From the first Georgians to march north to fight under Robert E. Lee, through the Battle of Chickamauga, the Atlanta Campaign, the March to the Sea, and the awful conditions of Andersonville, Anne J. Bailey and Walter J. Fraser, Jr., have compiled 260 photographs, four maps, and related documents that detail the physical and spiritual suffering of soldiers, slaves, and civilians in their fight for their country, land, and their own freedom. Centering on the common soldier, *Portraits of Conflict: A Photographic History of Georgia in the Civil War*, the fifth volume in the University of Arkansas Press's award-winning series, tells the stories of the actual people, rich and poor, whose lives were changed forever by the nation's great drama.

This volume provides insights into current research on fungal populations, communities and their interactions with other organisms. It focuses on fungal responses to the physical environment; interactions with bacteria, other fungi, invertebrates and plants; the role of fungi in ecosystem processes such as decomposition and nutrient cycling; and aspects of biogeography and conservation. Since the publication of the second edition of Volume IV in 2007, the massive use of "omics" methods has revolutionized our understanding of fungal lifestyles. Highlighting these advances, the third edition has been completely updated and revised. Several chapters deal with various applications of genomics and transcriptomics in biological pest control, as well as interactions with other living systems. This is an invaluable source of information both for scientists

who wish to update their knowledge of current advances and for graduate students interested in obtaining a comprehensive introduction to this field of research.

New York photographer Tina Barney was born to an upper-class East Coast family. Ever since she started to take photographs in 1974 she has documented and examined her family's life. As an intimate observer, the viewer witnesses the intricacies of social rituals-weddings, Christmas dinners, and cocktail parties. Barney captures the tension between the polished surfaces and the intensity of the feelings underneath. Barney's photographs are brilliantly composed, densely layered tableaux signaling her familiarity with classic painting. The viewer can never be quite sure whether the images are carefully posed arrangements or perfectly captured moments of 'real life'. Barney's astute play with artifice mirrors social life itself-part artifice, part spontaneity. In this comprehensive monograph Tina Barney is revealed as a rare combination of artist and visual anthropologist.

In *The Black Calhouns*, Gail Lumet Buckley—daughter of actress Lena Horne—delves deep into her family history, detailing the experiences of an extraordinary African-American family from Civil War to Civil Rights. Beginning with her great-great grandfather Moses Calhoun, a house slave who used the rare advantage of his education to become a successful businessman in post-war Atlanta, Buckley follows her family's two branches: one that stayed in the South, and the other that settled in Brooklyn. Through the lens of her relatives' momentous lives, Buckley examines major events throughout American history. From Atlanta during Reconstruction and the rise of Jim Crow, to New York City during the Harlem Renaissance, and then from World War II to the Civil Rights Movement, this ambitious, brilliant family witnessed and participated in the most crucial events of the 19th and 20th centuries. Combining personal and national history, *The Black Calhouns* is a unique and vibrant portrait of six generations during dynamic times of struggle and triumph.
