Les contes de Perrault et les récits parallèles Oxford University Press

In the late 18th and early 19th centuries, attitudes toward history and national identity fostered a romantic rediscovery of folk and fairy tales. This is the period of the Golden Age of folk and fairy tales, when European folklorists sought to understand and redefine the present through the common tales of the past, and long neglected stories became recognized as cultural treasures. In this rich collection, distinguished expert of fairy tales Jack Zipes continues his lifelong exploration of the story-telling tradition with a focus on the Golden Age. Included are one hundred eighty-two tales--many available in English for the first time--grouped into eighteen tale types. Zipes provides an engaging general Introduction that discusses the folk and fairy tale tradition, the impact of the Brothers Grimm, and the significance of categorizing tales into various types. Short introductions to each tale type that discuss its history, characteristics, and variants provide readers with important background information. Also included are annotations, short biographies of folklorists of the period, and a substantial bibliography. Eighteen original art works by students of the art department of Anglia Ruskin University not only illustrate the eighteen tale types, but also provide delightful—and sometimes astonishing—21st-century artistic interpretations of them.

De la fable burlesque au conte populaire, 15 récits pour raconter le Portugal. Des pierres bleues qui parlent, un lapin blanc seigneur d'un château et une blatte en mal d'amour sont les héros de ces contes plein d'humour.

Lectures and Reports BRILL

Before the Portuguese Royal Court moved to its South-American colony in 1808, books and periodicals had a very limited circulation there. It was only when Brazilian ports were opened to foreign trade that the book trade began to flourish, and printed matter became more easily available

to readers, whether for pleasure, for instruction or for political reasons. This book brings together a collection of original articles on the transnational relations between Brazil and Europe, especially England and France, in the domain of literature and print culture from its early stages to the end of the 1920s. It covers the time when it was forbidden to print in Brazil, and Portugal strictly controlled which books were sent to the colony, through the quick flourishing of a transnational printing industry and book market after 1822, to the shift of hegemony in the printing business from foreign to Brazilian hands at the beginning of the twentieth century. Sandra Guardini Vasconcelos is Professor of English and Comparative Literature at the University of Sao Paulo.
