Books for Burning John Wiley & Sons
 Fluxus was an art movement of the 1960s and 70s that set out to abolish the canonized art idioms of the day. Pioneers of Conceptual Art and Minimalism, the Fluxus artists were known for their environments, performance art and mass-producible objects. This book is a study of the Fluxus movement.

Etudes religieuses, philosophiques, historiques et littéraires Penguin UK
 Available Open Access under CC-BY-NC licence. Citizenship is always in dispute – in practice as well as in theory – but conventional perspectives do not address why the concept of citizenship is so

contentious. This unique book presents a new perspective on citizenship by treating it as a continuing focus of dispute. The authors dispute the way citizenship is normally conceived and analysed within the social sciences, developing a view of citizenship as always emerging from struggle. This view is advanced through an exploration of the entanglements of politics, culture and power that are both embodied and contested in forms and practices of citizenship. This compelling view of citizenship emerges from the international and interdisciplinary collaboration of the four authors, drawing on the diverse disputes over citizenship in their countries of origin (Brazil, France, the UK and the US). The book is essential reading for anyone interested in the field of citizenship, no matter what their geographical, political or academic

location.

Urban Planning in Europe John Wiley & Sons

Urban planning is undergoing a period of transformation across Europe, with a major trend towards increased urban competition, national deregulation and greater private sector influence. Urban Planning in Europe is the first comprehensive analysis of the influence of countries is developed, presenting the similarities and differences of each country's national planning system. The authors use detailed case studies to explore planning policies in a range of European cities, and discuss the social and environmental objectives that influence today's urban planner. Urban Planning in Europe is an essential guide to contemporary European planning projects and highlighting opportunities for

innovation which contain vital lessons for the future of urban decision making.

Tracing family history has become increasingly popular over the last few decades and the availability of many records online means that those fortunate enough to have Scottish ancestors can easily access many of the sources they need to build their family tree. However, as research progresses, most family historians will eventually hit the dreaded 'brick wall' and find themselves unable to proceed further. This book provides a wealth of information, advice and techniques to help solve these genealogy problems and gives family historians the tools they need to track down even the most elusive forebears. Contents include: sources for Scottish family history research, both traditional archives and online resources; techniques for searching and interpreting genealogical records; planning and recording research and, finally, common genealogy problems and their solutions.

Since the 1980s, the theme park industry has developed into a global phenomenon, with everything from large, worldwide theme parks to countless smaller ventures. From the first pleasure gardens to the global theme park companies, this book provides an understanding of the nature and function of theme parks as spaces of entertainment. Illustrated throughout by worldwide case studies, empirical data and practical examples, the book portrays the impacts of theme park as global competitive actors, agents of global development and cultural symbols, particularly in the context of their role in the developing experience economy. In conclusion, this book is a practical guide to the planning and development of theme parks.

The Real Europe Pocket Guide-book

Cambridge University Press

Published to accompany the 1994 exhibition at The Museum of Modern Art, New York, this book constitutes the most extensive survey of modern illustrated books to be offered in many years. Work by artists from Pierre Bonnard to Barbara Kruger and writers from Guillaume Apollinaire to Susan Sontag. An important reference for collectors and connoisseurs. Includes notable works by Marc Chagall, Henri Matisse, and Pablo Picasso.

The Global Theme Park Industry Harry N. Abrams

The magnitude of the food-waste disposal problem cannot be understated. Utilisation of food waste is of concern to the food processing industry, consumers,

environmentalists, and regulators of handling and disposal systems. Food waste is not consistent in quality, is usually high in moisture content, and is only available locally. This book focuses on the challenges of utilising both wet and/or processed food waste. The regulatory environment relating to food waste, the perspective of the end-users, and practical use as animal feed is also discussed. One of the goals of this publication, other than to give a clear explanation of the subject of food waste and its uses as animal feed, is to stimulate a need for research.

Guide to Microforms in Print W. W. Norton & Company

Violence and Social Orders Policy Press

This book integrates the problem of violence into a larger framework, showing how economic and political behavior are closely linked.

The Pandemic Century: One Hundred Years of Panic, Hysteria, and Hubris

Routledge

Includes over 75 maps, photos and plans. The present volume describes the activities of the U.S. Army in Vietnam during World War II, military advice and assistance to the French government during the immediate post-war years, and the advisory program that developed after the Geneva Agreements of 1954. Its scope ranges from high-level policy decisions to low-echelon advisory operations in the field, presented against a background of relevant military and political developments. The author enjoyed access to the official records of the period and examined personal papers, interviews, other documentary sources, and miscellaneous published materials. Useful not only as a study of military assistance but as a view of the Army as an agent of national policy, this volume is a fitting introduction to the overall study of the conflict in Vietnam.

'A towering achievement. There is simply nothing like it in the history of Black radical thought' Cornel West 'Cedric Robinson's brilliant analyses revealed new ways of thinking and acting' Angela Davis 'This work is about our people's struggle, the historical Black struggle' Any struggle must be fought on a people's own terms, argues Cedric Robinson's landmark account of Black radicalism. Marxism is a western construction, and therefore inadequate to describe the significance of Black communities as agents of change against 'racial capitalism'. Tracing the emergence of European radicalism, the history of Black African resistance and the influence of these on such key thinkers as W. E. B. Du Bois, C. L. R. James and Richard Wright, Black Marxism reclaims the story of a movement.

With a New Chapter and Updated Epilogue on Coronavirus A Financial Times Best Health Book of 2019 and a New York Times Book Review Editors' Choice "Honigsbaum does a superb job covering a century's worth of pandemics and the fears they invariably unleash." —Howard Markel, MD, PhD, director of the Center for the History of Medicine, University of Michigan How can we understand the COVID-19 pandemic? Ever since the 1918 Spanish influenza pandemic, scientists

have dreamed of preventing such catastrophic outbreaks of infectious disease. Yet despite a century of medical progress, viral and bacterial disasters continue to take us by surprise, inciting panic and dominating news cycles. In *The Pandemic Century*, a lively account of scares both infamous and less known, medical historian Mark Honigsbaum combines reportage with the history of science and medical sociology to artfully reconstruct epidemiological mysteries and the ecology of infectious diseases. We meet dedicated disease detectives, obstructive or incompetent public health officials, and brilliant scientists often blinded by their own knowledge of bacteria and viruses—and see how fear of disease often exacerbates racial, religious, and ethnic tensions. Now updated with a new chapter and epilogue.

“Mabanckou dazzles with technical dexterity and emotional depth” in his debut novel, winner of the Grand Prix Littéraire de l’Afrique Noire (Publishers Weekly, starred review). This tale of wild adventure reveals the dashed hopes of Africans living between worlds. When Moki returns to his village from France wearing designer clothes and affecting all the manners of a Frenchman, Massala-Massala, who lives the life of a humble peanut farmer after giving up his studies, begins to dream of following in Moki’s footsteps. Together, the two take wing for Paris, where Massala-Massala finds himself a part of an underworld of out-of-work undocumented immigrants. After a

botched attempt to sell metro passes purchased with a stolen checkbook, he winds up in jail and is deported. *Blue White Red* is a novel of postcolonial Africa where young people born into poverty dream of making it big in the cities of their former colonial masters. Alain Mabanckou’s searing commentary on the lives of Africans in France is cut with the parody of African villagers who boast of a son in the country of Digol. Praise for Alain Mabanckou and *Blue White Red* “Mabanckou counts as one of the most successful voices of young African literature.” —Internationales Literaturfestival Berlin “The African Beckett.” —The Economist “Blue White Red stands at the beginning of the author’s remarkable and multifaceted career as a novelist, essayist and poet . . . this debut novel shows much of his style and substance in remarkable ways . . . Dundy’s translation is excellent.” —Africa Book Club “Mabanckou’s provocative novel probes the many facets of the ‘migration adventure.’” —Booklist [How To Win Friends And Influence People](#) CABI

On Her Majesty's Secret Service is the second book in what is known as the “Blofeld trilogy”, which begins with *Thunderball* and concludes with *You Only Live Twice*. The story centres on Bond's ongoing search to find Ernst Stavro Blofeld after the *Thunderball* incident; through contact with the College of Arms in London Bond finds Blofeld based in Switzerland. After meeting him and discovering his latest plans, Bond attacks the centre

where he is based, although Blofeld escapes in the confusion. Bond meets and falls in love with Contessa Teresa “Tracy” di Vincenzo during the story.

In doing so, the book highlights the conjoined history of broad transnational processes and local political change.

Francia - Key Guide The Crowood Press Plainchant is the oldest substantial body of music that has been preserved in any shape or form. It was first written down in Western Europe in the eighth to ninth centuries. Many thousands of chants have been sung at different times or places in a multitude of forms and styles, responding to the differing needs of the church through the ages. This book provides a clear and concise introduction, designed both for those to whom the subject is new and those who require a reference work for advanced study. It begins with an explanation of the liturgies that plainchant was designed to serve. It describes all the chief genres of chant, different types of liturgical book, and plainchant notations. After an exposition of early medieval theoretical writing on plainchant, Hiley provides a historical survey that traces the constantly changing nature of the repertory. He also discusses important musicians and centers of composition. Copiously illustrated with over 200 musical examples, this book highlights the diversity of practice and richness of the chant repertory in the Middle Ages. It will be an indispensable introduction and reference source on this important music for many years to come.
