 The boogie woogie bear loves to dance. A goose loves to giggle, a pig loves to snort, and a worm loves to wiggle. BUT when a bossy bird upsets a bat, the bat starts a movement to ban all of these actions. No more dancing, giggling, snorting, and wiggling UNTIL the bossy bird leads a protest to resume all such carefree actions.

The boogie woogie bear then gives this advice:So
 ...Dance,Wiggle,Snort till you jiggle.Be ...Kind,Nice,Smile till you giggle!

On any weekend in Texas, Czech polka music enlivens dance halls and drinking establishments as well as outdoor church picnics and festivals. The songs heard at these venues are the living music of an ethnic community created by immigrants who started arriving in Central Texas in the mid-nineteenth century from what is now the Czech Republic. Today, the members of this community speak

English but their songs are still sung in Czech. Czech Songs in Texas includes sixty-one songs, mostly polkas and waltzes. The songs themselves are beloved heirlooms ranging from ceremonial music with origins in Moravian wedding traditions to exuberant polkas celebrating the pleasures of life. For each song, the book provides music notation and Czech lyrics with English translation. An essay explores the song's European roots, its American evolution, and the meaning of its lyrics and lists notable performances and recordings. In addition to the songs and essays, Frances Barton provides a chapter on the role of music in the Texas Czech ethnic community, and John K. Novak surveys Czech folk and popular music in its European home. The book both documents a specific musical inheritance and serves as a handbook for learning about a culture through its songs. As folklorist and polka historian James P. Leary writes in his foreword, "Barton and Novak take us on a poetic, historical, and ethnographic excursion deep into a community's expressive heartland. Their Czech Songs in Texas just might be the finest extant annotated anthology of any American immigrant/ethnic group's regional song tradition."

On a spontaneous visit to the aquarium, straight-laced and proper Elliot discovers his dream pet: a penguin. When he asks his father if he may have one (please and thank you), his father says yes. Elliot should have realized that Dad was probably thinking of a toy penguin, not a real one... Clever illustrations and a wild surprise ending make this sly, silly tale a kid-pleaser from start to finish. [One Cool Friend](#) Capstone

(Faber Piano Adventures). Written for ages 5 and 6, My First Piano Adventure captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature

children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber's My First Piano Adventure, Lesson Book A. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural "friends at the piano" who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory "ACE" - Analysis, Creativity, and Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. [View Helpful Introductory Videos Here](#)
