In November of 2016, the world witnessed the impossible. Nearly every household in America was tuned in to the election feeds, and every update pointed to a loss for the Republican Party. But when the map of the states flipped red in the final hour, there were a select few who weren't surprised. They had always known Trump was going to win. He was chosen "for such a time as this." The prophecy had said so. This prophet, this reserved man of God, was retired firefighter Mark Taylor. The word given by the Holy Spirit was delivered on April 28, 2011 in the middle of the most debilitating sickness a man could ever experience. When the prophecy later fell into the hands of New York Times bestsellers Don and Mary Colbert, God used this new team of passionate individuals to lead the nation into a fervent prayer chain that would accomplish one of the most incredible miracles our country has ever seen. But Trump's victory was only the

beginning...What is coming next for the most powerful nation on earth today? Mark Taylor has more to say. In THE TRUMP PROPHECIES readers will discover: * How the Lord can and will use anyone-- regardless of education, background, or health--to communicate His message to the Church of Christ* What led to the miracle of the 2016 election, the role of "we the people" for the will of God in the future, and what the Body of Christ needs to do to keep His blessing on our nation* How the enemy has utilized techniques of distraction to keep the Body's focus off of God and onto internal, demoralizing disputes-- and how this can be overcome* Astounding, world-altering changes in our US government Mark sees on the horizon* The positive message of hope and encouragement that points to fresh methods of spreading the Gospel to the lost

In this Sterling Publishing paperback, Reading conclusively identifies the first two Antichrists and explicates crucial passages and timelines in the works of this legendary oracle. In this magically evocative novel, William Maxwell explores the enigmatic gravity of the past, which compels us to keep explaining it even as it makes liars out of us every time we try. On a winter morning in the 1920s, a shot rings out on a farm in rural Illinois. A man named Lloyd Wilson has been killed. And the tenuous friendship between two lonely teenagers—one privileged yet neglected, the other a troubled farm boy—has been shattered. Fifty

years later, one of those boys—now a grown man—tries to reconstruct the events that led up to the murder. In doing so, he is inevitably drawn back to his lost friend Cletus, who has the misfortune of being the son of Wilson's killer and who in the months before witnessed things that Maxwell's narrator can only guess at. Out of memory and imagination, the surmises of children and the destructive passions of their parents, Maxwell creates a luminous American classic of youth and loss.

Xlibris Corporation A shady financier visits his small hometown, a middle-aged divorcé emerges from a life of drastic austerity and self-denial, a sick and dying professor discovers the healing touch of a former student. From the South African veldt to the barren Utah desert, from the green lawns of suburbia

to moonlit Pueblo ruins, the people in Paul Rawlins's debut story collection brave the Big Questions about relationships, love, and death, finding more often than not that their happiness to just get by is not enough. Asking for truth or understanding, but hoping the answers will be simple, they struggle with feelings often too deep, too new, too disquieting to articulate. The voices we hear most often belong to men—good men who have somehow come up short on love, answers, peace, time. Like the pro football player with a torn-up knee in "Big Texas," the HIV-positive teen in "The Matter of These Hours," or the recovering heroin addict in "August—Staying Cool," they find that age, accident, or self-made circumstances have stolen their abilities, stung their pride, or worse. Dangerously distanced from the women they should have loved more, they draw closer to buddies, brothers, fathers, and sons. But like the alkali flats in "Good for What Ails You," transformed by flash-flooding into an inland sea, Rawlins's characters show themselves capable

of quick and fundamental change. Farmers and soldiers, athletes and scholars, rebels and high rollers, they fit our preconceptions only in the shallowest sense. In the ways they connect with Rawlins's elemental imagery—sun, water, earth—these people play with our essential notions about men and women as they surprise themselves about their strengths, about what they really desire and what others desire in them.

NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know

what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love.

Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's new novel, *The Passenger*.

Thoreau once surmised that most of us lead lives of quiet desperation. Reading these stories brings Thoreau's words to mind. The characters are found in settings in the Deep South in the days of Huey Long in Louisiana; in present day New York City with its current economic hardships and other difficult goings on; and in

several Mississippi locales.. The characters exist in quiet desperation. Isolated within themselves all face crisis and loss. And yet somehow they struggle to cope with the hope they will prevail. In the title story a Cajun bartender struggles against fate and the two sons who have "stolen" his farm. A farmer turned bartender, Joe Lee LeBlanc sues his boys to recover the farm. His story circulates. He has his few minutes of fame as interest in his case grows. People stop ignoring the khakis-clad bartender. They ask about progress in his cause. Of course free beer and tomorrow never arrive. The old bartender never gets his day in court. Chekhov's story, *The Lament*, is recalled as one reads *FBT*, set in Opelousas, Louisiana, during the Yambilee Festival. The shadow world of cockfighting with its unlawfulness and potential for violence is the environment where one youngster is coming of age. *The Cockfighters*, reminiscent of Sherwood Anderson's *I Want To Know Why*, and Ernest Hemingway's *My Old Man*, also has a Louisiana locale where the law and the Church (ironically in the

Parish of St. Landry) turn a blind eye to the blood "sport" in which fighting cocks usually duel to the death. An unknown assailant kills the boy's father after a highly wagered cockfight. *The Lad*, freed from the sport, is urged to get an education by his guardian, a former prostitute and the mistress of the dead father. At the end of the story, the father's murder remains unsolved. And a sable rooster with a fighting spirit, a bird the family pinned its hopes on, is killed in a cockpit battle it was supposed to win. We are left to ponder what part the little cock had to do with the death of the father after the little bird is found nailed to a post outside the cockfighting arena. The question of the boy's true understanding of his father's profession remains unresolved. The boy is last seen studying hard in school, reading Hemingway and thinking about horseracing as a career. In *The Picaninny*, an African American child is forced to leave the South after innocently kissing a white boy. Later she finds fame as a singer in the North. She returns to her "roots" in Mississippi. She finds change and

understanding after talking to a crippled white man from her past. She leaves Mississippi a second time but without "baggage". The protagonist in *To Kill A Kingfish* races against time to stop his cousin from killing Louisiana's former governor (U.S. Senator Huey Long in the story). The tale unfolds as the protagonist's grandson attempts to unravel a relative's ties to the assassination plot. In the end the grandson "scruples" and decides to let the story remain unrecorded. The WWII pilot hero of *Beau Chandler's Wonderful Bedroom* returns from the Battle and settles in New York City. He finds the perfect one bedroom that eventually becomes the prize in a battle of another sort. Chandler, a gentile, and Kahan, a Jew who manages the building, are both obsessed with the apartment but for different reasons. Both men are oblivious to some of the reasons the war was fought. There is no brotherly love in the story. In the end the old pilot, an alcoholic, dies in a fall down a stairwell. Was he pushed over the railing by Kahan? Does the old man simply give up the fight?

In the end the thought lingers: how easily man is motivated to kill.

Fahrenheit 451 Penguin
The first full-length biography of a brilliant, self-taught inventor whose innovations in information and energy technology continue to shape our world. The Economist called Stanford R. Ovshinsky (1922–2012) “the Edison of our age,” but this apt comparison doesn't capture the full range of his achievements. As an independent, self-educated inventor, Ovshinsky not only created many important devices but also made fundamental discoveries in materials science. This book offers the first full-length biography of a visionary whose energy and information innovations continue to fuel our post-industrial economy. In *The Man Who Saw Tomorrow*, Lillian Hoddeson and Peter Garrett tell the story of an unconventional genius with no formal education beyond high school who invented, among other things, the rechargeable nickel metal hydride batteries that have powered everything from portable electronics to hybrid cars, a system for mass-producing

affordable thin-film solar panels, and rewritable CDs and DVDs. His most important discovery, the Ovshinsky effect, led to a paradigm shift in condensed matter physics and yielded phase-change memory, which is now enabling new advances in microelectronics. A son of the working class who began as a machinist and toolmaker, Ovshinsky focused his work on finding solutions to urgent social problems, and to pursue those goals, he founded Energy Conversion Devices, a unique research and development lab. At the end of his life, battered by personal and professional losses, Ovshinsky nevertheless kept working to combat global warming by making solar energy “cheaper than coal”—another of his many visions of a better tomorrow.

It is a fact not generally remembered that most of the German Army of 1939-45, regarded as the most technologically advanced of its day, was horse-drawn. This is the memoir of Max Kuhnert who was a mounted cavalryman during World War II. Kuhnert, who came from Dresden, enlisted in the German Army in 1939, and was posted to a cavalry unit which, latterly, provided mounted reconnaissance troops for infantry regiments. His account

tells of mobilization, the invasion of Poland, a spell in occupied Denmark, the invasion of France - during which his unit was very much in the vanguard - a return to Poland and the invasion of Russia, then retreat, wounding and return to Germany.
