When people find out she is a therapist, Niro Feliciano knows she isn't going anywhere anytime soon. At soccer games, at cocktail parties, in waiting rooms, people corner her and ask: Why am I so stressed? Is the way I feel normal? Why can't I just be happy? The truth is happiness is fleeting, and we are stressing ourselves out trying to achieve it. In *This Book Won't Make You Happy*, national media commentator and Psychology Today columnist Feliciano offers a path to something much more achievable and abundantly more satisfying: contentment. By incorporating eight

simple postures rooted in cognitive behavioral science and mindfulness practices into our daily routines, we can move away from anxiety and toward balance and calm. Acceptance, gratitude, connection, a present-focused perspective, intentionality and priority, self-compassion, resilience, and faith: through these practices we will overcome obstacles that hold us back from living full, meaningful, contented lives. Anxiety, stress, and grief aren't going away anytime soon, and this book won't make you happy. But with wit and empathy, Feliciano leads you right past happy to calm. No matter how "happy" your life is--or isn't--you can reach a deeper, truer, and longer-lasting place of contentment.

New York Times bestselling author, superstar comedian, and

Hollywood box office star Kevin Hart turns his immense talent to the written word by writing some words. Some of those words include: the, a, for, above, and even even. Put them together and you have a “hilarious but also heartfelt” (Elle) memoir on survival, success, and the importance of believing in yourself. The question you’re probably asking yourself right now is: What does Kevin Hart have that a book also has? According to the three people who have seen Kevin Hart and a book in the same room, the answer is clear: A book is compact. Kevin Hart is compact. A book has a spine that holds it together. Kevin Hart has a spine that holds him together. A book has a beginning. Kevin Hart’s life uniquely qualifies him to write this book by also having a beginning. It begins in North Philadelphia. He was born an accident, unwanted by his parents. His father was a drug addict who was in and out of jail. His brother was a crack dealer and petty thief. And his mother was overwhelmingly strict, beating him with belts, frying pans, and his own toys. The odds, in short, were stacked against our young hero. But Kevin Hart, like Ernest Hemingway, J.K. Rowling, and Chocolate Droppa before him, was able to defy the odds and turn it around. In his literary debut, he takes us on a journey through what his life was, what it is today, and how he’s overcome each challenge to become the man he is today. And that man happens to be the biggest comedian in the world, with tours that sell out football stadiums and films that have collectively grossed over \$3.5 billion. He achieved this not just through hard work, determination, and talent. “Hart is an incredibly magnetic storyteller, on the page as he is onstage, and that’s what shines through [in this] genial, entertaining guide to a life in comedy” (Kirkus Reviews).

One of the most popular questions cops get asked is "What's the funniest thing that's ever happened to you on the job?" Well, we set out to gather a few funny stories from across North America and compiled them into this eBook with some stories you will want to read again and again to laugh at and share with your friends. So many times in the career of law enforcement officers, you end up saying "You just can't make this stuff up!" So, here are some insights as to the sorts of things that we have laid eyes on or experienced that we hope you'll enjoy! Please be aware that the stories in this book are REAL and some involve recounting nudity or other PG-16+ situations that you may want to consider if you find such real situations (that cops see and have to learn to laugh at) offensive.

Most of the stories in this book are those that I lived throughout

my life. I recently retired, and I had the time to write these stories down. At least as many as I can remember (memory may not my best trait anymore). Someone often says something that triggers the depths of my memory. I wrote down a note to remind myself, and then I added that item to this book. There are over 230 such stories here. I removed the names and places from my stories, to protect the innocent.

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Is it possible to be a judge and have a sense of humor too? Judge Vanessa Gilmore shows us that the answer is a resounding yes!

In this humorous, autobiographical collection of short stories, Judge Gilmore reveals a glimpse of life on and off the bench. A master storyteller, and a lover of all things funny, Judge Gilmore would often regale her friends at parties with tales of her life. When she related a story about a criminal defendant who was flirting with her as she took his plea, and another who dressed as king during his trial, her friends insisted that these stories could not be true. This book shows us that life really is stranger and funnier than fiction. From hilarious tales of flirting criminals and fighting lawyers, to heart warming stories of time spent mentoring young girls, we see it all through the eyes of a judge. Vanessa found humor when a man in a restaurant insisted that she should stop saying she was a federal judge because it just sounded too far fetched and vindication when her young son asked if boys could be judges too. This book will leave you laughing and asking if life as a judge can really be this much fun. [You Couldn't Make It Up...!](#) Charisma Media

The south of France, known for its beauty, perfect climate, fresh produce, excellent cuisine, fine wines and steeped in history – but what lurks behind? This is a humorous yet cautionary tale of 3 naïve individuals, Abi, Marc and their daughter Beth who after losing their financial security in the housing crash of 2008, packed up their belongings and relocated to Provence. Finding themselves unexpectedly welcomed into the family that owned their rented farm house, Abi, Marc and Beth were in their element, long lunches under the hot sun, dinner parties by the pool, and a simple lifestyle that was to provide them with the pleasurable and affordable elements life has to offer; fresh croissants, soft, creamy goats cheese, an abundance of locally

produced wine, lunches on hot winter days at the beach and evening movies in the garden. Failing to heed the warning that offering a hand in France can mean the loss of the whole arm, this family found themselves in one crisis after another as uninvited strangers sought to share the delights they had previously overlooked. A story of suspicion, jealousy, seduction and of course the impending inheritance, that which keeps all French on their toes.

Please note: This is a companion version & not the original book. Sample Book Insights: #1 My first memory is of going to Ebbets Field in the summer of 1950 with my father. I was almost six, and the ballpark was a twenty-minute walk from our second-story apartment in the Flatbush section of Brooklyn. I remember the colors vividly. #2 I was a big sports fan, and would spend hours listening to the games on the radio. I would spend hours collecting baseball cards, and memorizing the statistics. #3 I loved playing sports as a kid, but I loved watching them even more. I would rather go to a Dodger game than play in a game in a park down the street. I dreamed of announcing Major League baseball.

Based on a Navy SEAL's inspiring graduation speech, this #1 New

York Times bestseller of powerful life lessons "should be read by every leader in America" (Wall Street Journal). If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments. "Powerful." --USA Today "Full of captivating personal anecdotes from inside the national security vault." --Washington Post "Superb, smart, and succinct." --Forbes

[You Can't Make This Shit Up!! Corporate America](#) WaterBrook "And acceptance is the answer to all my problems today." You may already know of Dr. Paul's simple yet profound wisdom in the frequently quoted passage from his story in the Big Book of Alcoholics Anonymous. Dr. Paul continues sharing his experience, strength and hope in this, his second book, "You Can't Make Me

Angry": "By the time you put this book down, you will be convinced that people and circumstances don't make us angry; we make ourselves angry. People can't make us angry—unless we let them. We alone are responsible for our feelings." "A measure of the effectiveness of communication is the result it produces. If you don't like the results you are getting when communicating with another person, there's a great deal you can do about it. I'm not willing to let any thing or any person put my physical sobriety at risk; why should I put less value on my emotional sobriety?" "For physical sobriety, we had to give up drinking, and for emotional sobriety, we have to give up blaming others. No longer can we say, "You made me angry!" Instead, we must accept personal responsibility for our emotional state. This much responsibility may seem extreme, yet in fact it is a great freedom. Henceforth, no person or situation can upset us if we don't give them or it permission to do so. What could be a greater freedom than that?" "Emotional maturity is like serenity. The first time I felt serene, I wondered what was happening, but I liked the feeling and wanted more. The more I got, the more I wanted. Serenity is addictive."

Five years and more than 100,000 copies after it was first published, it's hard to imagine anyone working in Web design who hasn't read Steve Krug's "instant classic" on Web usability, but people are still discovering it every day. In this second edition, Steve adds three new chapters in the same style as the original: wry and entertaining, yet loaded with insights and practical advice for novice and veteran alike. Don't be surprised if it completely changes the way you think about Web design.
