Eleanor of Aquitaine was the wife of two kings, Louis VII of France and Henry II Plantagenet of England, and the mother of two others, Richard the Lionhearted and John Lackland. In her eventful, often stormy life, she not only influenced the course of events in the twelfth century but also encouraged remarkable advances in the literary and fine arts. In this book, experts in five disciplines—history, art history, music, French and English literature—evaluate the influence of Eleanor and her court on history and the arts. Elizabeth A. R. Brown views Eleanor as having played a significant role as parent and politician, but not as patron. Rebecca A. Baltzer takes a new look at the music of the period that was written by and for Eleanor, her court, and her family. Moshé Lazar reexamines her relationship to the courtly-love literature of the period. Eleanor S. Greenhill and Larry M. Ayres reassess her influence in the realm of art history. Rossell Hope Robbins traces the lines extending from the French courtly literature of Eleanor's period down into fourteenth-century Chaucerian England. The essays reflect divergent but generally complementary assessments of this remarkable woman's

influence on her own era and on future times as well. This volume is the result of a symposium held at the University of Texas in 1973.

In *Wise Men and Their Tales*, a master teacher gives us his fascinating insights into the lives of a wide range of biblical figures, Talmudic scholars, and Hasidic rabbis. The matriarch Sarah, fiercely guarding her son, Isaac, against the negative influence of his half-brother Ishmael; Samson, the solitary hero and protector of his people, whose singular weakness brought about his tragic end; Isaiah, caught in the middle of the struggle between God and man, his messages of anger and sorrow counterbalanced by his timeless, eloquent vision of a world at peace; the saintly Rabbi Yehoshua ben Levi, who by virtue of a lifetime of good deeds was permitted to enter heaven while still alive and who tried to ensure a similar fate for all humanity by stealing the sword of the Angel of Death. Elie Wiesel tells the stories of these and other men and women who have been sent by God to help us find the godliness within our own lives. And what interests him most about these people is their humanity, in all its glorious complexity. They get angry--at God for demanding so much, and at people, for doing so little. They make mistakes. They get frustrated. But through it all one constant remains--their love for the people they have been charged to teach and their devotion to the Supreme Being who has sent them. In these tales of battles won and lost, of exile and redemption, of despair and renewal, we learn not only by listening to what they have come to tell us, but by watching as they live lives that are both grounded in earthly reality and that soar upward to the heavens.

Writing his Habilitationsschrift as a young man in the late 1950s, future Pontiff Joseph Ratzinger argues that, when St. Bonaventure composed his Collationes in Hexaemeron in the spring of 1273, not since St. Augustine's De Civitate Dei contra Paganos had the world seen such a ground-breaking work on the logos of history. Indeed, for Ratzinger's Bonaventure, history is "first philosophy." The thirteenth-century Franciscan rails against the widespread

assumption, rooted the newly "rediscovered" Aristotle, of history's unintelligibility. For Bonaventure, mythos mediates the difference between science and history, yielding a non-positivistic approach to the latter. Building on the dynamics of Plato's Line, Boulter show that the days of creation, narrated by Bonaventure, structure both history and thought. Because, like a story, it has beginning and end, history as a whole can be grasped. Hence, eschatological knowledge of the end of the world is possible. Yet this work also shows how the false "progress myths" of modernity are counterfeit versions of true, spiritual advancement of the kind embodied by saints such as Francis and Bonaventure himself. What is the logos of history? It turns out that it is mythos.

Ce livre présente la généalogie de l'histoire culturelle et théologique du dogme de la Trinité tel qu'enseigné par l'Église catholique en Afrique centrale en vue d'une évaluation critique de

la doctrine trinitaire du kimbanguisme actuel. Par sa recherche axée sur la nomination de Dieu comme thème de la dogmatique africaine catholique, l'ouvrage nous met également devant la question de savoir si la doctrine chrétienne de Dieu avait suffisamment saisi les chances que lui présentaient l'anthropologie et la théologie africaines de Dieu d'avant l'arrivée du christianisme en Afrique.
