Part I introduces the Reinvention Mindset, with what you need to know to be prepared mentally to get started. In Part II, you read the real-life stories of ten individuals who successfully made the leap to new and unexpected careers, using the 10 laws: The 1st Law: It Starts With a Vision for Your Life The 2nd Law: Your Body Is Your Best Guide The 3rd Law: Progress Begins When You Stop Making Excuses The 4th Law: What You Seek is on the Road Less Traveled The 5th Law: You've Got the Tools in Your Toolbox The 6th Law: Your Reinvention Board is Your Lifeline The 7th Law: Only a Native Can Give You the Inside Scoop The 8th Law: They Won't "Get" You Until You Speak Their Language The 9th Law: It Takes the Time That it Takes The 10th Law: The World Buys Into an Aura of Success Each story is followed by an in-depth lesson that explains how to adapt these laws to your own career goals, and what actions and precautions to take. The lessons answer all your tactical concerns about navigating the roadblocks, getting traction and managing your fears. The final section provides workbook exercises for fine-tuning your reinvention strategies for maximum results. Clear-headed, calming,

practical, and thorough, this is the ideal action plan for getting through any career crisis and ending up securely in the lifestyle you've always dreamed of having.

"I thought life was pretty much over." Paul Herman "I was afraid people wouldn't see me for who I still was." Cathy Green "I didn't need this to be a better person." Susan Douglas "I wasn't sure I wanted to live "this way."" Kevin Wolitzky The above four people and 49 more just like them went on to find high levels of success and lead satisfying lives. Together they tell 53 stories of moving forward to meet all the challenges, fears, obstacles, and problems common to the life-altering circumstances after spinal cord injury, and doing it without benefit of wealth, large settlements or solid health coverage. Ranging in age from 21 to 67, disabled from three to 48 years they share 931 years of disability experience. Roll Models is a valuable new resource for recently injured people and their families, and for nurses, therapists, psychologists and all other professionals who treat, work with and care for people with spinal cord injury. Straight from the horse's mouth, survivors explore their experiences with disability and answer many questions those in rehab are asking: Early Thoughts What were your thoughts immediately following injury? What were your initial thoughts and reactions regarding SCI and the future? The First Years What were your biggest fears during that first year or so? How did you get past those early fears? Changes, Obstacles and Solutions How much different are you now, compared to how you were before injury? What's been the biggest obstacle? How did you address these obstacles? Finding What Works What have been the most difficult things for you to deal with since injury?

What's the worst thing about having an SCI and using a chair? What's been your biggest loss due to injury? Is SCI the worst thing that ever happened to you? Tell me something about your problem solving skills. How do you deal with stress? What do you do to relieve stress? Salvations, Turning Points and More Was there any one thing that was your "salvation" or key to your success? Was there a turning point for you when you began to feel things were going to get better? What personal factors, habits and beliefs have helped you the most? SCI and Meaning Do you find any meaning, purpose or lessons in your disability? Did any positive opportunities come your way because of your injury? What's your greatest accomplishment? What are you most proud of? "A wonderful roadmap with many alternate routes to living and thriving with SCI." Minna Hong, SCI survivor and Peer Support Coordinator/Vocational Liaison, Shepherd Center "Avoids the trap of providing a "one size fits all mentality" and provides solutions as varied as the individuals used as examples. Accentuates the positives while not sugar coating the difficulties. Essential reading." Jeff Cressy SCI survivor and Director of Consumer and Community Affairs, SCI Project, Rancho Los Amigos "A great resource for people as they venture out into the world, or search for meaning and a deeper, richer life. Filled with examples of real people and their real experiences." Terry Chase, ND, RN; SCI survivor; Patient & Family Education Program Coordinator, Craig Hospital "A wonderful tool for the newly spinal cord injured individual, as well as the therapists and counselors working with them. This certainly hits the mark in capturing important survival strategies." Jack Dahlberg, SCI survivor, Past President of the National Spinal Cord Injury Association "Artfully crafted and organized, Roll Models sensitively portrays life following spinal cord injury. Informative, creative, sensitive, as well as infused with humor and a kind heart. Recommended with my highest accolades." Lester Butt, Ph.D., ABPP, Director of the Department of Psychology, Craig Hospital

"Seven Myths of the Crusades' rebuttal of the persistent and multifarious misconceptions associated with topics including the First Crusade, anti-Judaism and the Crusades, the crusader states, the Children's Crusade, the Templars and past and present Islamic-Christian relations proves, once and for all, that real history is far more fascinating than conspiracy theories, pseudo-history and myth-mongering. This book is a powerful witness to the dangers of the misappropriation and misinterpretation of the past and the false parallels so often drawn between the crusades and later historical events ranging from nineteenth-century colonialism to the protest movements of the 1960s to the events of 9/11. This volume's authors have venerable track records in teaching and researching the crusading movement, and anyone curious about the crusades would do well to start here." —Jessalynn Bird, Dominican University, co-Editor of Crusade and Christendom

Mixed Plate HarperCollins

A stunning, hilarious memoir from beloved comedian Jo Koy, "far and away one of the funniest people out there" (Chelsea Handler). *Mixed Plate* illuminates the burning drive and unique humor that make Jo Koy one of today's most successful comedians. Includes never-before-seen photos. Well guys, here it is—my story. A funny, sad, at times pathetic but also kick-ass tale of how a half-Filipino, half-white kid whose mom thought (and still thinks) his career goal was to become a clown became a success. Not an overnight success, because that would have made for a really short read, but an All-American success who could give my immigrant mom the kind of life she hoped for when she came to this country, and my son the kind of life I wished I'd had as a kid. With all the details of what it felt like to get the doors closed in my face, to grind it out on the road with my arsenal of dick jokes, and how my career finally took off once I embraced the craziness of my family, which I always thought was uniquely Filipino but turns out is as universal as it gets. In this book, I'll take you behind the mic, behind the curtain—OK, way behind it. From growing up with a mom who made me dance like Michael Jackson at the Knights of Columbus, to some real dark stuff, the stuff we don't talk about often enough as immigrants. Mental health, poverty, drinking. And show you the path to my American Dream. Which was paved with a lot of failure, department store raffle tickets to win free color televisions, bad jokes, old VHS tapes, a motorcycle my mom probably still hates, the only college final I aced (wasn't math), and getting my first laugh on stage. There's photo evidence of it all here, too. In this book, I get serious about my funny. And I want to make you laugh a little while I do it. I'm like Hawaii's favorite lunch—the mixed plate. Little bit of this, a little bit of that. My book *Mixed Plate* is too.

Seven Myths of the Crusades

Two renowned investment advisors and authors of the bestseller *The Great Reckoning* bring to light both currents of disaster and the potential for prosperity and renewal in the face of radical changes in human history as we move into the next century. The *Sovereign Individual* details strategies necessary for adapting financially to the next phase of Western civilization. Few observers of the late twentieth century have their fingers so presciently on the pulse of the global political and economic realignment ushering in the new millennium as do James Dale Davidson and Lord William Rees-Mogg. Their bold prediction of disaster on Wall Street in *Blood in the Streets* was borne out by Black Tuesday. In their ensuing bestseller, *The Great Reckoning*, published just weeks before the coup attempt against Gorbachev, they analyzed the pending collapse of the Soviet Union and foretold the civil war in Yugoslavia and other events that have proved to be among the most searing developments of the past few years. In *The Sovereign Individual*, Davidson and Rees-Mogg explore the greatest economic and political transition in centuries -- the shift from an industrial to an information-based society. This transition, which they have termed "the fourth stage of human society," will liberate individuals as never before, irrevocably altering the power of government. This outstanding book will replace false hopes and fictions with new understanding and clarified values.
