Reminiscences of a Mississippian in Peace and War

Bloomsbury Publishing

-- Extraordinary biographies of America's most prominent political figures from the Revolution to Reconstruction-- Rare insight provided by authors who were the subjects' contemporaries-- Introductory essays by eminent present-day historians and biographers

Back to Frank Black Oxford University Press

'Stuart does not like the manuscript. He's after a bestseller, "like what Tom Clancy writes". "But you are not an assassin trying to frazzle the president with anthrax bombs," I point out. You are an ex-homeless, ex-junkie psychopath, I do not add.'

Fear of a Black Universe Forge Books

The Wonderful Wizard of Oz chronicles the adventure of Dorothea in the land of Oz. A cyclone picks her up from her Kansas home, where she lives with her aunt and uncle, and deposits her in the fantastical land. She begins a journey along the yellow brick road to seek help from the Wizard of Oz. On her way she meets her fair share of witches (good and bad) and a scarecrow without a brain, a tinman without a heart and a cowardly lion. They travel together to the Emerald City to seek audience with the wizard.

Kindred Castle Books

The #1 New York Times bestseller, and the inspiration for the hit Broadway musical *Hamilton*! Pulitzer Prize-winning author Ron Chernow presents a landmark biography of Alexander Hamilton, the Founding Father who galvanized, inspired, scandalized, and shaped the newborn nation. "Grand-scale biography at its best—thorough, insightful, consistently fair, and superbly written. . . A genuinely great book." —David McCullough "A robust full-length portrait, in my view the best ever written, of the most brilliant, charismatic and dangerous founder of them all." —Joseph Ellis Few figures in American history have been more hotly debated or more grossly misunderstood than Alexander Hamilton. Chernow's biography gives Hamilton his due and sets the record

straight, deftly illustrating that the political and economic greatness of today's America is the result of Hamilton's countless sacrifices to champion ideas that were often wildly disputed during his time. "To repudiate his legacy," Chernow writes, "is, in many ways, to repudiate the modern world." Chernow here recounts Hamilton's turbulent life: an illegitimate, largely self-taught orphan from the Caribbean, he came out of nowhere to take America by storm, rising to become George Washington's aide-de-camp in the Continental Army, coauthoring *The Federalist Papers*, founding the Bank of New York, leading the Federalist Party, and becoming the first Treasury Secretary of the United States. Historians have long told the story of America's birth as the triumph of Jefferson's democratic ideals over the aristocratic intentions of Hamilton. Chernow presents an entirely different man, whose legendary ambitions were motivated not merely by self-interest but by passionate patriotism and a stubborn will to build the foundations of American prosperity and power. His is a Hamilton far more human than we've encountered before—from his shame about his birth to his fiery aspirations, from his intimate relationships with childhood friends to his titanic feuds with Jefferson, Madison, Adams, Monroe, and Burr, and from his highly public affair with Maria Reynolds to his loving marriage to his loyal wife Eliza. And never before has there been a more vivid account of Hamilton's famous and mysterious death in a duel with Aaron Burr in July of 1804. Chernow's biography is not just a portrait of Hamilton, but the story of America's birth seen through its most central figure. At a critical time to look back to our roots, Alexander Hamilton will remind readers of the purpose of our institutions and our heritage as Americans. 9780143034759

Outlander St. Martin's Press

An insider in the world of gangsta rap reveals his experiences, and the dark and violent underbelly of the music world that ultimately killed his charge, Tupac Shakur.

Luck of the Draw Macmillan

Can two men from completely different worlds—and sides of the law—find common ground, or will all their desires only wreak havoc?

Ghost on the Throne Harper Collins

This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

Christianity and Law Grove Press

An insider in the shadowy world of gangsta rap reveals his experiences with the glamorous lifestyle of famous rappers, his role as a bodyguard, and the dark and violent underbelly of the music world that ultimately killed his charge, Tupac Shakur. Tour.

Who's Got Your Back Grand Central Publishing

The aura surrounding Tupac's life and death seems to grow every year. Bodyguard Frank Alexander now tells the story of his close friendship with the musician and reveals what went wrong on the night of the murder, while he was on duty. He goes behind the scenes at Death Row Records to share what it was like to be running with Tupac.

Glass House Doubleday Canada

From the school yards of the South Bronx to the tops of the "Billboard" charts, rap has emerged as one of the most influential cultural forces of our time. This pioneering anthology brings together more than 300 lyrics written over 30 years, from the "old school" to the present day.

The Wonderful Wizard of Oz Univ of California Press

Use posture and body alignment to build strength, achieve peak performance, reduce pain, and find a new sense of confidence with celebrity manual therapist and movement coach Aaron

Alexander. Good posture is about more than standing up straight: It can change your mood, alleviate pain, rid your body of stressful tension, and may be the difference between getting that raise you've wanted and attracting your ideal mate, or not. But in order to reap all those benefits, the body must be properly integrated. Celebrity movement coach and manual therapist Aaron Alexander offers a revolutionary approach to body alignment to build strength, reduce pain, and put you on a direct path to peak performance that is both fun and accessible. The Align Method centers on five daily optimizations that can be easily integrated into any workout, mindfulness practice, or daily life activity: Floor Sitting Hanging Hip-Hinging Walking Nose Breathing A truly aligned life isn't limited to sweating in a gym or stretching in a yoga studio, and Alexander provides the fundamental principles to optimize your physical and mental process in any situation. Blending Eastern philosophy with Western mechanics, The Align Method brilliantly outlines the necessary tools to leverage the power of your own senses and body language to feel more flexible and confident, and details exactly how to reshape your environment for enhanced creativity and longevity. This is the quintessential user's manual to feeling better than you ever thought possible, and looking great while you're at it!

Cain's Book Cambridge University Press

From the New York Times bestselling author of *Parable of the Sower* and MacArthur "Genius" Grant, Nebula, and Hugo award winner The visionary time-travel classic whose Black female hero is pulled through time to face the horrors of American slavery and explores the impacts of racism, sexism, and white supremacy then and now. "I lost an arm on my last trip home. My left arm." Dana's torment begins when she suddenly vanishes on her 26th birthday from California, 1976, and is dragged through time to antebellum Maryland to rescue a boy named Rufus, heir to a slaveowner's plantation. She soon realizes the purpose of her summons to the past: protect Rufus to ensure his assault of her Black ancestor so that she may one day be born. As she endures the traumas of slavery and the soul-crushing normalization of savagery, Dana fights to keep her autonomy and return to the present. Blazing the trail for neo-slavery narratives like Colson Whitehead's *The Underground Railroad* and Ta-Nehisi Coates's *The Water Dancer*, Butler takes one of speculative fiction's oldest tropes and infuses it with lasting depth and power. Dana not only

experiences the cruelties of slavery on her skin but also grimly learns to accept it as a condition of her own existence in the present. "Where stories about American slavery are often gratuitous, reducing its horror to explicit violence and brutality, *Kindred* is controlled and precise" (New York Times). "Reading Octavia Butler taught me to dream big, and I think it's absolutely necessary that everybody have that freedom and that willingness to dream." —N. K. Jemisin

Developed for television by writer/executive producer Branden Jacobs-Jenkins (*Watchmen*), executive producers also include Joe Weisberg and Joel Fields (*The Americans*, *The Patient*), and Darren Aronofsky (*The Whale*). Janicza Bravo (*Zola*) is director and an executive producer of the pilot. *Kindred* stars Mallori Johnson, Micah Stock, Ryan Kwanten, and Gayle Rankin.

One hundred years ago, Florida was a wilderness of swamp and beach, dense forest and abundant wild game. Undiscovered, except for a few pioneer sportsmen and hearty farmers and ranchers, the state was still a frontier. True, a few towns flourished on the fishing and the Caribbean trade, but it was generally a sleepy place, far removed from the later boom of the 1920s. Here is a collection of original articles and stories of the old Florida, of hunters and Indians, the development of the sportsman's paradise, the vast canvas of nature prior to the coming of the condominium. Illustrated with rare drawings, photographs and engravings, this book will recreate a paradise that can never be again.

[When Money Talks](#) BoD - Books on Demand

This is the journal of Joe Necchi, a junkie living on a barge that plies the rivers and bays of New York. Joe's world is the half-world of drugs and addicts -- the world of furtive fixes in sordid Harlem apartments, of police pursuits down deserted subway stations. Junk for Necchi, however, is a tool, freely chosen and fully justified; he is Cain, the malcontent, the profligate, the rebel who lives by no one's rules but his own. Like DeQuincey and Baudelaire before him, Trocchi's muse was drugs. But unlike his literary predecessors, in his roman a clef, Trocchi never romanticizes the source of his inspiration. If the experience of heroin, of the fix, is central to *Cain's Book*, both its destructive force and the possibilities for creativity it creates are recognized and accepted without apology. "*Cain's Book* is the classic

late-1950s account of heroin addiction. . . . An un-self-forgiving existentialism, rendered with writerly exactness and muscularity, set this novel apart from all others of the genre." -- William S. Burroughs

Impulse Vintage

Coinage--it is one of the most successful and consistent technologies ever invented. Nothing else we still use in everyday life has a history quite like it. Look around at all the things that would bewilder a Greek, Roman, or Renaissance ancestor; then, dig into your purse or pocket for that one artifact that they would immediately recognize as part of their world. Historian Frank L. Holt takes us on a lively journey through the history of numismatics, the study of coins--one of the oldest and most important contributions to the arts and humanities. For 2600 years, poets, economists, philosophers, historians, and theologians have pondered the mysteries of money. Who invented coins, and why? Does coinage function beyond our control as if it had a mind of its own? How has it changed world history and culture? What does numismatics reveal about our past that could never be discovered from any other source? How has numismatics advanced using modern science? Does it still suffer from racist ideas about physiognomy and phrenology? What does its future hold? The approach taken in this richly illustrated book is as multi-faceted as coined money itself. Coins are integral to our economic, social, political, religious, and cultural history. When Money Talks: A History of Coins and Numismatics explores each aspect of coinage, and takes a special interest in how coins have appeared in literature and pop culture, ranging in its analysis from Greek drama and the New Testament to T.V. sitcoms and meme theory.

Impulse explores what people do despite knowing better, along with snap decisions that occasionally enrich their lives. This eye-opening account looks at two kinds of thinking--one slow and reflective, the other fast but prone to error--and shows how our mental tracks switch from the first to the second, leading to impulsive behavior.

[Congressional Record](#) St Martins Press

Ten-year-old Frank has trouble navigating his relationship with his younger brother Max who is autistic. Frank loves soccer, codes, riding his bike, and playing with his friends. His brother Max is

five. Max only eats foods that are beige or white, hates baths, and if he has to wear a t-shirt that isn't gray with yellow stripes he melts down down down. Frank longs for the brother he was promised by his parents before Max was born--someone who was supposed to be his biggest fan, so he could be the best brother in the world. Instead, Frank has trouble navigating Max's behavior and their relationship. But when tragedy strikes, Frank finds a way to try and repair their fractured family and in doing so learns to love Max for who he is. In her debut novel, Katya Balen uses her knowledge of autism and experience working with autistic people to create an intriguing and intense yet always respectful family story. The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States (1789-1824)*, the *Register of Debates in Congress (1824-1837)*, and the *Congressional Globe (1833-1873)*

BioShock: Rapture St. Martin's Griffin

It's been almost 20 years since poet, revolutionary, convict, and movie star, Tupac Amaru Shakur (a.k.a 2Pac, Makaveli, or simply 'pac), was gunned down at age 25 while he sat in traffic with Suge Knight near the Las Vegas Strip following a Mike Tyson fight at MGM Grand. In the new updated and expanded third edition of

this acclaimed biography, Las Vegas crime writer Cathy Scott has finally been able to include the previously unpublished chapter featuring the account of that last fateful night from "Big Frank," the rapper's now-deceased personal bodyguard. The raw no-holds-barred narrative, which includes exclusive photo evidence (including of Tupac's autopsy), is the definitive account of the unsolved murder of Tupac Shakur: the many possible motives, the failed investigation, the rap wars, the killing of Biggie Smalls, the Bloods-Crips connection, the Suge Knight and Death Row Records association, and the subsequent fate of numerous principals involved in the aftermath. It is also a sensitive, candid, and insightful account of the contradictory icon who remains not only one of the most influential rappers ever but, with more than 75 million records sold worldwide, he's also one of the best-selling music artists of all time. The music of Tupac Shakur is the legacy of his life. The Killing of Tupac Shakur is the legacy of his death. *The Killing of Tupac Shakur-Third Edition* Yale University Press For readers of *Hillbilly Elegy* and *Strangers in Their Own Land* WINNER OF THE OHIOANA BOOK AWARDS AND FINALIST FOR THE 87TH CALIFORNIA BOOK AWARDS | NAMED A BEST/MOST ANTICIPATED BOOK OF 2017 BY: New York Post • Newsweek • The Week • Bustle • Books by the Banks Book Festival • Bookauthority.com The Wall Street Journal: "A devastating portrait...For anyone wondering why swing-state America voted against the establishment in 2016, Mr. Alexander supplies plenty of answers." Laura Miller, Slate: "This book hunts bigger game. Reads like an odd?and oddly satisfying?fusion of George Packer's *The Unwinding* and one of Michael Lewis' real-life financial thrillers." The New Yorker : "Does a remarkable job." Beth Macy,

author of *Factory Man*: "This book should be required reading for people trying to understand Trumpism, inequality, and the sad state of a needlessly wrecked rural America. I wish I had written it." In 1947, *Forbes* magazine declared Lancaster, Ohio the epitome of the all-American town. Today it is damaged, discouraged, and fighting for its future. In *Glass House*, journalist Brian Alexander uses the story of one town to show how seeds sown 35 years ago have sprouted to give us Trumpism, inequality, and an eroding national cohesion. The Anchor Hocking Glass Company, once the world's largest maker of glass tableware, was the base on which Lancaster's society was built. As *Glass House* unfolds, bankruptcy looms. With access to the company and its leaders, and Lancaster's citizens, Alexander shows how financial engineering took hold in the 1980s, accelerated in the 21st Century, and wrecked the company. We follow CEO Sam Solomon, an African-American leading the nearly all-white town's biggest private employer, as he tries to rescue the company from the New York private equity firm that hired him. Meanwhile, Alexander goes behind the scenes, entwined with the lives of residents as they wrestle with heroin, politics, high-interest lenders, low wage jobs, technology, and the new demands of American life: people like Brian Gossett, the fourth generation to work at Anchor Hocking; Joe Piccolo, first-time director of the annual music festival who discovers the town relies on him, and it, for salvation; Jason Roach, who police believed may have been Lancaster's biggest drug dealer; and Eric Brown, a local football hero-turned-cop who comes to realize that he can never arrest Lancaster's real problems.
