Reading and the Making of Time in the Eighteenth Century W. W. Norton

This book is designed to engage students' interest and promote their writing abilities while teaching them to think critically and creatively. Dowden takes an activist stance on critical thinking, asking students to create and revise arguments rather than simply recognizing and criticizing them. His book emphasizes inductive reasoning and the analysis of individual claims in the beginning, leaving deductive arguments for consideration later in the course.

'Alan's book is like his game: incisive, thoughtful, intelligent and consistently hits the target' Gary Lineker 'A brilliant, articulate, thoughtful man with a wonderful sense of humour: Smudge encapsulates all he is and knows in this fantastic book that will capture the hearts of every football fan' Tony Adams 'It was different back then, at least through Arsenal eyes. This was a young, exciting team full of hope and desire, led by a manager bristling with ambition . . .' Anfield '89. Copenhagen '94. Two of Arsenal's greatest triumphs in the modern era. Both matches defined by the goal-scoring prowess of one man - Alan 'Smudger' Smith. Smith's rise in football was vertiginous: playing for Alvechurch in the Southern League one year, competing in the top flight twelve months later. His first three years at Leicester were characterized by a successful partnership with Gary Lineker. When Lineker left for Everton, Smith stepped forward as the main goal-getter. It was Smith's move to Highbury, however, that

enabled him to become the winner of two Golden Boots and one of the most highly-rated strikers in the game. Honest, insightful and authoritative, Heads Up reveals what it was like forging a career in the tough First Division of old before the glitz of the Premier League took hold; the ins and outs of playing for George Graham and rooming with Gazza; the truth behind Anfield '89; which team could easily have gone on to become the first 'Invincibles' had Chelsea not spoiled it one February afternoon; how the highs of the game can quickly be converted into morale-sapping lows; and how injury really does affect a career. After twenty years of writing for the Daily Telegraph, covering four World Cups, four European Championships and countless club games, Alan Smith has done what few ex-professionals are able to do - describe in his own words what it's really like to play the game . . . 'Very enjoyable and typically honest account by my old mate on a fine career' Lee Dixon

This book gives us our first clear look at how the man and his moment met to create “critical theory.” An intimate picture of the quintessential twentieth-century transatlantic intellectual, the book is also a window on the cultural ferment of Adorno’s day—and its ongoing importance in our own.

The Oxford Handbook of Modern Diplomacy Berghahn Books

How did eighteenth-century readers find and make time to read? Books have always posed a problem of time for readers. Becoming widely available in the eighteenth century—when working hours increased and lighter and quicker forms of reading (newspapers, magazines, broadsheets) surged in popularity—the material form of the codex book invited readers to situate themselves creatively in time. Drawing on letters, diaries, reading logs, and a range of eighteenth- and early nineteenth-century novels, Christina Lupton’s *Reading and the Making of Time in the Eighteenth Century* concretely describes how book-readers of the past carved up, expanded, and anticipated time. Placing canonical works by Elizabeth Inchbald, Henry Fielding, Amelia Opie, and Samuel Richardson alongside those of lesser-known authors and readers, Lupton approaches books as objects that are good at attracting particular forms of attention and paths of return. In contrast to the digital interfaces of our own moment and the ephemeral newspapers and pamphlets read in the 1700s, books are rarely seen as shaping or keeping modern time. However, as Lupton demonstrates, books are often put down and picked up, they are leafed through as well as read sequentially, and they are handed on as objects designed to bridge temporal distances. In showing how discourse itself engages with these material practices, Lupton argues that reading is something to be studied textually as well as historically. Applying modern theorists such as Niklas Luhmann, Bruno Latour, and Bernard Stiegler, Lupton offers a rare phenomenological approach to the study of a concrete historical field. This compelling book stands out for the combination of archival research, smart theoretical inquiry, and autobiographical reflection it brings into play.

"To guarantee students have a working knowledge of appropriate vocabulary before entering secondary school, educators need to establish an effective vocabulary program in their schools and classrooms. In *Teaching Basic, Advanced, and Academic Vocabulary: A Comprehensive Framework for Elementary Instruction*, author Robert J. Marzano provides elementary educators with a comprehensive framework for vocabulary instruction. Marzano defines three different tiers of vocabulary terms: (1) Tier 1 terms are those words that are frequently used in the English language, (2) Tier 2 terms appear less frequently, and (3) Tier 3 terms are specific to grade level and subject area. By organizing these terms into semantic clusters and subject areas, Marzano creates a powerful and unique approach to ensuring students build their vocabulary. By reading this book, K-5 teachers will obtain the tools and strategies needed to construct a solid foundation for literacy development in their classrooms"--

NEW YORK TIMES BESTSELLER • The NBA according to The Sports Guy—now updated with fresh takes on LeBron, the Celtics, and more! Foreword by Malcom Gladwell • “The work of a true fan . . . it might just represent the next phase of sports commentary.”—The Atlantic Bill Simmons, the wildly opinionated and thoroughly entertaining basketball addict known to millions as ESPN’s The Sports Guy, has written the definitive book on the past, present, and future of the NBA. From the age-old question of who actually won the rivalry between Bill Russell and Wilt Chamberlain to the one about which team was truly the best of all time, Simmons opens—and then closes, once and for all—every major pro basketball debate. Then he takes it further by completely reevaluating not only how NBA Hall of Fame inductees should be chosen but how the institution must be reshaped from the ground up, the result being the Pyramid: Simmons’s one-of-a-kind five-level shrine to the ninety-six greatest players in the history of pro basketball. And ultimately he takes fans to the heart of it all, as he uses a conversation with one NBA great to uncover that coveted thing: The Secret of Basketball. Comprehensive, authoritative, controversial, hilarious, and impossible to put down (even for Celtic-haters), *The Book of Basketball* offers every hardwood fan a courtside seat beside the game’s finest, funniest, and fiercest chronicler.

A story of desire, love, language, and the meaning of home set against the backdrop of Brexit London—from the award-winning author of *Nine Continents*. A Chinese woman moves from Beijing to London for a doctoral program—and to begin a new life—just as the Brexit campaign reaches a fever pitch. Isolated and lonely in a Britain increasingly hostile to foreigners, she meets a landscape architect and the two begin to build a life together. *A Lover's Discourse* is an exploration of romantic love told through fragments of conversations between the two lovers. Playing with language and the cultural differences that her narrator encounters as she settles into life in post-Brexit vote Britain, the lovers must navigate their differences and their romance, whether on their unmoored houseboat or in a cramped and stifling apartment in east London. Suffused with a wonderful sense of humor, this intimate and tender novel asks what it means to make a home and a family in a new land. "Through her precise and unflinching language, a revealing account emerges of how one mind opens to another, how it processes each decision and moment of wondering." —USA Today "A fragmentary meditation on the nature of love, on desire and on connection between two humans . . . sets off cross-cultural echoes with the lightest of strokes." —The Guardian "Unlike Roland Barthes' book by the same name, Xiaolu Guo's *A Lover's Discourse* is a love

story as a genuine dialogue, not only between lovers, but between languages, cultures, and philosophies. Swift, astute, and funny." —Siri Hustvedt, international-best-selling author

This book tells the story of the Soviet and Russian lunar programme, from its origins to the present-day federal Russian space programme. Brian Harvey describes the techniques devised by the USSR for lunar landing, from the LK lunar module to the LOK lunar orbiter and versions tested in Earth's orbit. He asks whether these systems would have worked and examines how well they were tested. He concludes that political mismanagement rather than technology prevented the Soviet Union from landing cosmonauts on the moon. The book is well timed for the return to the moon by the United States and the first missions there by China and India.
