ASHLEY TYRONE

North Korea's Military-Diplomatic Campaigns, 1966-2008 UNC
 Press Books

One of the first historical mentions of an armed conflict in what is now Romania dates back to 335 B.C., when, prior to launching his legendary Asian campaign, Alexander the Great organized an expedition over the Western shore of the Danube to deter the Gaets and secure the frontier of the Macedonian Kingdom. Since then, the land located on the Black Sea and nestled amongst the Carpathian Mountains has seen more than its fair share of military struggles. Whether referring to the country's fight for independence against the Ottoman Empire in the 14th Century or the December Revolution in the late 20th Century, Romania's military history has been long and varied. This book presents a chronological and detailed narrative of the significant events in the nation's military history, covering everything from the campaign of the Persian king Darius I against the Scythians in 514 B.C. to Romania's admission into NATO in April of 2004.

Beginning with a full chronology of the country's most important and decisive military events, *Brief Romanian Military History* then presents a general overview of 2500 years of Romanian history. Complete with biographies of significant military leaders and entries on important battles, wars, military organizations, structures, fortresses, uniforms, and weapons for each of the historical eras chronicled, this book is an essential reference tool for scholars, historians, anthropologists, journalists, and all others interested in the history of Romania.

Atlas of the Civil War, Month by Month Simon and Schuster
 The most authoritative and feature-rich edition of *On War* in English Carl von Clausewitz's *On War* is the most significant attempt in Western history to understand war, both in its internal dynamics and as an instrument of policy. Since the work's first appearance in 1832, it has been read throughout the world, and has stimulated generations of soldiers, political leaders, and intellectuals. First published in 1976 and revised in 1984, Michael Howard and Peter Paret's Princeton edition of Clausewitz's classic work has itself achieved classic status and is widely regarded as the best translation and standard edition of *On War* in English. This feature-rich edition includes an essay by Paret on the

genesis of Clausewitz's book, an essay by Howard on Clausewitz's influence, and an essay by Bernard Brodie on the continuing relevance of *On War*. In addition, Brodie provides a lengthy and detailed commentary on and guide to reading *On War*, and the edition also includes a comprehensive index.

Merriam Press World War 2 In Review Series 2023 eBook Edition

This first issue of World War 2 in Review is basically a primer on World War II, and is not meant to be an in-depth accounting. Many thousands of books and uncountable articles have been written over the years and the full history of the war has still not been covered, nor will it ever be. World War 2 in Review will cover as much of the history of the war as possible: the campaigns, battles, home fronts, personalities, organizations, military units, weapons, aircraft, naval vessels, military vehicles, uniforms, insignia, equipment, and more, of the allied, axis and neutral nations. It is hoped that you will find this series informative and enjoyable in your study of the history of World War II. Contents: (1) Foreword (2) World War II: A Primer (3) Chronology (4) Timeline of Events Preceding World War II (5) Events Preceding World War II in Asia (6) Events Preceding World War II in Europe (7) Diplomatic History of World War II (8) Germany Between Two Wars (9) The Peace Which Could Not Last: Why 1939 Had to Follow 1919 (10) U.S. Army Organization, 1941 (11) U.S. Government Policy Toward Civilian Women During World War II (12) Allied Interoperability Between the Wars (13) The First to Be Freed: British Military Administration in Eritrea and Somalia, 1941-1943 (14) Soviet-Japanese Confrontation in Outer Mongolia: The Battle of Nomonhan-Khalkin Gol 350 B&W and color photos and illustrations

[Sherman Invades Georgia](#) Modern War Studies (Hardcover)

"Hess studies the use of fortifications by tracing the campaigns of the Army of the Potomac and the Army of Northern Virginia from April 1861 to April 1864. He considers the role of field fortifications in the defense of cities, river crossings, and railroads and in numerous battles. Blending technical aspects of construction with operational history, Hess demonstrates the crucial role these earthworks played in the success or failure of field armies." "Based on fieldwork at 300 battle sites and extensive research in official reports, letters, diaries, and archaeological studies, this book stands to become an indispensable reference for Civil War historians."--BOOK JACKET.

[United States Army in World War II](#) Routledge

The first book-length study of one of America's greatest military campaigns and triumphs, led by Winfield Scott--one of America's greatest generals. Shines a spotlight on the campaign that became a significant proving ground for West Point-educated officers and a formative combat "school" for many of the Civil War's most prominent generals.

Elements of Military Strategy UNC Press Books

Here is the world's military history from ancient times to the present. Each time period has highlights, outstanding leaders, unusual developments, etc.

The Richmond Campaign of 1862 University of Oklahoma Press

PRINTED IN COLOR - The Russian Way of War - Force Structure, Tactics, and Modernization of the Russian Ground Forces
Published by the U.S. Army Training and Doctrine Command G2's Foreign Military Studies Office in 2016, this book picks up where the FM 100-2 series left off and discusses Russian military structure, capabilities, and future development. Includes July 2019 BONUS materials on the following: *1K17 Szhatie (1K17 Сжатие) Russian "Stiletto" Laser Tank *Combat Laser System (Peresvet) Russian Laser Cannon *T-14 Armata Main Battle Tank *T-15 Heavy Infantry Combat Vehicle *Kurganets-25 Light

Tracked Armored Vehicle *2S35 Koalitsiya-SV 152-mm Self-Propelled Howitzer *VPK-7829 Bumerang Modular Infantry Wheeled Fighting Vehicle Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB. <https://usgovpub.com>

On War Lulu.com

This book features the contributions of a distinguished group of experts in the field of the law of armed conflicts that gathered in Berlin in June 2005. The goal of the colloquium, which marked the 70th birthday of Knut Ipsen, was to find operable solutions for problems and challenges that confront the contemporary law of armed conflict.

[Decision in the West](#) Macmillan

Combining vivid campaign-trail reporting with a provocative argument about the state of American politics, Graff makes clear that whichever party best meets the challenges of globalization will win the election--and put America back on course.

[Field Armies & Fortifications in the Civil War](#) American Crisis Series: Books

This series offers to students of the Civil War, either those continuing or those just beginning their exciting journey into the past, concise overviews of important persons, events, and themes in that remarkable period of America's history."--BOOK JACKET.

[A Brotherhood of Valor](#) Univ. of Tennessee Press

James Holland's ground-breaking account expertly documents the German advance to the stalemate of the Gothic line and a segment of Italian history that has been largely neglected. The war in Italy was the most destructive campaign in the west as the Allies and Germans fought a long, bitter and highly attritional conflict up the mountainous leg of Italy during the last twelve months of the Second World War. While the Allies and Germans were slogging it out through the mountains, the Italians were fighting their own battles, one where Partisans and Fascists were pitted against each other in a bloody civil war. Around them, civilians tried to live through the carnage, terror and anarchy while, in the wake of the Allied advance, beleaguered and impoverished Italians were forced to pick their way through the ruins of their homes and country and often forced into making terrible and heart-rending decisions in order to survive.

World War 2 In Review: A Primer UNC Press Books

Grinding, bloody, and ultimately decisive, the Petersburg Campaign was the Civil War's longest and among its most complex. Ulysses S. Grant and Robert E. Lee squared off for more than nine months in their struggle for Petersburg, the key to the Confederate capital at Richmond. Featuring some of the war's most notorious battles, the campaign played out against a backdrop of political drama and crucial fighting elsewhere, with massive costs for soldiers and civilians alike. After failing to bull his way into Petersburg, Grant concentrated on isolating the city

from its communications with the rest of the surviving Confederacy, stretching Lee's defenses to the breaking point. When Lee's desperate breakout attempt failed in March 1865, Grant launched his final offensives that forced the Confederates to abandon the city on April 2, 1865. A week later, Lee surrendered at Appomattox Court House. Here A. Wilson Greene opens his sweeping new three-volume history of the Petersburg Campaign, taking readers from Grant's crossing of the James in mid-June 1864 to the fateful Battle of the Crater on July 30. Full of fresh insights drawn from military, political, and social history, *A Campaign of Giants* is destined to be the definitive account of the campaign. With new perspectives on operational and tactical choices by commanders, the experiences of common soldiers and civilians, and the significant role of the United States Colored Troops in the fighting, this book offers essential reading for all those interested in the history of the Civil War.

The Polish Campaign, 1939 Springer Science & Business Media Analyzes the art of using armed force to support diplomacy and military activities short of major conventional war.

Brief Romanian Military History Mercer University Press The sun rose on April 24, 1809, to illuminate a continent at war. From Poland to Spain, some 600,000 soldiers awakened to duty. Nowhere was the concentration of forces greater than in the Danube Valley where Napoleon had determined to launch his blow against the Austrian Generalissimus Erzherzog (Archduke) Karl. If Karl triumphed, most of Europe stood poised to pounce, Napoleon and the French Empire would be attacked from all quarters.

United States Army in World War II. HarperCollins Entertainment From mid-August to mid-September 1863, Union major general William S. Rosecrans's Army of the Cumberland maneuvered from Tennessee to north Georgia in a bid to rout Confederate general Braxton Bragg's Army of Tennessee and blaze the way for further Union advances. Meanwhile, Confederate reinforcements bolstered the numbers of the Army of Tennessee, and by the time the two armies met at the Battle of Chickamauga, in northern Georgia, the Confederates had gained numerical superiority. Although the Confederacy won its only major victory west of the Appalachians, it failed to achieve the truly decisive results many high-ranking Confederates expected. In *The Chickamauga Campaign*, Steven E. Woodworth assembles eight thought-provoking new essays from an impressive group of authors to offer new insight into the complex reasons for this substantial, yet ultimately barren, Confederate victory. This broad collection covers every angle of the campaign, from its prelude to its denouement, from the points of view of key players of all ranks on both sides. In addition to analyzing the actions taken by Union leaders Thomas L. Crittenden, Alexander McCook, and James S. Negley, and Confederate commanders Braxton Bragg, Patrick Cleburne, Daniel Harvey Hill, Thomas C. Hindman, James Longstreet, and Alexander P. Stewart, the book probes the campaign's impact on morale in the North and South, and concludes with an essay on the campaign's place in Civil War memory. The final essay pays particular attention to Union veteran Henry Van Ness Boynton, the founder and developer of Chickamauga and Chattanooga State Military Park, whose achievements helped shape how the campaign would be remembered. This second volume in the *Civil War Campaigns* in

the Heartland series provides a profound understanding of the campaign's details as well as its significance to Civil War history. Contributors: John R. Lundberg Alexander Mendoza David Powell Ethan S. Rafuse William G. Robertson Timothy B. Smith Lee White Steven E. Woodworth

The Air Force Law Review Univ of North Carolina Press The focus of this book is on American military campaigns from the American Indian Wars to the War in the Gulf. Case studies are used to illustrate the strategy behind land, sea, and air campaigns. Over a fifth of the book examines the U.S. war against Japan because it furnishes such fine examples of independent and interdependent operations on land, on the sea, and in the air. This work will appeal to military professionals, students of military science, and enthusiasts.

The First Campaign Modern War Studies (Hardcover) Between the end of May and the beginning of August 1864, Lt. Gen. Ulysses S. Grant and Gen. Robert E. Lee oversaw the transition between the Overland campaign—a remarkable saga of maneuvering and brutal combat—and what became a grueling siege of Petersburg that many months later compelled Confederates to abandon Richmond. Although many historians have marked Grant's crossing of the James River on June 12–15 as the close of the Overland campaign, this volume interprets the fighting from Cold Harbor on June 1–3 through the battle of the Crater on July 30 as the last phase of an operation that could have ended without a prolonged siege. The contributors assess the campaign from a variety of perspectives, examining strategy and tactics, the performances of key commanders on each side, the centrality of field fortifications, political repercussions in the United States and the Confederacy, the experiences of civilians caught in the path of the armies, and how the famous battle of the Crater has resonated in historical memory. As a group, the essays highlight the important connections between the home front and the battlefield, showing some of the ways in which military and nonmilitary affairs played off and influenced one another. Contributors include Keith S. Bohannon, Stephen Cushman, M. Keith Harris, Robert E. L. Krick, Kevin M. Levin, Kathryn Shively Meier, Gordon C. Rhea, and Joan Waugh.

The Italian Campaign: One Soldier's Story of a Forgotten War SIU Press

A detailed collection of fifty full-color maps, each one representing a single month of the Civil War, chronicles the war's progression on all fronts, including battles, sieges, infantry campaigns, naval operations, cavalry raids, and shifts of national frontiers, accompanied by others documenting the political state of the union on the eve of war and the western campaigns.

A Gallant Little Army HarperCollins Publishers A biographical tour de force on one of the 20th century's bravest civil rights champions. Critically heralded American historian D'Emilio brings Bayard Rustin out of the shadows of the past to tell the story of a man who was a victim of homophobic prejudice. *International Humanitarian Law Facing New Challenges* University Press of Kansas

This first detailed history of the Atlanta Campaign since General Jacob D. Cox's version in 1862, noted historian Castel provides a compelling overview, written in the present tense to give a sense of immediacy and realism, that demonstrates how Sherman's capture of Atlanta occurred and why it assured a Northern victory. Photos. Maps.
