What is a family? Once, it was said to be a
father, mother, boy, girl, cat and dog living
in a house with a garden. But as times
have changed, families have changed too,
and now there are almost as many kinds
of families as colours of the rainbow - from
a mum and dad or single parent to two
mums or two dads, from a mixed-race
family to children with different mums and
dads, to families with a disabled member.
Mary Hoffman takes a look through

children's eyes at the wide varieties of
family life: from homes, food, ways of
celebrating, schools and holidays to
getting around, jobs and housework, from
extended families, languages and hobbies
to pets and family trees - and she
concludes that, for most people, their own
family is the best one of all! With Ros
Asquith's delightful pictures, this book
takes a fresh, optimistic look at families of
today.
