The English Dialect Dictionary, Being the Complete Vocabulary of All Dialect

Words Still in Use, Or Known to Have Been in Use During the Last Two Hundred Years: T-Z. Supplement. Bibliography. Grammar Walter de Gruyter

Take a fascinating journey from plastic (1909) to podcasting (2004). This vivid picture of the last 105 years is based on John Ayto's critically acclaimed *Twentieth Century Words*, and was published in hardback as *Movers and Shakers: A chronology of words that shaped our age*. It offers a selection of the key words added to the English language in the twentieth century and the early years of the twenty-first, grouped by decade. An introductory essay identifies the main historical, cultural, and scientific currents running through each decade, and shows how

they contributed new vocabulary to the language. An A-Z listing of words which were first recorded in that decade follows, selected for their resonance to today's world. Each word is fully described and its origins explained. A final section looks at vocabulary developments of the new millennium. Full of surprises, this book is at once a glimpse of the past and a handbook for today.

In this volume of collected papers, acknowledged authorities in Jewish Studies mark the milestones in the development of the Jewish religion from ancient times up to the present. They also take full account of the interactions between Judaism and its ancient and

Christian environment. The renowned Viennese scholar Günter Stemberger is honoured with this festschrift on the occasion of his 65th birthday.

If you have never been inside of a prison, there are things you will not know about the community there. You may guess at them, but that is not the same. What it feels like. What it sounds like. What goes on there; these all define portions of what it is. These definitions, or parameters of life inside, come to you quite viscerally. You feel them in and through your skin before you actually give word or shape to understanding them. You sense before you think. The themes that come from a prison poet are

varied. Most poems you would not have to know the poet was a prisoner to gain access to the import of the word-pictures. Human experience, while diverse, shares some common archetypal qualities. But, some will grow in meaning knowing where the poems were planted. I think themes about being captive are universal, but when you know the poet is in a prison, it can open you to listen differently. Is that a good thing? I don't know. But it is true.

Ranulph Higden, monk of St. Werburgh's Abbey and well-known author of the Polychronicon and other treatises, penned a concise and user-friendly Art of Preaching about 1346. His *Ars componendi sermones* follows a schematic common to many members of this genre and includes attributes desirable or necessary in the preacher, methods for piquing an audience's interest, the process of effective repetition, and suggestions for creating rhythmic patterns in prose. Its major focus, however, is the clear and

comprehensive discussion of each thematic sermon part: the theme or scriptural text, its development in protheme and introduction, its division, subdivision, and embellishment. In structure and content, Higden's prescriptive manual has affinities to contemporary rhetorical texts, especially the *artes poeticae* and *dictaminis*, and displays an analogous relationship with Ciceronian *dispositio* as developed in the *De Inventione* and *Rhetorica ad Herennium*. A few of the many items of interest scattered throughout the text are Ranulph's insistence that preaching be separate from university exercises and his comments about various subjects like direct entry into heaven post mortem, the scope of medieval optics, what and who compose the

church, and the quadruple levels of scriptural exegesis.

A Concordance to the Holy Scriptures ... By John Fisher, Philadelphus. The Fifth Edition John Wiley & Sons

In 1888, a US Navy sailor begins writing letters to his niece. The letters tell her where he is and what ventures he has

gotten himself into. His sailor letters are retrospective, written after things happen. He also must tell her how he got to the place in time he started writing. He is educated for the time, trained as a naval navigator, lighthouse repairman, and watch repairman. His language is as he would speak to his fellow crew—clipped, as sailors use few G sounds, and an apostrophe is used to indicate the word is shortened, as they do. He is honest and kind. He is well trained in sword fighting. His enlistment contract is not the standard form. His mother's attorney wrote it. The fleet admiral approved it as he had served with the sailor's uncle. His uncle was a noted ship navigator, shipmaster, an author of navy lore, and now provided ocean metrological data to the naval

observatory. He has carried this on. His early experiences involve train travel to San Francisco. The ship charts the then Northwest Territory and the Alaskan coast. His group verifies charts of the Missouri River. Mostly, his ship supplies food provisions to navy frigates in the Mediterranean and the Caribbean.
