With the NEP 2020 and expansion of research and knowledge has changed the face of education to a great extent. In the Modern times, education is not just constricted to the lecture method but also includes a practical knowledge of certain subjects. This way of education helps a student to grasp the basic concepts and principles. Thus, trying to break the stereotype that subjects like Mathematics, and Science means studying lengthy formulas, complex structures, and handling complicated instruments, we are trying to make education easy, fun, and enjoyable.

Laboratory Manual for Science is a series of five books for classes 6 to 10. These are complimentary to the Science textbooks of the respective classes. The manuals cover a wide range of age-appropriate experiments that give

hands-on experience to the students. The experiments help students verify scientific truths and principles, and at the same time, expose them to the basic tools and techniques used in scientific investigations. Our manuals aim not only to help students better comprehend the scientific concepts taught in their textbooks but also to ignite a scientific quest in their young inquisitive minds.
