 Diffusion, or the widespread adoption of innovations, is a critical
 yet under-researched topic. There is a wide gap between
 development and successful adoption of an innovation. Therefore,
 a better understanding of why and how an innovation is adopted
 can help develop realistic management and business plans. Most
 books on this topic use a single-discipline approach to explain the
 diffusion of innovations. This book adopts a multi-disciplinary and
 managerial process approach to understanding and promoting
 the adoption of innovations, based on the latest research and
 practice. It will be of interest to graduates and researchers in
 marketing, product development and innovation courses.

 Based on the successful Baby Owner's Manual, The Baby Owner's
 Maintenance Log presents a refreshing alternative to traditional
 sugar-sweet baby journals. Hip parents can record all major
 milestones and measurements in these pages, including the
 arrival of the unit, fuel preferences and speech activation. Spiral
 binding, hilarious illustrations and a bound-in envelope for
 keepsakes make this guided journal a great shower gift.
A Record of Your Model's First Year Arrow
 In the summer of 1943, as World War II rages on, Ben MacCarthy
 is haunted by the disappearance of his wife, the actress Venetia
 Kelly. Searching for purpose by collecting stories for the Irish
 Folklore Commission, he travels to a remote seaside cottage to
 profile the enigmatic Miss Kate Begley, the Matchmaker of
 Kenmare. Ben is immediately captivated by her, and a powerful
 friendship is forged. But when Charles Miller, a handsome
 American military intelligence officer, arrives on the scene, Miss
 Begley looks to make a match for herself. Miller needs a favor,
 but it will be dangerous. Under the cover of their neutrality as
 Irish citizens, Miss Begley and Ben travel to London and
 effectively operate as spies. As they are drawn more deeply and
 painfully into the conflict, both discover the perils of neutrality—in
 both love and war. Steeped in colorful history, The Matchmaker of

Kenmare is a lush and surprising novel, rich as myth, tense as a
 thriller, and, like all grand tales, harrowing, sometimes hilarious,
 and heartbreaking.

Examining themes of presence and absence, these reflections on
 photography begin as an investigation into the nature of
 photographs - their content, their pull on the viewer, their
 intimacy. Then, as Barthes contemplates a photograph of his
 mother as a child, the book becomes an exposition of his own
 mind. He was grieving for his mother at the time of writing.
 Strikingly personal, yet one of the most important early academic
 works on photography, Camera Lucida remains essential reading
 for anyone interested in the power of images. A special Vintage
 Design Edition, with wrap-around cover and stunning photography
 throughout the text. 'Effortlessly, as if in passing, his reflections
 on photography raise questions and doubts which will
 permanently affect the vision of the reader' Guardian

 demographic patterns, and public policy debates, Global

An essential guide to an essential book, this first anthology on
 Camera Lucida offers critical perspectives on Barthes's influential
 text. Roland Barthes's 1980 book Camera Lucida is perhaps the
 most influential book ever published on photography. The terms
 studium and punctum, coined by Barthes for two different ways of
 responding to photographs, are part of the standard lexicon for
 discussions of photography; Barthes's understanding of
 photographic time and the relationship he forges between
 photography and death have been invoked countless times in

photographic discourse; and the current interest in vernacular photographs and the ubiquity of subjective, even novelistic, ways of writing about photography both owe something to Barthes. *Photography Degree Zero*, the first anthology of writings on Camera Lucida, goes beyond the usual critical orthodoxies to offer a range of perspectives on Barthes's important book. *Photography Degree Zero* (the title links Barthes's first book, *Writing Degree Zero*, to his last, *Camera Lucida*) includes essays written soon after Barthes's book appeared as well as more recent rereadings of it, some previously unpublished. The contributors' approaches range from psychoanalytical (in an essay drawing on the work of Lacan) to Buddhist (in an essay that compares the photographic flash to the mystic's light of revelation); they include a history of Barthes's writings on photography and an account of Camera Lucida and its reception; two views of the book through the lens of race; and a provocative essay by Michael Fried and two responses to it. The variety of perspectives included in *Photography Degree Zero*, and the focus on Camera Lucida in the context of photography rather than literature or philosophy, serve to reopen a vital conversation on Barthes's influential work.

A New York Review Books Original Hav is like no place on earth. Rumored to be the site of Troy, captured during the crusades and recaptured by Saladin, visited by Tolstoy, Hitler, Grace Kelly, and Princess Diana, this Mediterranean city-state is home to several architectural marvels and an annual rooftop race that is a feat of athleticism and insanity. As Jan Morris guides us through the corridors and quarters of Hav, we hear the mingling of Italian, Russian, and Arabic in its markets, delight in its famous snow raspberries, and meet the denizens of its casinos and cafés. When Morris published *Last Letters from Hav* in 1985, it was short-listed for the Booker Prize. Here it is joined by *Hav of the Myrmidons*, a

sequel that brings the story up-to-date. Twenty-first-century Hav is nearly unrecognizable. Sanitized and monetized, it is ruled by a group of fanatics who have rewritten its history to reflect their own blinkered view of the past. Morris's only novel is dazzlingly sui-generis, part erudite travel memoir, part speculative fiction, part cautionary political tale. It transports the reader to an extraordinary place that never was, but could well be.

Poetry. California Interest. Women's Studies. Domestic Abuse. The poems in *LANDSCAPE WITH SEX AND VIOLENCE* explore what it means to exist within a rape culture so entrenched that it can't be

separated from the physical landscapes in which it enacts itself. Lyrically complex and startling—yet forthright and unflinching—these poems address rape, abortion, sex work, and other subjects frequently omitted from male-dominated literary traditions, without forsaking the pleasures of being embodied, or the value of personal freedom, of moonlight, and of hope. Throughout, the topography and mythology of California, as well as the uses and failures of language itself, are players in what it means to be a woman, a sexual being, and a trauma survivor in contemporary America.
