Schoolsearch Guide to Private Schools with  
Programs Or Services for Students with  
Learning Disabilities ABC-CLIO

This report is based on the Schools and Staffing Survey (SASS) of 1987-88 and 1990-91 and is designed to provide a

broad picture of private schools in the United States. The SASS collects data on only a sample of private schools, but collects a much richer picture of each participating school than does the Private School Universe Survey, a supplement to the Common Core of Data. In 1990-91, the SASS found that there were approximately 24,690 private elementary and secondary schools in the United States, serving an estimated 4,673,878 students in

kindergarten through grade 12. This suggests that nearly one-quarter of the schools in the nation are private, and that 1 out of every 10 students are in private schools. Findings from the SASS are presented in sections on: (1) characteristics of private schools as units; (2) characteristics of students; (3) characteristics of teachers and principals; (4) educational goals of teachers and principals, their perceptions of school

climate, and rates of graduation and college attendance; and (5) descriptive profiles by religious or other affiliation. Ten figures and 44 figures present survey findings. Two appendixes contain tables of standard errors and technical notes. (Contains 31 references.) (SLD)

Lexington Books  
Private elementary and secondary schools continue to play an important role in the American education system, educating about one-tenth of the nation's young people. This report, based on the National Center for Education Statistics' Schools and Staffing Survey of 1993-94, is designed to update the picture of private schools in the United States, based on responses from a nationally representative sample of 2,585 private schools and 8,372 teachers in those schools. The report contains graphic statistical profiles of Catholic schools, other religiously oriented schools, and nonsectarian schools, using both a 9-category typology and an 18-category affiliation system. The profiles contain information organized under the headings of schools and students; teachers and principals; and climate, goals, and outcomes. Forty-two tables are included. Appendixes contain tables of standard errors, technical notes, and data and standard errors for the graphic profiles. (LMI)

America's Teachers Department of Education

How much choice should parents and pupils have over which school to attend? This question has been at the centre of some of the recent educational policy debates about the role of consumer preferences. Recent experience shows that policies to increase school choice bring dangers as well as opportunities. This report looks at how such policies have functioned in practice, in particular in Australia, the Netherlands, New Zealand, Sweden, the United Kingdom and the United States.

Are you a parent or guardian looking for a top-notch 21st-century private school in Zambia, one that will meet your family needs and expectations? This profound question is at the core of this first-ever

book on private school education in Zambia. *Choosing a Good Private School for your Child: The Ultimate Guide for Parents and Guardians in Zambia* emerged from Monde Nyambe's vast experience working as an educator and school leader in private international school settings. The book provides insights into pertinent factors that assist parents as they make important decisions about private school choices for their children. Through research and experience, the author draws on the views of key stakeholders to create a decision-making tool on choosing a good private school, ideal not only for parents but also for teachers, school leaders and private school proprietors. Make no mistake, this is a must-read for parents intending to give their children a solid head start by ensuring that they secure a good private school amidst the ever-rising number of private schools in Zambia. *Edition* Routledge

This directory is designed to provide access to appropriate remedial resources offered by or through private schools for children (from ages 2-22) with specific learning disabilities. The directory lists 305 schools in three sections: (1) private schools for students with learning disabilities; (2) schools that have a learning disability program within their regular private school; and (3) schools that accommodate students with minimal learning disabilities. Within each section, schools are listed alphabetically by state. In the first two sections, each school's description provides information such as address, telephone number, date founded, contact person, facilities, admission requirements, student/faculty ratio, length of school day, faculty profile, expenses and financial aid, frequency and type of progress reports, graduation requirements, student profile, support programs, educational programs, extracurricular activities, athletic facilities, athletic programs, and summer programs. In addition, schools were asked to briefly state how students who are "hard to reach" are taught and what is unique

about the school or the program. The third section lists schools that accommodate students with minimal learning disabilities and offers information on tutoring and accommodations for learning-disabled students. Three introductory chapters discuss identification of the student's educational needs and goals, procedures for finding a suitable school, and steps to facilitate the application process. (JDD)

**THE SCHOOLSEARCH GUIDE TO PRIVATE SCHOOLS WITH PROGRAMS OR SERVICES FOR STUDENTS WITH LEARNING**

**DISABILITIES** features the most up-to-date detailed information on more than 400 private schools nationwide. In an easy-to-use format, presented in a two page profile, this guide features information regarding tuitions, student-faculty ratio, athletic & extra curricular activities, admissions policies, summer programs & descriptions of services & accommodations for students from pre-

school through high school. There are several reference sections designed to help parents & educational specialists locate schools that meet other specific criteria. Maps of each state showing the location of each school in relation to nearby cities can be accessed in the state map section. Each school has stated "What makes their program unique." "This book fills an important gap. The introductory material on learning disabilities & on the process of deciding whether to consider private school placement &...how to select the most appropriate school is excellent."--Rosemary F. Bowler, Ph.D. Executive Director The Orton Dyslexia Society. "THE SCHOOLSEARCH GUIDE...is a nugget of gold in the vast & often confusing minefield of special education information....The parent entering the private school search should find answers here..."--Sara Winstead, Director of Admissions, The Carroll School, Lincoln, MA. Order directly from: Schoolsearch, 127 Marsh Street, Belmont, MA 02178 (617-489-5785, FAX 617-489-5641) Price \$34.95 plus 15 percent for handling & shipping. (10 percent discount for 5 or

Peterson's Private Secondary Schools is everything parents need to find the right private secondary school for their child. This valuable resource allows students and parents to compare and select from more than 1,500 schools in the U.S. and Canada, and around the world. Schools featured include independent day schools, special needs schools, and boarding schools (including junior boarding schools for middle-school students). Helpful information listed for each of these schools include: school's area of specialization, setting, affiliation, accreditation, tuition, financial aid, student body, faculty, academic programs, social life, admission information, contacts, and more. Also includes helpful articles on the merits of private education, planning a successful school search, searching for private schools online, finding the perfect match, paying for a private education, tips for taking the necessary standardized tests, semester programs and understanding the private schools' admission application

form and process.

Peterson's

This report presents national data on teachers and teaching from the Schools and Staffing Survey (SASS) and other sources. Where data permit, the report compares findings from the early to mid-1990s with findings from the 1980s. The report addresses a wide range of topics related to teachers and teaching, including teachers' demographic characteristics and various characteristics of their schools and students, teachers' preparation and professional development experiences, teachers' workloads, teaching practices, compensation, perceptions of work environments and job satisfaction, and the supply and demand of teachers. Detailed tables, standard error tables, and technical notes are included in appendices. (Contains 108 references.) (ND)

McGraw-Hill Companies

Private Schools and Student Media: Support Mission, Students, and Community explores the activities of

student media outlets, content creators and advisers in K-12 private schools in the United States. The unique nature of private schools, separate from government funding but not all government oversight, creates its own opportunities and challenges for students seeking their own outlets to pursue questions, answers and voice. Through surveys and content analysis of schools, student media advisers and student media work, Erica Salkin explores the reality of censorship in private schools—where the First Amendment does not play the same role as in public schools—and the perspectives of teachers who dedicate time, effort, and expertise to make the learning laboratory of the student newspaper or yearbook a reality. Ultimately, this book proposes that student media can be a significant asset to a private school's mission, students, and school community: to prepare young people for lives of service and good citizenship. Scholars of communication, media studies, journalism, and education will find this book particularly useful. *Between Two Worlds* Partridge Publishing  
Peterson's Private Secondary Schools:

Junior Boarding Schools provides the help parents need to find the right junior boarding school for their child. Readers will find dozens of school profiles plus links to informative two-page in-depth descriptions written by some of the schools. Helpful information includes the school's area of specialization, setting, affiliation, accreditation, subjects offered, special academic programs, tuition, financial aid, student profile, faculty, academic programs, student life, admission information, contacts, and much more.

### *Publications from the Office of Educational Research and Improvement*

Controversies over the merits of public and private education have never been more prominent than today. This book evaluates public and private schooling, especially in regard to choices families must make for their children. While choice among public schools is widely advocated today by families and states, public support for private education - including vouchers, tax credits, charter schools, and

private contracting - is politically controversial. The authors accessibly describe what research shows as to the effects - for communities and children - of these approaches. They move beyond school choice to show how other factors - most notably the family - have a strong effect on a child's educational success. The book helps educators and parents better understand the rapidly changing

educational environment and the important choices they make in educating the nation's children. [Education Statistics Quarterly](#) Wisconsin Education Laws Annotated provides access to the wide range of statutes affecting education in the state. In one concise volume, you will have ready access to the laws that schools, education professionals, and education law attorneys need most often. Fully indexed and

annotated by LexisNexis' experienced staff of lawyer-editors, Wisconsin Education Laws Annotated is a critical resource for anyone who needs to keep abreast of developments in this dynamic area of the law.
