CHERRY MOONEY

The Fugitive Gesture Taylor & Francis

This book details the theatrical productions of writer Zora Neale Hurston and their influence on American dance in the 1930s. It describes Hurston's revues and the Bahamian dancers she worked with, her efforts to produce a folk aesthetic in response to commercialized representations of black culture, and how she worked with the dancers for 'The Great Day.' It also discusses power issues in producing *The Great Day*, its representation of black folk culture, reception, and reproductions of its Fire Dance

by white dancers.

Books For Young Readers

Dance on the Volcano tells the story of two sisters growing up during the Haitian Revolution in a culture that swings heavily between decadence and poverty, sensuality and depravity. One sister, because of her singing ability, is able to enter into the white colonial society otherwise generally off limits to people of color. Closely examining a society sagging under the white supremacy of the French colonist rulers, *Dance on the Volcano* is one of only novels to closely depict the seeds and fruition of the Haitian Revolution, tracking an elaborate hierarchy of skin color and class through the experiences of two young women. It is a story about hatred and fear, love and loss, and the complex tensions between colonizer and colonized, masterfully translated by Kaiama L. Glover.

This collection of selected writings of Ms. Hilton includes a complete facsimile of her 1981 book *Dance of Court & Theater* (no longer available) as well as two significant articles, and a notated triple-meter danse *deux* by Louis Pécour. Book One (the facsimile) provides in-depth analysis of primary sources on dance of the baroque period. The main body of the text is devoted to mastery of the Beauchamp-Feuillet notation system, which includes the relationships of steps to music in such dance types

as the menuet, gavotte, bourrée, sarabande, passacaille, loure, gigue, and entrée grave. Instruction is also given on style, bows and courtesies, the use of the hat, and the ballroom menuet ordinaire as given by Pierre Rameau. Book Two adds the slow Seventeenth-Century French Courante; A survey of the 56 dances extant to music by J.B. Lully with their airs and some of the more virtuosic, theatrical step-units in notation; Louis Pécour's ballroom dance *Aimable Vainqueur* (1701 in six pages of dance notation with a five-part score of André Campra's music from *Hesione* (1700) and an updated bibliography.

Seminar paper from the year 2015 in the subject Literature - Comparative Literature, grade: 1,7, University of Dusseldorf "Heinrich Heine" (Anglistik und Amerikanistik), course: Manifestations of Cultural Concepts in Medieval English Literature, language: English, abstract: To find answers to the following questions I will examine two representations of Death in literature in the following essay. First, I will refer to the medieval motif of the danse macabre with special attention on the German

Totentanz and the French danse macabre poems that were freely translated into English by the monk John Lydgate in the beginning of the 15th century. Already as early as in the Old Testament death was represented by the apocalyptic horsemen; In early Norse mythology by the goddess of Death named Hel and in the Middle Ages by skeletons that rose from their graves, as well as by the image of the Grim Reaper with his black cape and a scythe, which is still popular nowadays. What do those figures have in common? In what aspects do they differ? And in how far have the common interpretation of personified Death changed over the centuries?

Internationally acclaimed Photographer David Hamilton invites the viewer to share delicate moments in ballet. His images of young dancers capture the essence of grace at rest and poetry in motion. These tender photographic impressions are accompanied by musical masterpieces created especially for the art form. *La Danse* includes unpublished pictures of Rudolf Nureyev, the 20th century's greatest male dancer. Music CDs: *The best of romantic ballet Classics*, for example: *Tchaikovsky's Swan Lake?*, *Sleeping Beauty?* and other invitations to dance?, performed under the direction of Günther Herbig, Herbert Kegel and Willi Boskovsky.

A Hand-book for Travellers in Spain Forgotten Books

This book provides philosophical grounds for an emerging area of scholarship: the study of religion and dance. In the first part, LaMothe investigates why scholars in religious studies have tended to overlook dance, or rhythmic bodily movement, in favor of textual expressions of religious life. In close readings of Descartes, Kant, Schleiermacher, Hegel, and Kierkegaard, LaMothe traces this attitude to formative moments of the field in

which philosophers relied upon the practice of writing to mediate between the study of religion, on the one hand, and theology, on the other. In the second part, LaMothe revives the work of theologian, phenomenologist, and historian of religion Gerardus van der Leeuw for help in interpreting how dancing can serve as a medium of religious experience and expression. In so doing, LaMothe opens new perspectives on the role of bodily being in religious life, and on the place of theology in the study of religion.

Dance as Text London : Dance Books Limited

A tribute to a major photographic genre's success in capturing in permanent form the most ephemeral of the arts. Over 200 reproduced duotone plates reveal dance in all its aspects - from many countries and periods, from classical ballet to rock and roll - photographed wherever dancers waltz, tango, tap-dance, pirouette, stomp, jive or kick up their heels for joy. The great dancers are here - Nijinsky, Fred Astaire, Pavlova, Fonteyn and Isadora Duncan among other immortals; but so too are the anonymous, captured in a Parisian nightclub or at the Roxy, New York, an Amsterdam street cafe or simply dancing alone by the seashore. The wide range of photographers include Gordon Anthony, Barbara Morgan, Beaton, Degas, Genthe, Steichen, Horst, Man Ray and Helmut Newton. Introductions to each chapter and detailed notes on the photographs provide essential background about the dancers and photographers.

of Rare and Curious Title-Pages and Plates Selected Therefrom While these numerous frescoes and sculptures were all more or less varied in design, the same ruling idea permeated all, namely, Death as a Skeleton, but full of life and frolic, in the act of leading all the different ranks and conditions of mankind, and most frequently in the attitude of a dancing, lively motion. In some cases, verses of a religious and moral character were painted underneath. No reliable testimony has thus far been given, not any records found, by which it can be known who the artists were who first executed these frescoes. There is certain evidence, however, that one Klauber, an eminent painter of Basle, in the year 1568 restored those in the church of that city most skillfully, and added two to the series, one being a portrait of himself, and the other of his wife and child, with the skeleton introduced in each. Psychology of Dance New York : Dance Horizons

"When she finds out her husband Vernon has emptied their bank account and is fooling around with the local librarian, 45-year-old Wilma Hemshoff of East Texas hits the road as a truck driver.

Escape looks possible from the cab of the 18-wheel rig she's driving, even though she's not exactly traveling light. Since Wilma has a soft spot for refugees like herself, she picks up Oralee, a smart-mouthed, teenage hooker toting a baby girl, and then starts making northern runs with a load of illegal aliens tucked alongside her legitimate freight of household goods"--Amazon.com.

A Hand-book for Travellers in Spain, and Readers at Home ... By Richard Ford. With Travelling Maps, Etc Dutton Adult
The cradle of ballet, tracing the origin of ballet as a theatre art back to its foundation by Louis XIV in 1669

The American Dance Festival Boston : Houghton Mifflin
This engrossing study investigates the connections between hearing and deafness in experimental, Deaf, and multicultural theater. Author Kanta Kochhar-Lindgren focuses on how to articulate a Deaf aesthetic and how to grasp the meaning of moments of "deafness" in theater works that do not simply reinscribe a hearing bias back into one's analysis. She employs a model using a device for cross-sensory listening across domains of sound, silence, and the moving body in performance that she calls the "third ear." Kochhar-Lindgren then charts a genealogy of the theater of the third ear from the mid-1800s to the 1960s in examples ranging from Denis Diderot, the Symbolists, the Dadaists, Antonin Artaud, and others. She also analyzes the work of playwright Robert Wilson, the National Theatre of the Deaf, and Asian American director Ping Chong. She shows how the model of the third ear can address not only deaf performance but also multicultural performance, by analyzing the Seattle dance troupe Ragamala's 2001 production of *Transposed Heads*, which melded classical South Indian use of mudras, or hand gestures, and ASL signing. The shift in attention limned in *Hearing Difference* leads to a different understanding of the body, intersubjectivity, communication, and cross-cultural relations, confirming it as a critically important contribution to contemporary Deaf studies.
