The use of animals in research adheres to scientific and ethical principles that promote humane care and practice. Scientific advances in our understanding of animal physiology and behavior often require theories to be revised and standards of practice to be updated to improve laboratory animal welfare. Recognition and Alleviation of Pain in Laboratory Animals, the second of two reports revising the 1992 publication Recognition and Alleviation of Pain and Distress in Laboratory Animals from the Institute for Laboratory Animal Research (ILAR), focuses on pain experienced by animals used in research. This book aims to educate laboratory animal veterinarians; students, researchers and investigators; Institutional Animal Care and Use Committee members; and

animal care staff and animal welfare officers on the current scientific and ethical issues associated with pain in laboratory animals. It evaluates pertinent scientific literature to generate practical and pragmatic guidelines for recognizing and alleviating pain in laboratory animals, focusing specifically on the following areas: physiology of pain in commonly used laboratory species; pharmacologic and non-pharmacologic principles to control pain; identification of humane endpoints; and principles for minimizing pain associated with experimental procedures. Finally, the report identifies areas in which further scientific investigation is needed to improve laboratory animal welfare.

A counterpoint to biodiversity,

geodiversity describes the rocks, sediments, soils, fossils, landforms, and the physical processes that underlie our environment. The first book to focus exclusively on the subject, Geodiversity describes the interrelationships between geodiversity and biodiversity, the value of geodiversity to society, as well as current threats to its existence. Illustrated with global case studies throughout, the book examines traditional approaches to protecting biodiversity and the new management agenda which is starting to be used instead.

#1 New York Times bestselling author Frederick Forsyth delivers a frighteningly possible novel of international terrorism

and impending war... As the Russian people face starvation, the Politburo is faced with a hard choice: negotiate with America for food, go to war for national survival, or deal with an uprising in the motherland. Through an informant, British Agent Adam Munro learns that the situation is growing dangerously tense, with powerful forces in the USSR maneuvering for supremacy. But even as East and West conduct delicate talks, events spiral out of control and threaten to undo every step taken. The world's largest oil tanker is hijacked by terrorists, and a Ukrainian "freedom fighter" is rescued in a bloody catastrophe on the Black Sea. From Moscow to Washington, the stakes grow ever more perilous as the mad actions of a few threaten to engulf the entire world

in nuclear war—unless Munro can stop them.

"In looking at the celebrations of Christmas, at different periods and in different places, I have observed that, whatever views men hold respecting Christ, they all agree that His Advent is to be hailed with joy, and the nearer the forms of festivity have approximated to the teaching of Him who is celebrated the more real has been the joy of those who have taken part in the celebrations. My aim is neither critical nor apologetic, but historical and pictorial: it is not to say what might or ought to have been, but to set forth from extant records what has actually taken place: to give an account of the origin and hallowed

associations of Christmas, and to depict, by pen and pencil, the important historical events and interesting festivities of Christmastide. With materials collected from different parts of the world, and from writings both ancient and modern, I have endeavored to give in the present work a chronological account of the celebrations and observances of Christmas. See the whole world dirt cheap, up close, and in the most comfortable way possible, by RV. The author and his wife

spent seventeen-years on a journey that took them through 170 countries with a few colorful scrapes along the way, from being held hostage for a garage bill in Serbia, blocked by burning tires in Ecuador, and surrounded by voracious saltwater crocs in Oz. RV the World explains exactly how to see and do it all (becoming a hostage isn't easy), what they saw along the way, what it costs to live and travel in an RV internationally, buying and selling an RV in a foreign country, staying healthy abroad, camping for free, and much, much more. Part practical guide, part adventure, RV the World takes the reader on an in depth tour of Europe, Scandinavia, North Africa, and the Middle East, highlighting fantastic cities, national parks, antiquities, and hiking spots along the

“Glamour camping . . . is about the juxtaposition of rugged and really pretty, grit and glam, diesel and absolutely darling.”—The New York Times

Glamping—unleashing your inner wild while wearing a pair of fishing-lure earrings—is for every woman (or man!) who ever had a get-away-from-it-all fantasy (with a few frilly embellishments thrown in). Learn about the never-fail campfire, cooking with cast iron, how to change a flat, and much, much more. Like the infamous Calamity Jane, who said, “I figure if a girl wants to be a legend, she should go ahead and be one,” MaryJane Butters coined the term

glamping years ago when she founded her unusual Idaho canvas wall-tent bed & breakfast, which was featured in The New York Times Magazine and Travel & Leisure as “the place to be.” Legend status achieved, MaryJane lives in Moscow, Idaho, where she runs her many businesses, which include a successful organic farm, product lines, a bed & breakfast, and MaryJanesFarm magazine. This is her fourth book. “One busy, hectic afternoon in my house, I sat down to take a quick peek at Glamping. Over two hours later, I was still reading, blissfully lost in MaryJane’s beautiful world. I’m dying over this book. I absolutely, positively LOVE IT!”—Ree Drummond, New York Times bestselling author of *The Pioneer Woman Cooks The Wheel and I* Litres

Vintage camper trailers are a unique symbol of midcentury America that resonates with many people. This book introduces many of those people, along with the trailers they've lovingly maintained or restored. It includes hundreds of photographs of everything from fancy and comfortable trailers designed for glamping (glamorous camping), to trailers handed down through families across generations, and even entrepreneurs who have transformed their trailers into vending booths. Paul Lacitinola enjoys everything about vintage camper trailers, including rescuing, restoring, and rallying. In 2011, he began publishing the first U.S.-based magazine for collectors, restorers, and admirers of American-made camper trailers, *Vintage Camper Trailers*, which

now has thousands of subscribers in more than a dozen different countries. He lives in Elverta, California.

A sixty-year history of Afro-South Asian musical collaborations From Beyoncé's South Asian music-inspired Super Bowl Halftime performance, to jazz artists like John and Alice Coltrane's use of Indian song structures and spirituality in their work, to Jay-Z and Missy Elliott's high-profile collaborations with diasporic South Asian artists such as the Panjabi MC and MIA, African American musicians have frequently engaged South Asian cultural productions in the development of Black music culture. *Sounds from the Other Side* traces such engagements through an interdisciplinary analysis of the political implications of African

American musicians' South Asian influence since the 1960s. Elliott H. Powell asks, what happens when we consider Black musicians' South Asian sonic explorations as distinct from those of their white counterparts? He looks to Black musical genres of jazz, funk, and hip hop and examines the work of Miles Davis, John Coltrane, Rick James, OutKast, Timbaland, Beyoncé, and others, showing how Afro-South Asian music in the United States is a dynamic, complex, and contradictory cultural site where comparative racialization, transformative gender and queer politics, and coalition politics intertwine. Powell situates this cultural history within larger global and domestic sociohistorical junctures that link African American and South Asian diasporic

communities in the United States. The long historical arc of Afro-South Asian music in *Sounds from the Other Side* interprets such music-making activities as highly political endeavors, offering an essential conversation about cross-cultural musical exchanges between racially marginalized musicians.
