's redemptive story. Plus, these spectacular updates take the action to a whole new level: 25 new stories showcase a more extensive exploration of God's work in our lives. 23 expanded stories highlight additional experiences of the people	who tell God's story. 128 new pages of illustrations deliver a richer artistic experience with more close-up faces, historical details, and dramatic colors. Every page sparks excitement to explore God's Word and know Him personally. Readers will witness God's active presence in the world through stories from the life of Jesus and great heroes of the faith. Let this blend

 provides a  
 wide array of  
 illustrative  
 and textually  
 concise  
 references,  
 beginning with  
 three sets of  
 charts  
 covering the  
 Bible as a  
 whole, the Old

 and the New  
 Testament.  
 These charts  
 cover such  
 topics as  
 biblical  
 weights and  
 measures,  
 feasts and  
 holidays and

the 12  
 disciples. Most  
 of the charts  
 use a variety  
 of illustrative  
 techniques to  
 convey  
 lessons and  
 provide visual  
 interest. A  
 worthwhile  
 example is  
 'How We Got  
 the Bible, '  
 which  
 provides a  
 time line of  
 translation  
 history,  
 comparisons  
 of canons  
 among faiths  
 and portraits  
 of important  
 figures in  
 biblical  
 translation,  
 such as  
 Jerome and  
 John Wycliffe.  
 The book then  
 presents a

section of maps, followed by diagrams to conceptualize such structures as Noah's Ark and Solomon's Temple. Finally, a section on Christianity, cults and other religions describes key aspects of history and doctrine for certain Christian sects and other faith traditions. Overall, the authors take a traditionalist, conservative approach. For instance, they list Moses as the author of the Pentateuch (the first five books of the Hebrew Bible) without making mention of claims to the contrary. When comparing various Christian sects and world religions, the emphasis is on doctrine and orthodox theology. Some chapters, however, may not completely align with the needs of Catholic and Orthodox churches. But the author's leanings are muted enough and do not detract from the work's usefulness. As a resource, it's well organized, inviting and visually stimulating. Even the most seasoned reader will learn something while browsing. Worthwhile reference stuffed with facts and illustrations." - Kirkus Reviews *Rose Book of Bible Charts, Maps, and Time Lines* Jesus Storybook Bible

Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the biting satiric account of traditional planning

theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the

humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition. Decades of research have demonstrated that the parent-child dyad and the environment of the family" which includes all primary caregivers" are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may

never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also

impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early

childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated

with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge,

attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale

adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.
