The Watch, Thoroughly Revised

Simon and Schuster

Jesus Christ is arguably the most famous man who ever lived. His image adorns countless churches, icons, and paintings. He is the subject of millions of statues, sculptures, devotional objects and works of art. Everyone can conjure an image of Jesus: usually as a handsome, white man with flowing locks and pristine linen robes. But what did Jesus really look like? Is our popular image of Jesus overly westernized and untrue to historical reality? This question continues to fascinate. Leading Christian Origins scholar Joan E. Taylor surveys the historical evidence, and the prevalent image of Jesus in art and culture, to suggest an entirely different vision of this most famous of men. He may even have had short hair.

At Borough Farm, on North Devon's rugged, spectacular coast, David Kennard and his dogs are embarking on a new shepherding year. Part diary, part Herriot-like homage to the countryside and its characters, this book is a portrait of a real life. Kennard presents twelve months with his working sheepdogs as they face a never-ending series of challenges: from rescuing ewes stranded on the Atlantic cliffs to running the gauntlet of psychopathic rams and officious farm inspectors, from spring lambing and summertime shearing to fending off the ever-present threats nature has in store for the 850-strong flock. All this, in the midst of a harsh

economic climate for farming and a landscape that is among the most picturesque, yet wildly unpredictable, in the British Isles. As he follows the changing seasons, he also offers a meditation on man's relationship with his environment, and an elegy to a rural way of life.--From publisher description.

Tuesdays with Morrie Simon and Schuster

The Watch is the most popular book on vintage and contemporary mechanical watches, appealing to both beginners and experts. In the decade since it was published, the international audience of watch lovers and watch collectors has grown exponentially. It's time for *The Watch, Thoroughly Revised*. For this new edition, the original author, Gene Stone, is joined by Stephen Pulvirent of Hodinkee.com. Together, they have thoroughly revamped the book to reflect the current state of the watch world, with the addition of new brands, new models, and more focused and nuanced coverage of the traditional brand leaders, including Rolex, Patek Philippe, Omega, and TAG Heuer.

The Gift of the Magi (Illustrated) W. W. Norton & Company

The first and most comprehensive step-by-step guide on the subject, Watchmaking has become a classic in its own right. This new edition is updated to include a new section which discusses and illustrates a variety of the author's own watches. The author's principal aim in writing this book has been to inspire and encourage the art of watchmaking, especially among a new generation of enthusiasts. The making of the precision timekeeper is described, step by step, and is illustrated at each stage with line drawings and brief explanatory captions. Great care has been taken to ensure the text is easy to follow and to avoid

complicated technical descriptions.

The Book of Rolex Yearling

All in Good Time is the remarkable story of George Daniels (1926-2011), the master craftsman, who was born into poverty but raised himself to become the greatest watchmaker of the twentieth century. Daniels stands alone in modern times as the inventor of the revolutionary co-axial escapement, the first substantial advance in portable mechanical timekeeping over the lever escapement, which has dominated ever since its invention in 1759. Daniels's love of mechanics embraced not only the minute, however - he was also a passionate collector and driver of historic motorcars. This revised and expanded edition of his autobiography also contains a new section that illustrates and discusses over thirty of the pocket and wrist-watches Daniels himself made over the years. Witness here the triumph of intelligence, ingenuity, matchless skill and singularity of purpose over the most unpromising of beginnings.

Discover the heartwarming true story of a life-changing friendship between a man and his rescue cat, Nala, as they adventure together on a bike journey around the world -- from the Instagram phenomenon @1bike1world. When 30-year-old Dean Nicholson set off from

Scotland to cycle around the world, his aim was to learn as much as he could about our troubled planet. But he hadn't bargained on the lessons he'd learn from his unlikely companion. Three months after leaving home, on a remote road in the mountains between Montenegro and Bosnia, he came across an abandoned kitten. Something about the piercing eyes and plaintive meowing of the bedraggled little cat proved irresistible. He couldn't leave her to her fate, so he put her on his bike and then, with the help of local vets, nursed her back to health. Soon on his travels with the cat he named Nala, they forged an unbreakable bond -- both curious, independent, resilient and adventurous. The video of how they met has had 20 million views and their Instagram has grown to almost 750k followers -- and still counting! Experiencing the kindness of strangers, visiting refugee camps, rescuing animals through Europe and Asia, Dean and Nala have already learned that the unexpected can be pretty amazing. Together with Garry Jenkins, writer with James Bowen of the bestselling *A Street Cat Named Bob*, Dean shares the extraordinary tale of his and Nala's inspiring and heart-warming adventure together.

A Man and His Watch Ryland Peters & Small

*** Reduced from \$210.00 while stocks last *** Starting in the late 1960s but especially in the 70s, the most innovative Italian coachbuilders from Bertone to Pininfarina followed a radical design path. With fantastical wedge-shaped speedsters, their goal was nothing less than reimagining the car. Many of their ideas--as reflected in the concept vehicles in this book--ended up on the scrap heap of design history, while other concepts have remained influential up to the present. Rainer W. Schlegelmilch, best known for his spectacular Formula 1 photography, captured all of this 70s explosion of automotive creativity with his unique photographic eye. With his artful staging, the angular concept car silhouettes took on the curvy and alluring forms of models. Through these futuristic design concepts from the 70s,

we get even closer to the spirit of that decade--one that continues to hold us in its thrall. Text in English, German and French

"The Gift of the Magi" is a short story by O. Henry first published in 1905. The story tells of a young husband and wife and how they deal with the challenge of buying secret Christmas gifts for each other with very little money. The main idea of "The Gift of the Magi" is that the value of a gift is in the giver, rather than the gift itself. Jim and Della, out of their love for each other, purchased a gift that

required them to sacrifice something that was precious to them.

Survival In Auschwitz Workman Publishing Company

Winner of the Pulitzer Prize Winner of the National Book Critics Circle Award The definitive biography of the mercurial Soviet leader who succeeded and denounced Stalin. Nikita Khrushchev was one of the most complex and important political figures of the twentieth century. Ruler of the Soviet Union during the first decade after Stalin's death, Khrushchev left a contradictory stamp on his country and on the world. His life and career mirror the Soviet experience: revolution, civil war, famine, collectivization, industrialization, terror, world war, cold war, Stalinism, post-Stalinism. Complicit in terrible Stalinist crimes, Khrushchev nevertheless retained his humanity: his daring attempt to reform communism prepared the ground for its eventual collapse; and his awkward efforts to ease the cold war triggered its most dangerous crises. This is the first comprehensive biography of Khrushchev and the first of any Soviet leader to

reflect the full range of sources that have become available since the USSR collapsed. Combining a page-turning historical narrative with penetrating political and psychological analysis, this book brims with the life and excitement of a man whose story personified his era.

A Man Called Ove Amz Jay

A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their

capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads

him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.
