The Growth of African Literature Fordham Univ Press

This book is the first comparative work of its kind to provide an extended analysis of the contribution of Kamau Brathwaite and Christopher Okigbo. It considers the poetic works of these two artists as they responded to the transformations taking place within Africa and the Caribbean during the Independence period. Some of the issues discussed include: politics and art, religion, spirituality, traditional culture versus popular culture, language and identity, literature and orality, cyber-culture and identity. This book highlights some of the similarities and differences in the life and work of these two poets and examines various aspects of their style. It provides a clearer understanding of the stances these artists took on crucial issues that would shape the face of their respective societies way beyond the

Independence period. History, Trauma, and Healing in Postcolonial Narratives Greenwood Publishing Group Seminar paper from the year 2014 in the subject English - Literature, Works, grade: 1,0, Johannes Gutenberg University Mainz, language: English, abstract: A central theme in Caribbean literature is the absence of regional or national identity (Povey 275). Also Edward Kamau Brathwaite, one of the major voices in the Caribbean literary canon, focuses on transcending and healing the fragmented culture of the dispossessed people, mainly the descendants of West African slaves, living in the Caribbean region. In his poetry, he reexamines the history of the black diaspora in search for cultural wholeness in present-day Caribbean life. Brathwaite's aim thereby is to offer a corrective to these people's problems of dispossession of history and of language. In his first major work *The Arrivants*, Brathwaite's overall goal is to enact a trajectory from the slave experience in the Caribbean colonies to

Africa and back again to the islands, and thereby explore the African roots as well as the contemporary situation of the African diaspora in the Caribbean. Thus, he is able to illustrate some important African values, considered to be long-lost, in today's Caribbean society and moreover, he is able to portray the affiliation of these black people to the Caribbean culture. Accordingly, based on Edward Brathwaite's poetry volume *The Arrivants*, the importance of West African people to the Caribbean culture and especially their imported African elements, such as language, dance, song, and ritual-artistic expressions, will be outlined in this paper to depict their strong influence in the Caribbean and to support their strong survival identities. Therefore, first of all, the social and cultural history as well as the languages of the Caribbean are described to help the reader better understand the contemporary historical background to which Brathwaite's poetry refers. Subsequently, a brief overview of *The Arrivants* is given, to later

on go into more detail by interpreting two of its poems, namely *New World A-Coming* and *Caliban*. In these poems, Brathwaite points out the brutal reality of historical deprivation in the *New World* and thus, the search of identity of African slaves for almost 300 years. But against this background, he later on emphasizes the desire for self-determination and the resistance of these black people, their newly developed African rituals and hence, their great influence on all aspects of Caribbean culture.

The *Routledge Companion to Anglophone Caribbean Literature* offers a comprehensive, critically engaging overview of this increasingly significant body of work. The volume is divided into six sections that consider: the foremost figures of the Anglophone Caribbean literary tradition and a history of literary critical debate textual turning points, identifying key moments in both literary and critical history and bringing lesser known works into context fresh perspectives on enduring and contentious critical issues including the canon, nation, race,

gender, popular culture and migration new directions for literary criticism and theory, such as eco-criticism, psychoanalysis and queer studies the material dissemination of Anglophone Caribbean literature and generic interfaces with film and visual art This volume is an essential text that brings together sixty-nine entries from scholars across three generations of Caribbean literary studies, ranging from foundational critical voices to emergent scholars in the field. The volume's reach of subject and clarity of writing provide an excellent resource and springboard to further research for those working in literature and cultural studies, postcolonial and diaspora studies as well as Caribbean studies, history and geography.

The Grenada Revolution in the Caribbean Present: Operation Urgent Memory is the first scholarly book from the humanities on the subject of the Grenada Revolution and the US intervention. It is simultaneously a critique, tribute, and memorial. It argues that in both its

making and its fall, the 1979-1983 Revolution was a transnational event that deeply impacted politics and culture across the Caribbean and its diaspora during its life and in the decades since its fall. Drawing together studies of landscape, memorials, literature, music, painting, photographs, film and TV, cartoons, memorabilia traded on e-bay, interviews, everyday life, and government, journalistic, and scholarly accounts, the book assembles and analyzes an archive of divergent memories. In an analysis that is relevant to all micro-states, the book reflects on how Grenada's small size shapes memory, political and poetic practice, and efforts at reconciliation.

Translation--from both a theoretical and practical point of view--articulates differing but interconnected modes of circulation in the work of writers originally from different geographical areas of transatlantic encounter, such as Europe, Latin America, North America, and the Caribbean. After Translation examines

from a transnational perspective the various ways in which translation facilitates the circulation of modern poetry and poetics across the Atlantic. It rethinks the theoretical paradigm of Anglo-American "modernism" based on the transnational, interlingual and transhistorical features of the work of key modern poets writing at both sides of the Atlantic--namely, the Portuguese Fernando Pessoa; the Chilean Vicente Huidobro; the Spaniard Federico García Lorca; the San Francisco-based poets Jack Spicer, Robert Duncan, and Robin Blaser; the Barbadian Kamau Brathwaite; and the Brazilian brothers Haroldo and Augusto de Campos.

Lillian Allen is one of the leading creative Black feminist voices in Canada. Her work has been foundational to the dub poetry movement, which swept across the Black diaspora in the 1980s, taking roots/routes in Kingston, Toronto, and London and offering exciting sounds of protest and a careful, detailed documenting of everyday life as political praxis.

Make the World New brings together some of the highlights of Lillian Allen's work in a single volume. It revisits her well-known verse from the celebrated collections *Rhythm an' Hardtimes*, *Women Do This Everyday*, and *Psychic Unrest*, while also assembling new and uncollected poems.

Allen's poetry is incisive in its narration of Black life and its call to create new and different futures. Her work highlights the need for radical intersectional change as a process of social transformation.

Allen's afterword, "Tuning the Heart with Poetry," includes the writer's reflections on her process and the social and cultural impact of the work. The introduction, by Ronald Cummings, engages with the duality of Lillian Allen's poetry in its written and spoken forms, and the give and take in committing poems to the page that "are not meant to lay still." He also reflects on the dynamism of Allen's dub poetry, where, for example, her portrayal of breaths and breathings take on new resonance in the era of Black Lives Matter and COVID-19.

Kamau Brathwaite's poetry offers stunning collages devoted to the history, mythology, and language of the African diaspora, and has gained him a world reputation. *Middle Passages*, his most recent collection, is his sixteenth poetry volume, but his first with an American publisher. With notes of protest and lament, the fourteen poems of *Middle Passages* address the effects of the Middle Passage of slavery on the New World, and celebrate great musicians (Ellington, Bessie Smith), poets, heroes of the resistance, and Third

World leaders Kwame Nkrumah, Walter Rodney, and Nelson Mandela. And as the London Times Literary Supplement noted, it is "a poetry that moves between rage and tenderness, doubt and displacement to affirmation... Middle Passages is a potent and effective book, a work of passion and integrity."

First published in 1947, this acknowledged classic of American literary criticism explores the influences—especially Shakespearean ones—on Melville’s writing of *Moby-Dick*. One of the first Melvilleans to advance what has since become known as the “theory of the two *Moby-Dicks*,” Olson argues that there were two versions of *Moby-Dick*, and that Melville’s reading King Lear for the first time in between the first and second versions of the book had a profound impact on his conception of the saga: “the first book did not contain Ahab,” writes Olson, and “it may not, except incidentally, have contained *Moby-Dick*.” If literary critics and

reviewers at the time responded with varying degrees of skepticism to the “theory of the two *Moby-Dicks*,” it was the experimental style and organization of the book that generated the most controversy. Passionate in his poetry, Olson was no less passionate in his reading of Melville. Impatient with what he regarded as traditional forms of literary criticism, Olson engaged his own creativity to write a book as robust, original, and compelling as Melville’s masterpiece. “Not only important, but apocalyptic.”—New York Herald Tribune “One of the most stimulating essays ever written on *Moby-Dick*, and for that matter on any piece of literature, and the forces behind it.”—San Francisco Chronicle “Olson has been a tireless student of Melville and every Melville lover owes him a debt for his Scotland Yard pertinacity in getting on the trail of Melville’s dispersed library.”—Lewis Mumford, New York Times “Records, often brilliantly, one way of taking the most extraordinary of American books.”—W. E. Bezanson, New England Quarterly “The most important contribution to Melville criticism since

Raymond Weaver’s pioneering contribution in 1921.”—George Mayberry, *New Republic* *Something Torn and New* Oxford University Press, USA

V.S. Naipaul was one of the most influential and controversial writers of the twentieth century. His writings on colonialism and its aftermath, on migration and landscape, and on cultural loss and creativity, were both admired and criticised by a wide global audience. But what of his relationship to the region of his birth? Born in Trinidad, of Indian ancestry, and spending his professional life in England, Naipaul could be dismissive of his Caribbean background. He presented himself as a citizen of nowhere, or else, of the globalized, postcolonial world. However, this obscures his intense competition, fierce disagreements and close collaboration with other Caribbean intellectuals, both as a schoolchild in colonial Trinidad, and as an internationally celebrated author. V.S. Naipaul, *Caribbean Writing*, and *Caribbean Thought* looks again at Naipaul’s relationship with his birthplace. It shows that

that the decolonising Caribbean was the crucible in which Naipaul's style and outlook were formed. Moreover, understanding Naipaul's place in the history of the region's politics and letters sheds new light on the work of celebrated contemporaries, Derek Walcott and Kamau Brathwaite, George Lamming and Maryse Condé, Elsa Goveia and Eric Williams, Sylvia Wynter and C.L.R. James. Literary criticism, intellectual biography, and an essay in the history of ideas, this book offers a new account of Caribbean thought in the decades after independence. It reveals a literary culture of creative vibrancy, in an era of unprecedented change.

The Barbadian poet Kamau Brathwaite reversed the Middle Passage of slavery when he ex/iled himself to Ghana, where he re-discovered his ancestral African roots. Returning home, he charted a second discovery, that of Africa in the Caribbean through six interconnected books, three published in the 1960s which turned into

The Arrivants: A New World Trilogy (1973), and a second (Bajan) trilogy comprising Mother Poem (1977), Sun Poem (1982) and X/Self (1987), all published by Oxford University Press. Middle Passages is an offshoot of the second trilogy, 'a splice of time & space', as he puts it, between his/father's world of Sun Poem and 'the magical irrationalism' of X/Self. With his other 'shorter' collections Black + Blues and Third World Poems, Middle Passages creates a kind of chisel which may well lead us into a projected third trilogy. Here is a political angle to Brathwaite's Caribbean & New World quest, with new notes of protest and lament. It marks a Sisyphean stage of Third World history in which things fall apart and everyone's achievements come tumbling back down upon their heads and into their hearts, like the great stone which King Sisyphus was condemned to keep heaving back up the same hill in hell - a postmodernist implosion already signalled by Baldwin, Patterson, Soyinka and Achebe and more negatively by V.S. Naipaul; but given a new dimension here by Brathwaite's rhythmical

and 'video' affirmations. And so Middle Passages includes poems for those modern heroes who are the pegs by which the mountain must be climbed again: Maroon resistance, the poets Nicolás Guillén, the Cuban revolutionary, and Mikey Smith, stoned to death on Stony Hill; the great musicians (Ellington, Bessie Smith); and Third World leaders Kwame Nkrumah, Walter Rodney and Nelson Mandela.

In recent years, schools have started introducing more inclusive syllabi emphasizing the works and ideas of previously overlooked or underrepresented writers. Readers of all ages can now explore the rich contributions of writers from around the world. These writers have various backgrounds, and unlike most writers from the U.S. or the United Kingdom, information on them in English can be difficult to find. Encyclopedia of World Writers: 1800 to the Present covers the most important writers outside of the U.S., Britain, and Ireland since 1800. More

than 330 insightful, A-to-Z entries profile novelists, poets, dramatists, and short-story writers whose works are anthologized in textbooks or assigned in high school English classes. Entries range in length from 200 to 1,000 words each and include a biographical sketch, synopses of major works, and a brief bibliography. Dozens of entries are new to this edition and many existing entries have been updated and significantly expanded with new "Critical Analysis" sections. Coverage includes: Chinua Achebe Margaret Atwood Roberto Bolaño Albert Camus Khalid Hosseini Victor Hugo Mohammad Iqbal Franz Kafka Stieg Larsson Mario Vargas Llosa Naghib Mahfouz Gabriel García Márquez Kenzaburo Oe Marcel Proust Leo Tolstoy Emile Zola and more.

June Bobb explores the

different ways the Anglophone Caribbean's most important poets engage in rewriting history and re-conceiving a visionary world in which it becomes possible to reconnect the fragments of a past destroyed or denied by the Caribbean's confrontation with the institutions of slavery and colonization. In exploring common links as well as differences between Brathwaite and Walcott, and looking at their engagement with the mythology of the Caribbean's African experience, the author of this study identifies their contribution to the development of modern Caribbean poetics. Making a contribution to several areas of historical and literary scholarship, the author identifies a specifically Caribbean tradition out of which the poets have emerged.

Worlds Apart Infobase Holdings, Inc

Archetypes of Transition in Diaspora Art and Ritual examines residually oral conventions that shape the black diaspora imaginary in the Caribbean and America. Colonial humanist violations and inverse issues of black cultural and psychological affirmation are indexed in

terms of a visionary gestalt according to which inner and outer realities unify creatively in natural and metaphysical orders. Paul Griffith's central focus is hermeneutical, examining the way in which religious and secular symbols inherent in rite and word as in vodun, limbo, the spirituals, puttin' on ole massa, and dramatic and narrative structures, for example, are made basic to the liberating post-colonial struggle. This evident interpenetration of political and religious visions looks back to death-rebirth traditions through which African groups made sense of the intervention of evil into social order. Herein, moreover, the explanatory, epistemic, and therapeutic structures of art and ritual share correspondences with the mythic archetypes that Carl Jung posits as a psychological inheritance of human beings universally.

This volume brings together insights from distinguished scholars from around the world to address the facts, fiction and creative imaginations

in the pervasive portrayals of Africa, its people, societies and cultures in the literature and the media. The fictionalization of Africa and African issues in the media and the popular literature that blends facts and fiction has rendered perceptions of Africa, its cultures, societies, customs, and conflicts often superficial and deficient in the popular Western consciousness. The book brings eminent scholars from a variety of disciplines to sort out the persistent fictionalization of Africa, from facts pertaining to the genesis of powerful cultural, political or religious icons, the historical and cultural significance of "intriguing" customs (such as tribal marks), gender relations, causes of conflicts and African responses, and creative imaginations in contemporary African films, fiction and literature, among others.

Following the publication of *Ghost Town* (2005), a complex, globally conscious genealogy of millennial Manhattan, McGrath's transnational status as an English author resident in New York, his pointed manipulation of British and American contexts, and his clear apprehension of imperial legacies have all come into sharper focus. By bringing together readings cognizant of this transnational and historical sensitivity with those that build on existing studies of McGrath's engagements with the gothic and madness, Patrick McGrath and his *Worlds* sheds new light on an author whose imagined realities reflect the anxieties, pathologies, and power dynamics of our contemporary world order. McGrath's fiction

has been noted as parodic (*The Grotesque*, 1989), psychologically disturbing (*Spider*, 1990), and darkly sexual (*Asylum*, 1996).

Throughout, his corpus is characterized by a preoccupation with madness and its institutions and by a nuanced relationship to the gothic. With its international range of contributors, and including a new interview with McGrath himself, this book opens up hitherto underexplored theoretical perspectives on the key concerns of McGrath's oeuvre, moving conversations around McGrath's work decisively forward. Offering the first sustained exploration of his fiction's transnational and world-historical dimensions, Patrick McGrath and his *Worlds* seeks to situate, reflect upon, and interrogate McGrath's role as a key voice in Anglophone letters in our millennial global moment.
