Drawing from an in-depth case study of

the organizational climate, leadership, teaching, systems, programs, and student outcomes at Miami-Dade Community College (MDCC), this book addresses questions related to the achievement of both open access and high academic standards in the community college. Chapter I presents the rationale for the study and explains the Roueche-Baker Community College Excellence Model depicting the character of MDCC. Chapter

II gives a brief history of MDCC and describes the social context of the educational reform program initiated by MDCC in 1975. Chapter III outlines the reforms initiated, planned, and implemented by the MDCC staff in eight basic areas: (1) curriculum, including general education courses; (2) assessment testing; (3) basic skills support; (4) Emphasis on Excellence, an honors program; (5) standards of academic

progress; (6) Academic Alert, a feedback system about academic standing; (7) the computerized Advisement and Graduation Information System; and (8) faculty and staff development. Chapter IV presents the results and outcomes of these reforms. Chapters V, VI and VII presents findings regarding the organizational climate, leadership, and teaching at MDCC. Finally, chapter VIII summarizes the study findings. An eight-page reference list concludes the volume. (LAL)

Overall, nearly half of all incoming community college students “drop-out” within twelve months of enrolling, with students of color and the economically disadvantaged faring far worse. Given the high proportion of underserved students these colleges enroll, the detrimental

impact on their communities, and for the national economy as a whole at a time of diversifying demographics, is enormous. This book addresses this urgent issue by bringing together nationally recognized researchers whose work throws light on the structural and systemic causes of student attrition, as well as college presidents and leaders who have successfully implemented strategies to improve student outcomes. The book is divided into five sections, each devoted to a demographic group: African Americans, Native Americans/American Indians, Latino Americans, Asian Americans and Pacific Islanders, and Caucasian students in poverty. Each section in turn comprises three chapters, the first providing an up-to-date summary of research findings about barriers and attainments pertaining to the corresponding population, the second the views of a community college president, and the final chapter offering a range of models and best practices for achieving student success. The analyses--descriptions of cutting edge programs--and recommendations for action will commend this volume to everyone concerned about equity and completion

rates in the community college sector, from presidents and senior administrators through faculty and student affairs leaders. For educational researchers, it fills blanks on data about attrition and persistence patterns of minority students attending community colleges.

 In *What Excellent Community Colleges Do*, Joshua S. Wyner draws on the insights and

evidence gained in administering the inaugural Aspen Prize for Community College Excellence. This book identifies four domains of excellence—degree completion, equity, student learning, and labor market success—and describes in rich detail the policies and practices that have allowed some community colleges to succeed in these domains. By starting with a holistic definition of excellence, measuring success against that definition, and then identifying practices and policies that align with high levels of student success, the author seeks to contribute to the growing body of knowledge about improving student success in community colleges.

Community College Student Success LLMC

A smart, snappy, and comprehensive guide for the millions of adults who are thinking about going—or going back—to college and want to know how to do it right As anyone who has done it knows, going back to school is a major undertaking. For younger and older adults alike, starting or returning to school presents different challenges than those encountered by teens fresh out of high school and heading straight to college.

Countless Americans take on this task while working, raising kids, caring for parents, volunteering, serving in the military—and in some cases all of the above. Although the “non-traditional” undergraduate student is in fact the new normal, the glut of college guides out there don’t include practical advice for the busy moms, frustrated employees, and ambitious adults who are applying to college or hoping to finish earning a degree. *Never Too Late* will help readers jump-start a new professional path or speed down the one they’re already on by guiding them through vital questions: What should I study? How can I afford the time and money required to get a college degree? How do I compare schools? With key chapters on flexibility (“It’s About Time!” and “Face-to-Face or Cyberspace?”) and rankings of the best colleges for grown-ups diving back into the books, *Never Too Late* is an essential reference for adults seeking a richer life—and a meaningful place in our rapidly changing economy and world.

Community colleges enroll half of the

nation's undergraduates. Yet only 40 percent of entrants complete an undergraduate degree in six years. *Redesigning America's Community Colleges* explains how two-year colleges can increase their students' success rate quickly and at less cost, through a program of guided pathways to completion.

Co-published with  <https://styluspub.presswarehouse.com/uploads/9eb60c1a1c8a062854c084a766b20ce73378aad3.jpg> Colleges and universities are increasingly becoming significant sites for adult education scholarship—in large part due to demographic shifts. With fewer U.S. high school graduates on the horizon, higher education institutions will need to attract

“non-traditional” (i.e., older) adult learners to remain viable, both financially and politically. There is a need to develop a better corpus of scholarship on topics as diverse as, what learning theories are useful for understanding adult learning? How are higher education institutions changing in response to the surge of adult students? What academic programs are providing better learning and employment outcomes for adults in college? Adult education scholars can offer much to the policy debates taking place in higher education. A main premise of this handbook is that adult and continuing education should not simply respond to rapidly changing social, economic, technological, and political environments across the globe, but should lead the way in preparing adults to become informed, globally-connected, critical citizens who are knowledgeable, skilled, and open and adaptive to change and uncertainty. The Handbook of Adult and Continuing Education provides rich information on the contemporary issues and trends that are of concern to adult and continuing education, of the programs and resources available to adult learners, and of

opportunities to challenge and critique the structures embedded in the field that perpetuate inequity and social injustice. Adult education is a discipline that foresees a better tomorrow, and The Handbook is designed to engage and inspire readers to assist the field to seek new paths in uncertain and complex times, ask questions, and to help the field flourish. The Handbook is divided into five sections. The first, Foundations situates the field by describing the developments, core debates, perspectives, and key principles that form the basis of the field. The second, Understanding Adult Learning, includes chapters on adult learning, adult development, motivation, access, participation, and support of adult learners, and mentoring. Teaching Practices and Administrative Leadership, the third section, offers chapters on organization and administration, program planning, assessment and evaluation, teaching perspectives, andragogy and pedagogy, public pedagogy, and digital technologies for teaching and learning. The fourth section is Formal and Informal Learning Contexts. Chapters cover adult basic, GED, and literacy education,

English-as-a-Second Language Programs, family literacy, prison education, workforce development, military education, international development education, health professions education, continuing professional education, higher education, human resource development and workplace learning, union and labor education, religious and spiritual education, cultural institutions, environmental education, social and political movements, and peace and conflict education. The concluding Contemporary Issues section discusses decolonizing adult and continuing education, adult education and welfare,

teaching social activism, lesbian, gay, bisexual, trans, queer and straight allies, gender and its multiple forms, disability, older adults and intergenerational identities, race and ethnicity, working class, whiteness and privilege, and migrants and migrant education. The editors culminate with consideration of next steps for adult and continuing education and priorities for the future.
