From sharpening an axe to baking your own bread, you'll be amazed at the many ways learning traditional skills can enrich your life.

American Gardening Natural Resource Agriculture and Engineering Service (Nraes)

In 2015, the Mexican state counted how many of its citizens identified as Afro-Mexican for the first time since independence. Finding Afro-Mexico reveals the transnational interdisciplinary histories that led to this celebrated reformulation of Mexican national identity. It traces the Mexican, African American, and Cuban writers, poets, anthropologists, artists, composers, historians, and archaeologists who integrated Mexican history, culture, and

society into the African Diaspora after the Revolution of 1910. Theodore W. Cohen persuasively shows how these intellectuals rejected the nineteenth-century racial paradigms that heralded black disappearance when they made blackness visible first in Mexican culture and then in post-revolutionary society. Drawing from more than twenty different archives across the Americas, this cultural and intellectual history of black visibility, invisibility, and community-formation questions the racial, cultural, and political dimensions of Mexican history and Afro-diasporic thought.

A Bowl for a Coin is the first book in any language to describe and analyze the history of all Japanese teas. To understand the triumph of the tea plant in Japan, Wayne Farris begins with its cultivation and goes on to describe the myriad ways in which the herb was processed into a palatable beverage. Along the way, he traces the shift in tea's status from exotic gift item from China to its complete nativization in Edo (1603-1868) art and literature and its eventual place on the table of every Japanese household. Farris maintains that tea farming exemplifies the increasing sophistication of Japanese agriculture after 1350, resulting in significant exports of Japanese tea to Euro-American markets, and securing Japan a place among the world's industrialized nations. By 1800, tea had become a central commodity in the formation of a burgeoning consumer society.

Finding Afro-Mexico University of Hawaii Press

Monthly magazine devoted to topics of general scientific interest.

Moore's Rural New-Yorker Univ of North Carolina Press

Now a major motion picture nominated for nine Academy Awards. Narrative of Solomon Northup, a Citizen of New-York, Kidnapped in Washington City in 1841, and Rescued in 1853. Twelve Years a Slave by Solomon Northup is a memoir of a black man who was born free in New York state but kidnapped, sold into slavery and kept in bondage for 12 years in Louisiana before the American Civil War. He provided details of slave markets in Washington, DC, as well as describing at length cotton cultivation on major plantations in Louisiana.

The Anthem Companion to Hannah Arendt offers a unique collection of essays on one of the twentieth century's greatest thinkers. The companion encompasses Arendt's most salient arguments and major works – The Origins of Totalitarianism, The Human Condition, Eichmann in Jerusalem, On Revolution and The Life of the Mind. The volume also examines Arendt's intellectual relationships with Max Weber, Karl Mannheim and other key social scientists. Although written principally for students new to Arendt's work, The Anthem Companion to Hannah Arendt also engages the most avid Arendt scholar.

The New Encyclopedia of Southern Culture Purdue University Press

There is an extraordinary range of material in this anthology, from Lincoln's Gettysburg address to a contemporary account of a visit from the Ku Klux Klan. This is an explicit and detailed guide, an intelligent "how-to" book for professionals. It lays the groundwork and creates context by exploring essential concepts, defines terms that may be new or unfamiliar, and then moves forward with practical software techniques. All the while it is building on the existing knowledge and experience of its professional design audience. Taking Your Talent to the Web is based on the Populi Curriculum in Web Communications Design, developed by Jeffrey Zeldman in cooperation with Populi, Inc., (www.populi.com) and the Pratt Institute. The book's purpose is to guide traditional art directors and print designers as they expand their existing careers to include the new field of professional Web Design.

To farmers the world over, there's no tractor like a John Deere. The history of Deere's development of the farm tractor and its fight to be number one in the business is a fascinating tale - told here in complete detail through extensive research and interviews with the designers, engineers, dealers, and farms that made Deere famous. Author Randy Leffingwell traveled across the country photographing tractors from New England to California, bringing together hundreds of stunning color photos along with rare archival images. The full line of Deere tractors are presented, from early experimental models to the Waterloo Boy, the Model D, the Johnny Poppers, modern four- and six-cylinder models, and everything in between. Packed with colorful stories, anecdotes, and never-before-seen illustrations, John Deere is the ultimate tribute to the legendary American tractors.

Crop Rotation on Organic Farms

Why did Yugoslavia fall apart? Was its violent demise inevitable? Did its population simply fall victim to the lure of nationalism? How did this multinational state survive for so long, and where do we situate the short life of Yugoslavia in the long history of Europe in the twentieth century? A History of Yugoslavia provides a concise, accessible, comprehensive synthesis of the political, cultural, social, and economic life of Yugoslavia—from its nineteenth-century South Slavic origins to the bloody demise of the multinational state of Yugoslavia in the 1990s. Calic takes a fresh and innovative look at the colorful, multifaceted, and complex history of Yugoslavia, emphasizing major social, economic, and intellectual changes from the turn of the twentieth century and the transition to modern industrialized mass society. She traces the origins of ethnic, religious, and cultural divisions, applying the latest social science approaches, and drawing on the breadth of recent state-of-the-art literature, to present a balanced interpretation of events that takes into account the differing perceptions and interests of the actors involved. Uniquely, Calic frames the history of Yugoslavia for readers as an essentially open-ended process, undertaken from a variety of different regional perspectives with varied composite agenda. She shuns traditional, deterministic explanations that notorious Balkan hatreds or any other kind of exceptionalism are to blame for Yugoslavia's demise, and along the way she highlights the agency of twentieth-century modern mass society in the politicization of differences. While analyzing nuanced political and social-economic processes, Calic describes the experiences and emotions of ordinary people in a vivid way. As a result, her groundbreaking work provides scholars and learned readers alike with an accessible, trenchant, and authoritative introduction to Yugoslavia's complex history.
