Liens in Personal Injury Actions is the only publication of its kind in Virginia that is intended to help simplify the complexity that characterizes liens and to provide assistance to Virginia's trial lawyers in securing the maximum net recovery for clients. If you represent plaintiffs in personal injury, medical malpractice or product liability cases, it is just as important to know what to do with your case settlement once you have obtained it as it is to obtain it in the first place. It is essential that you be able to properly advise your client of potential reimbursement obligations from the beginning of the case. Liens is a must-have for your practice if you're interested in maximizing recoveries for your clients and in closing cases with the "peace of mind" that you've met your ethical obligations, and properly disbursed settlement checks.

The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.
