German Shepherds and Other Herding Dogs

Forgotten Books
Author, journalist and small-holder John Bezzant brings together a charming mixture of folk history and countryside tales in this heart-warming account of that remarkable working partnership: shepherds and their dogs. He weaves in tales of their remarkable courage,

devotion and endurance as these clever animals interact with their masters to achieve some unbelievable feats. Bezzant covers the sheepdog at war, stories of some of the most famous sheepdogs in history, drovers and their dogs, some outstanding shepherds, how they train their dogs, bizarre shepherding incidents and the shepherds' seasons. The book is fully illustrated with evocative black and white photographs. A touching, informative and anecdotal account.

 Table of Contents Introduction Chapter 1 Chapter 2 Chapter 3 Conclusion Author Bio Introduction "Money will buy a pretty good dog, but it won't buy the wag of his tail." — Josh Billings German Shepherds are intelligent, versatile and faithful dogs. They have outstanding characteristics, and excel in almost anything they do. This breed is well

known and among the 10 most popular breeds in the U.S. But, what makes them so popular? To begin with, their skills extend beyond the home. They are used in law enforcement, serving with police and even the military. They also help with special needs. For example: With those who are handicapped and require constant attention. However, their skills do not end there. Does the name Rin-Tin-Tin ring a bell? He was quite famous and appeared in many movies and shows. He was so popular he received hundreds of fan letters, sometimes thousands per week! And after the World Trade Center disaster, faithful German shepherd dogs risked their lives to comfort rescue workers and help find those who were missing. German shepherds are also excellent watchdogs.

Their alert and often suspicious nature, can serve to protect both you and your family from strangers. However, this aspect of their personality may not appeal to you, if you are looking for a more guest friendly dog. This breed has a high energy level. Originally when this dog was first bred, it was for working purposes. The idea was to help herd flocks, get them into groups and so on. This all day task helped to shape a strong and high energy dog that requires a lot of activities to keep their attention. It is important to take note of this part of their personality. Why? Well, if they do not get the attention they need their boredom (even frustration) will shine through, with lots of barking and chewing. Depending on how loud it gets, it may drive you up the wall! Despite this

aspect of their personality, there is no doubt German Shepherds are amazing dogs, and a wonderful asset to any home. And with proper training and loving attention, they will stand by you through thick and thin. Not a bad description to add to the list of... man's best friend!

'Dogs of the Shepherds' is a book for all those who admire the most valuable of all the working dogs, the pastoral breeds: sheepdogs, cattle dogs and flock protection dogs, the indispensable farmer's servants and companion dogs for thousands of proud dog-owners across the globe. Painstakingly researched and packed with information,

this book is not a manual covering training, grooming, nutrition and dog care; it is very much a reflective review of the pastoral dogs' contribution to the working and companion dog scene. It is a searching examination of their past, their performance and their prospects in an increasingly urban society. AUTHOR: The author of twelve previous books on dogs and over 750 articles published in national and international magazines, Colonel David Hancock MBE has studied dogs for over half a century in more than twenty countries. In 2009 he won the annual award of the Dog Writers' Association of America, having been a runner-up two years earlier. His last book, on Hounds, was widely acclaimed. He owned Border Collies for over thirty years and was responsible for a Rare

Breeds farm for over a decade, wrote articles for country magazines and has advised TV production companies on recent documentaries on dogs. He was a contributor to the Bateson Report, an inquiry into pedigree dog breeding in the UK. 400 colour and b/w photographs
