A masterpiece of
reporting on the
Supreme Court's most
divisive case, *Roe v.*
Wade, and the
unknown lives at its
heart. Despite her
famous pseudonym, no

one knows the truth
about “Jane Roe,”
Norma McCorvey
(1947–2017), whose
unwanted pregnancy in
1970 opened a great
fracture in American
life. Journalist Joshua
Prager spent years
with Norma,
discovered her
personal papers, a
previously unseen
trove, and witnessed
her final moments.
With an explosive
revelation at the core
of the case, he tells her
full story for the first
time. Prager also
traces Roe's fifty-year
trajectory through
three compelling
figures: feminist lawyer
Linda Coffee, who filed
the original Texas
lawsuit yet now lives in
obscurity; Curtis Boyd,
a former
fundamentalist
Christian, today a
leading provider of

third-trimester abortions; and Mildred Jefferson, the first Black female Harvard Medical School graduate, who became a pro-life leader with great secrets. Essential to our understanding of this key debate, the right to choose or the right to life, *The Family Roe* will change the way you think about our enduring American divide.

Presenting 60 years of newspaper advertising for motion pictures great and small, this book features ads created by Hollywood and adapted by local and regional exhibitors that motivated patrons to leave their homes, part with precious income, and spend time in the dark. Because of the high stakes involved, theater operators used wildly creative means to make that happen. They made movie advertising equal parts art and psychology, appealing to every

human instinct in an effort to push product and keep their theatres in business. From the pen-and-ink masterpieces of the 1920s and 30s to location-specific folk art to ad space jam-packed with enticements for every member of the family, the book dissects the psyche of the American movie-going public and the advertisers seeking to push just the right buttons.

The Adventurers North Star Editions, Inc.
Tabitha Moving to a new town isn't easy, especially when it's so you can bond with the half-sister you never knew existed until those ancestry DNA results came back. I took the leap and got a job at the school in Piersville as an art teacher and made an

offer on the pretty little house that I'd seen online. What I never expected to find when I arrived was my sister catching her husband cheating on her, and then getting arrested for no reason by the Sheriff, Dave Bell. I was a sucker for tattoos, I was also a sucker for a tall man built like a wall. And apparently I was a sucker for a guy with a badge and a big... truck. Call me old-fashioned, but being arrested, interrogated, and tortured (well, maybe not quite) wasn't exactly romance, but everyone makes mistakes so I gave him a second chance. Until I found out the huge secret he was hiding - well, more to the point who he was related to. Fool me once, shame on you. Fool me twice,

you're a twat. Fool me three times, no chance! "DB" The people in the town I worked in were relatively easygoing, well aside from the Townsends. That family was a law unto themselves. Tabitha Newton, the new art teacher, breezed into town and into my life at the same time. I'd been called out to check on a house with a suspicious car in the drive by a concerned neighbor and had stumbled across the new woman sprawled across the living room floor. One accidental arrest, a trip to the station, and a friendly 'getting to know you' interrogation later, and I asked her out before she could find out who my stepsister was. It was stupid, of course she'd find out, but

something about the woman had intrigued me so much that common sense hadn't even come into it. There's a way around that though because there's a way around everything. If that fails, I'll just arrest her again - because I can.

Night over Water

Simon and Schuster

The brilliant, controversial, bestselling critique of American culture that “hits with the approximate force and effect of electroshock therapy” (The New York Times)—now featuring a new afterword by Andrew Ferguson in a twenty-fifth anniversary edition. In 1987, eminent political philosopher Allan Bloom published *The Closing of the American Mind*, an

appraisal of contemporary America that “hits with the approximate force and effect of electroshock therapy” (The New York Times) and has not only been vindicated, but has also become more urgent today. In clear, spirited prose, Bloom argues that the social and political crises of contemporary America are part of a larger intellectual crisis: the result of a dangerous narrowing of curiosity and exploration by the university elites. Now, in this twenty-fifth anniversary edition, acclaimed author and journalist Andrew Ferguson contributes a new essay that describes why Bloom’s argument caused such a furor at publication and why our culture so deeply resists its truths

today.
