Hebrew is regarded as a former living language which ceased to be a native language 1800 years ago, only to be given a spoken function anew in the late 19th century. Since the re-acquisition of a lost colloquial function has never been documented, Modern Hebrew has become an object of fascination among linguists and laymen alike. In this book the author claims- Modern Hebrew is not a direct continuation of monolingual Semitic Hebrew- Modern Hebrew was created when Yiddish speaker re-lexified their language to Biblical and Mishnaic Hebrew- Yiddish is a Slavic

language, derived from Sorbian and thus, Modern Hebrew is a Slavic Language. These claims raise a number of interesting questions: why do most speakers believe that Modern Hebrew is a Semitic language, what are the contributions of Modern Hebrew to the typology of diglossia, historical and genetic linguistics, universal grammar, 2nd language acquisition and political science?

The metaphor of the cosmos as the Body of Christ offers an opportunity to escape the aporias of standard Body of Christ imagery, which has often proved anthropocentric, exclusivist, triumphalist and/or sexist in the analyses of classical theologies. The body motif in particular contains starting points for current body discourses of gender-sensitive and ecological theologies, especially in their mutual overlaps. This book offers a critical evaluation of the prospects and boundaries of an updated metaphor of the Body of Christ, especially in its cosmic dimension. The first part of the book addresses the complex tradition in which the universal dimension of cosmological Christologies is located, including the thinking of the Apostles Paul and John, Origen, Cusanus, Teilhard de Chardin, McFague, and Panikkar. In the second part of the book, representatives of various innovative concepts will contribute to the anthology. This is a wide-ranging study of the implications of a new cosmic Body of Christ. As such, it will be of interest to academics working in Religion and Gender, Religion and the Environment, Theology and Christology.

This book provides a fresh reading of Aquinas' metaphysics in the light of insights from the works of Frege. In particular, Ventimiglia argues that Aquinas' doctrine of being can be better understood through Frege's distinction between the 'there is' sense and the 'present actuality' sense of being, as interpreted by Peter Geach and Anthony Kenny. Aquinas' notion of essence becomes clearer in the light of Frege's distinction between objects and concepts and his account of concepts as functions. Aquinas' doctrine of transcendentals is clarified with the help of Frege's accounts of assertion and negation. Aquinas after Frege provides us with a new Aquinas, which pays attention to his texts and their historical context. Ventimiglia's development of 'British Thomism' furnishes us with a lucid and exciting re-reading of Aquinas' metaphysics.

Sprachliche Zweifelsfälle begegnen uns auf allen Sprachebenen und laden zur Sprachreflexion ein. Aus diesem Grund bieten sie die Möglichkeit des Austausches zwischen Sprachwissenschaft, Sprachdidaktik und Laienlinguistik. Dieser Sammelband widmet sich daher gleichermaßen der linguistischen und sprachdidaktischen Perspektive auf Zweifelsfälle sowie dem Umgang mit Zweifelsfällen in der breiten Öffentlichkeit. Dabei setzt er vier Schwerpunkte: Erstens liegt der Fokus auf einer adäquaten Definition des Gegenstands, zweitens erproben viele Beiträge unterschiedliche Methoden, die zur Identifikation der Zweifelsfälle genauso beitragen wie zur Aufdeckung der sprachreflektorischen und soziolinguistischen Mechanismen, die Zweifel (re-)produzieren. Die Analyse ausgewählter Zweifelsfälle beschränkt sich drittens nicht auf das Deutsche, sondern bringt exemplarisch Zweifelsfälle im Englischen und Katalanischen in die Diskussion ein. Das vierte Anliegen des Bandes ist es, Ansätze zur Implementierung des linguistischen Wissens in den

laienlinguistischen Diskurs sowie in die schulische Praxis vorzuschlagen.

Routledge Revivals presents a reissue of Noam Chomsky's MA thesis, written in 1951, and first published in 1979.

Morphophonemics of Modern Hebrew is a landmark study in linguistics and generative phonology, which provides not only an analysis of morphophonemics but of the entire grammar of Modern Hebrew from syntax to phonology. Professor Chomsky's goal in this thesis is nothing less than a complete generative grammar of the Hebrew language. This work is of singular

importance as it contains the genesis of the author's work in the field of generative grammar which has had such a profound impact upon the study of linguistics. This reissue of a truly pioneering work will be of great interest to all those concerned with generative grammar and its origins, and with the progression of thought of one of the greatest minds of our time. *Acia* Cambridge University Press

Ottillie W. Roederstein, born to German parents in Zurich in 1859, was one of the leading painters in the German-speaking world during her lifetime. She also enjoyed early recognition in Paris. As one of the few women of her time, she successfully dedicated her entire life to art and led an unconventional but respected existence in Germany together with her partner, the gynecologist Elisabeth H. Winterhalter. Although Roederstein's early work adhered to the conventions of the academy, the painter increasingly opened herself up to other currents in her more mature work and in the 1920s found her way to an austere, objective visual vocabulary. Despite her international reputation as a portraitist and painter of still lifes, Roederstein fell into oblivion almost immediately after her death in 1937. Now, after several decades, the Kunsthaus Zürich and the Städel Museum in Frankfurt am Main are presenting the first monographic show of her work, accompanied by this comprehensive catalogue. Exhibition: Kunsthaus Zürich, Zürich, Switzerland (18.12.2020 - 04.04.2021) / Städel Museum, Frankfurt am Main, Germany (15.05. - 05.09.2021).
