FORD RIGGS

Africans and Native Americans

University of Illinois Press
This is a Festschrift volume for the British Semitist Edward Ullendorff. It contains papers written by leading scholars in the fields of Semitic philology and Near Eastern history and literature. The

contributions are wide-ranging, including linguistic studies of Ethiopian Semitic, Aramaic, Hebrew, Arabic and Greek, also papers on ancient Near Eastern, biblical, Islamic and Ethiopian history and papers on Amharic and Modern Hebrew literature.

Augustiniana Univ of North Carolina Press

This volume will revise the way we look at the modern populations of Latin America and North America by providing a totally new view of the history of Native American and African American peoples throughout the hemisphere. Africans and Native Americans explores key issues relating to the evolution of racial terminology and European colonialists' perceptions of color, analyzing the development of color classification systems and the specific evolution of key terms such as black, mulatto, and mestizo, which no longer carry their original meanings. Jack Forbes presents strong evidence that Native American and African contacts began in Europe, Africa, and the Caribbean and that Native Americans may have crossed the Atlantic long before Columbus.

Jorge Manrique was the greatest poet of fifteenth-century Castile and one of the three or four greatest in Spanish literature. Frank A. Domínguez offers here an introduction to Manrique's poetry and the first book-length study of him in English in fifty years. After presenting the biographical and historical context of Manrique's poetry, Domínguez examines the poet's love lyrics, describing the large fund of commonplaces and forms that Manrique's verses share with those of other poets of his age. Manrique's highly stylized language and parallel verse structures express the obsession of the lover with the beloved. Moreover, his attention to parallel construe the world's greatest. In treating the Coplas, Domínguez not only offers a sensitive reading of the elegy but also examines questions of text, structure, and style. Like the love lyrics, the Coplas present a high incidence of parallel structures that make for clarity and symmetry. Domínguez also finds that the complex stylistic

relationships of the verses provide the Coplas with a unity that is deeper and more fundamental than has generally been perceived. This study, eclectic in its critical approaches, will be the standard English work on Manrique for years to come.

General Catalogue of Printed Books Brazil marked its centennial as an independent country in 1922. Claiming Brazil explores how Brazilians from different walks of life commemorated the event, and how this led to conflicting ideas of national identity. Civic rituals hold enormous significance, and Brazilian citizens, immigrants, and visitors employed them to articulate and perform their sense of what Brazil was, stood for, and could be. Gregg Bocketti argues that these celebrations, rather than uniting the

country, highlighted tensions between modernity and tradition, over race and ethnicity, and between nation and region. Further, the rituals contributed to the collapse of the country's social and political status quo and gave substance to the debates and ideas that characterized Brazilian life in the 1920s and then under the transformative rule of Getúlio Vargas (1930–1945). Now, at the bicentennial of Brazil's independence, which itself unfolds in a period of political crisis and economic dislocation, and in the aftermath of several large civic events, it is an opportune moment to consider how Brazilians used civic rituals to engage with questions of identity, belonging, and citizenship one hundred years ago.
