Oil paint is such a responsive and versatile medium that no two painters need use it in exactly the same way, and since its invention in Renaissance times it has never lost its popularity with artists. Amateurs also find it appealing, not only because it is enjoyable to use but also because mistakes can be easily rectified, yet in many cases mistakes would not occur if the individual had a sound knowledge of technique. In the A-Z section of the book, Jeremy Galton, a practising painter, explains how to build up a painting, how and when to work "wet into wet", and how to make your brushwork describe forms and textures. He also provides a wealth of stimulating ideas such as combining oil paints with other media, mixing paint with sand and sawdust and applying it with knives, rags or the fingers. In the second part of the book, Themes, you can see the techniques in context. Illustrated with a gallery of paintings by well-known artists as well as informative step-by-step demonstrations, it shows how each person applies his or her knowledge of oil painting techniques to the interpretation of a subject, whether landscape, portrait or still life.

About the Expert Manaal Javed has been painting in oils for more than four years. She puts her soul onto the canvas by playing with colors. She paints in a number of mediums, including acrylics and water paints. Oil painting is her favorite type of painting because an oil painting can be refined after it is completed. She critiques her work after completion and puts in the elements which she feels is incomplete in the painting. Hand and eye coordination makes her arrange all the elements in her painting beautifully and, of course, her imagination is like the cherry on top. She has always been a quiet person who does not let her feelings come out. For her, painting is a way to communicate with people. She had this advice to others who are learning oil painting, "Play with colors, feel free and break all the rules... and put the best on the canvas. Always critique your work; it is the key to improvement. Nothing is difficult in this world, just practice and you will create masterpieces in no time!!! Believe in yourself and let your imagination do the rest." HowExpert publishes quick 'how to' guides on all topics from A to Z by everyday experts.
