Poems for the Decimated Heart Clarendon Press

Honeybee is a collection of raw, honest and intimate conversations with oneself that lead you on a journey of reflection. By writing truthfully about the intricacies of her experiences, Rideau's first collection of work is one that will speak to the very depths of those who read it, inspiring a will to question, heal and empower. With beautifully illustrated poems, Honeybee is a collection of poetry that celebrates the resilience of the human heart through stages of each chapter: navigating heritage hurting this body rising and healing ★ All royalties from this book will go towards Tommy's Charity (baby loss support and research) ★ Praise for honeybee 'She brings footnotes to the forefront, decolonizing her heart and thoughts from those coercive frameworks that have for generations passed as common sense. With these raw and honest poems, Rideau dissects the dominant hierarchies, cultures, and caste systems that have othered and devalued her, and she reimagines a world anew that includes, encourages, and elevates her, and you, us ... the collective beehive.' Julián Esteban Torres López, founding editor of *The Nasiona*, and author of *Ninety-two Surgically Enhanced Mannequins: A Micro-poetry Collection* 'Every stanza bristles with love and empathy. This book isn't just a collection of wonderful poems, it's also a personal journey and a blueprint for a better world.' Martin Grey, author of *The Prettyboys of Gangster Town* 'A must-read from a fabulous up and coming poet.' Afshan D'souza-Lodhi, author of *[re:desire]* 'Through the vehicle of the brown girl experience, Angela explores the difficult questions and the relationships female and female-identifying members of the diaspora have to their culture. Firmly in the ranks of works of contemporaries like Nikesh Shukla or Rupi Kaur.' Shawn Basheer, founder of South Asians Film, T.V and Arts Collective (S.A.F.T.A.C)

Playfulness, spare elegance, and wit epitomize the poetry of Billy Collins. With his distinct voice and accessible language, America's two-term Poet Laureate has opened the door to poetry for countless people for whom it might otherwise remain closed. Like the present book's title, Collins's poems are filled with mischief, humor, and irony, "Poetry speaks to all people, it is said, but here I would like to address / only those in my own time zone"-but also with quiet observation, intense wonder, and a reverence for the everyday: "The birds are in their trees, / the toast is in the toaster, / and the poets are at their windows. / They are at their windows in every section of the tangerine of earth-the Chinese poets looking up at the moon, / the American poets gazing out / at the pink and blue ribbons of sunrise." Through simple language, Collins shows that good poetry doesn't have to be obscure or incomprehensible, qualities that are perhaps the real trouble with most "serious" poetry:

"By now, it should go without saying / that what the oven is to the baker / and the berry-stained blouse to the drycleaner / so the window is to the poet." In this dazzling new collection, his first in three years, Collins explores boyhood, jazz, love, the passage of time, and, of course, writing-themes familiar to Collins's fans but made new here. Gorgeous, funny, and deeply empathetic, Billy Collins's poetry is a window through which we see our lives as if for the first time. *100 Poems to Break Your Heart* Random House Trade Paperbacks

Ten Poems to Open Your Heart is a book devoted to love: to the intimacy of personal love and lovemaking, to a loving compassion for others, and to the love that embraces both this world and the next. This new volume from Roger Housden features a few of the same poets as his extraordinarily moving *Ten Poems to Change Your Life*, such as Mary Oliver and Pablo Neruda, along with contributions from Sharon Olds, Wislawa Szymborska, Czeslaw Milosz, Denise Levertov, and others. Any one of the ten poems and, indeed, any one of Housden's reflections on them, can open, gladden, or pierce your heart. Through the voices of these ten inspiring poets, and through illustrations from his own life, Housden expresses the tenderness, beauty, joys, and sorrows of love, the presence of which, more than anything else, gives human existence its meaning. As Housden says in his eloquent introduction, "Great poetry happens when the mind is looking the other way and words fall from the sky to shape a moment that would normally be untranslatable. . . . When the heart opens, we forget ourselves and the world pours in: this world, and also the invisible world of meaning that sustains everything that was and ever shall be." From the Hardcover edition. *poems for an imperiled world* Wayne State University Press

In this his fifth book of poems, Caribbean-American poet, René A. Martin continues his explorations of themes both profound (the meaning of human existence) and diverting (how our seemingly intelligent species yet manages to display such absurdity). Ultimately, the poetry is an attempt to look into, discern, and explore what lies at the core of the human heart. The book begins with new poems, most written over the last four years. Subsequent poems are extracted from the previous four books, with some revision, beginning with the most recent and ending with his first publication. They appear in this order: *Shoal of Time* (2010); *When Darkness Comes* (2007); *Bending The Light* (2005); *Seashells* (2003).

Love is a multifaceted gem with many facets, and each poem in this collection reflects a different facet of this precious gem. Some poems are whimsical and light, like a playful dance of butterflies in the spring breeze, while others are deep and poignant, like a solitary tear rolling down a lover's cheek in the dark of night. Some poems are passionate and fiery, like a blazing inferno of desire, while others are gentle and tender, like a soothing caress on a lover's skin. Each poem tells a unique tale, and collectively, they weave a tapestry of emotions that resonate with the human heart. As you journey through the pages of "Tales of the Heart: Love Poems," you will find yourself immersed in the raw and vulnerable emotions that love evokes. You will witness the ecstasy of falling in love, the anguish of heartbreak, the joy of companionship, the longing for a distant beloved, the complexities of relationships, and the transcendent beauty of love that defies all boundaries. These poems are a celebration of the human heart in all its fragility and resilience, its capacity to feel deeply and passionately, and its unwavering pursuit of connection and meaning. But love is not always easy. It can be a tumultuous sea that challenges us, tests our limits, and exposes our vulnerabilities. It can be a maze of emotions that confuses and confounds us, leaving us lost and searching for answers. It can be a battle between the heart and the mind, between passion and reason, between the longing

for union and the fear of rejection. It can be a journey of self-discovery, where we confront our fears, confront our flaws, and ultimately find ourselves in the process. In "Tales of the Heart: Love Poems," you will find poems that capture the complexity of love's challenges - the doubts, the insecurities, the fears, and the uncertainties. You will find poems that speak to the human condition - the longing for connection, the need for intimacy, the pain of separation, the vulnerability of opening our hearts to another, and the joy of finding solace in love's embrace. These poems are not just about the romantic aspects of love. They also delve into the myriad of ways love touches our lives beyond romantic relationships - the love we have for our parents, our children, our friends, our pets, and even ourselves. Love is a force that permeates every aspect of our existence, and these poems reflect its presence in all its forms. As you read these poems, I hope you will find yourself in their words. I hope they resonate with your own experiences of love - the moments that have made your heart soar with joy, the times it has been broken into pieces, the cherished memories that fill your soul with warmth, and the hopes and dreams that love has inspired within you. I hope these poems remind you that you are not alone in your journey of love, for love is a shared human experience that binds us all together. In conclusion, "Tales of the Heart: Love Poems" is a labor of love, crafted from the depths of my heart to touch yours. It is a collection that seeks to capture the essence of love in its many forms, to explore its beauty, its challenges, its joys, and its pains. It is a tribute to the timeless and universal emotion that has inspired countless poets and continues to captivate us all.

Poems of a Meandering Heart: Ackerman, OP, JanetAn inspiring and occasionally playful series of poems which will stimulate your poetic senses. This book is a compilation of poems written over the years. It is a magnificent book for spiritual growth, meditation, simple relaxation. Poetry brings with it the risk of exposing one's soul. I decided to publish this book with the realization that all I have to lose is my ego. Birthing a poem can bring us into solidarity with the core of humanity. Reading poetry calls forth a response which is often seen as respectful silence. With this kind of writing we find we are not in control. We do not write poetry-it writes us when we are listening. The layout of the book is easy to follow and no sequential steps are needed in reading it. The Trouble with Poetry New World Library

The simplicity of a human heart is to love. The most perfect virtue a creature can have is love. A simple heart in love obtains love in return. When one loves, one loves naturally, even if one can't say to the lover, "I love you." Blessed are those who take love to perfection, who do not ask to be

loved, but love in order to continue loving. Honest loving souls, you are about to penetrate into the sanctuary of the sublime sciences of love. The sanctuary in which the deepest, passionate, and simple poems of love are kept.

The Lives of the Heart Gallery Books

A fragment is a splinter of memory caused by interactions with actual conditions: love, passion, sex, death, birth, intimacy; Such things secretly engrave themselves on all four corners of ones mind; a hundred million thoughts connecting words as one could understand another; where pages of poetry, can be read like sensual text for the initiated. Intoxicated in a garden nameless and eternal. As fragments each is complete in itself, as two sides of a leaf or a blade of grass. As external conditions change the soul changes as well. Intimacy touching the lines of text. No sooner is a poem written; it transforms into a page, which becomes a larger page. No one writes in isolation. Hearts set adrift since the day of birth. The bone and mountains separating people into distinct regions.Your tears contain others tears as well. Still intact, un-melted.The fragments of the human heart continue to be written until they fill an entire book.

The Christ of the Human Heart New York : Columbia University Press

Love is the greatest experience this life has to offer, especially when it reaches its grandest scale, but its loss can bring about the complete destruction of a human being. Poems for the Decimated Heart deals with the loss of such a love, and the struggle that follows. A struggle to stay alive, a struggle to atone, and a struggle to regain what was so foolishly lost.
