"Barbie hosts a scavenger hunt in this Little Golden Storybook edition that brings favorite stories to children."--Amazon.com
Adventures from Scratch: Family Edition Cartwheel Books
When a class leaves for recess, their just-baked Gingerbread Man is left behind. But he's a smart cookie and heads out to find them. He'll run, slide, skip, and (after a mishap with a soccer ball) limp as fast as he can because: "I can catch them! I'm their Gingerbread Man!" With help from the gym teacher, the nurse, the art teacher and even the principal, the Gingerbread Man does find his class, and he's assured they'll never leave him behind again. Teachers often use the Gingerbread Man story to introduce new students to the geography and staff of schools, and this fresh, funny twist on the original can be used all year long. Includes a poster with fun activities!

Web-based Support Systems (WSS) are an emerging multidisciplinary research area in which one studies the support of human activities with the Web as the common platform, medium and interface. The Internet affects every aspect of our modern life. Moving support systems to online is an increasing trend in many research domains. One of the goals of WSS research is to extend the human physical limitation of information processing in the information age. Research on WSS is motivated by the challenges and opportunities arising from the Internet. The availability, accessibility and ?exibility of information as well as the tools to access this information lead to a vast amount of opportunities. However, there are also many challenges we face. For instance, we have to deal with more complex tasks, as there

are increasing demands for quality and productivity. WSS research is a natural evolution of the studies on various computerized support systems such as Decision Support Systems (DSS), Computer Aided Design (CAD), and Computer Aided Software Engineering (CASE). The recent advancement of computer and Web technologies make the implementation of more feasible WSS. Nowadays, it is rare to see a system without some type of Web interaction. The research of WSS is classified into four groups. • WSS for specific domains.

"Robert McCloskey's unusual and stunning pictures have long been a delight for their fun as well as their spirit of place."—The Horn Book
Mrs. Mallard was sure that the pond in the Boston Public Gardens would be a perfect place for her and her eight ducklings to live. The problem was how to get them there through the busy streets of Boston. But with a little help from the Boston police, Mrs. Mallard and Jack, Kack, Lack, Nack, Ouack, Pack, and Quack arrive safely at their new home. This brilliantly illustrated, amusingly observed tale of Mallards on the move has won the hearts of generations of readers. Awarded the Caldecott Medal for the most distinguished American picture book for children in 1941, it has since become a favorite of millions. This classic tale of the famous Mallard ducks of Boston is available for the first

time in a full-sized paperback edition. *Make Way for Ducklings* has been described as "one of the merriest picture books ever" (The New York Times). Ideal for reading aloud, this book deserves a place of honor on every child's bookshelf. "This delightful picture book captures the humor and beauty of one special duckling family. ... McClosky's illustrations are brilliant and filled with humor. The details of the ducklings, along with the popular sights of Boston, come across wonderfully. The image of the entire family proudly walking in line is a classic."—The Barnes & Noble Review "The quaint story of the mallard family's search for the perfect place to hatch ducklings. ... For more than fifty years kids have been entertained by this warm and wonderful story."—Children's Literature
