Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

New York Construction Law Manual Haynes Manuals N. America, Incorporated

In Minnesota Made Me, award-winning sportswriter Patrick C. Borzi digs into how growing up or living in Minnesota shaped the careers of the state's most accomplished athletes.

The Asphalt Handbook Copyright Office, Library of Congress

The purpose of this manual is to provide clear and helpful information for maintaining gravel roads. Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been "more of an art than a science" and very few formal standards exist. This manual contains guidelines to help answer the questions that arise concerning gravel road maintenance such as: What is enough surface crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.

"This colossal reference book documents the timeless urge to reshape the world, and the machines used to do so from the 1088's to today. From utility tractors and loaders up to the largest diggers and bulldozers, every piece of heavy equipment is listed here by model and manufacturer, making this the most exhaustive book on the world's most hard-working vehicles and machines"--Publisher's description.

Power Trains

Step-by-step instructions cover everything from safety precautions to materials selection to the final lamination process. Practice exercises offer hands-on experience for working with glass cloth, mat, core materials, and resins. Information is provided on molding, structural concepts, and the caring for cured fiberglass. There is even a list of suppliers, repair techniques for materials other than fiberglass, and a complete section on covering wood with fiberglass. Book jacket.

Constructor

For more than 70 years, "MS-4" has served the asphalt industry as its primary reference manual. This new, expanded edition showcases the advances in asphalt technology, covering such topics as superpave courses, asphalt binder, quality control, and rehabilitation of concrete pavements with HMA.
