Eight Unconventional CEOs and Their Radically Rational Blueprint for Success

Harvard Business Press
 A top behavioral geneticist makes the case that DNA inherited from our parents at the moment of conception can predict our psychological strengths and weaknesses. In *Blueprint*, behavioral geneticist Robert Plomin describes how the DNA revolution has made DNA personal by giving us the power to predict our psychological strengths and weaknesses from birth. A century of genetic research shows that DNA differences inherited from our parents are the consistent life-long sources of our psychological individuality—the blueprint that makes us who we are. This, says Plomin, is a game changer. Plomin has been working on these issues for almost fifty years, conducting longitudinal studies of twins and adoptees. He reports that genetics explains more of the psychological differences among people than all other factors combined. Genetics accounts for fifty percent of psychological differences—not just mental health and school achievement but all psychological traits, from personality to intellectual abilities. Nature, not nurture is what makes us who we are. Plomin explores the implications of this, drawing some provocative conclusions—among them that parenting styles don't really affect children's outcomes once genetics is taken into effect. Neither tiger mothers nor attachment parenting affects children's ability to get into Harvard. After describing why DNA matters, Plomin explains what DNA does, offering readers a unique insider's view of the exciting synergies that came from combining genetics and psychology.

Secrets of the Millionaire Mind BenBella Books, Inc.
Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking *Secrets of the Millionaire Mind*, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is

that now you can actually reset your money blueprint to create natural and automatic success. *Secrets of the Millionaire Mind* is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

This guide provides an overview of the many components of the popular practice of flipping properties. Coverage spans the flipping process from start to finish—finding, buying, fixing up, and selling—and the variables needed to make all of those steps successful and profitable. Also included is coverage on negotiating, property inspections, mortgages, taxes, and working with contractors, brokers, and real estate agents. The book is perfect for responsible investors who want to flip houses the right way and steer clear of legal gray areas that get some investors into trouble.

 Let's face it—fixing and flipping houses is sexy. Who doesn't love the idea of buying a rundown, mold-infested shack and transforming it into someone's dream home for massive profits? Reality TV shows make it look so easy. A little paint here, some new kitchen cabinets there, and presto! The house is sold for big bucks and everyone lives happily ever after. If only it were that simple. Fixing and flipping houses is a business. In order for a business to survive, prosper, and grow, systems must be put in place. *Fixing and Flipping Real Estate: Strategies for the Post-Boom Era* is a book that breaks down the four essential components of a fix-and-flip business, giving you the building blocks to efficiently buy and sell 1 to 20 properties a month in today's post-boom era housing market. You'll learn about each of the boxes: Acquisition—How to find and buy a profitable real estate deal. Rehabbing—How to systematically remodel a house and how not to underimprove, or overimprove, your property.

Sales—How to sell your flip for the highest possible price in the shortest possible time. Raising Capital—How to get the capital you need to grow your business, including using other people's money, for your real estate deals without getting sued or going to jail. In the post-real estate boom era, fixing and flipping is again a solid business—especially in the "sand" states—Arizona, California, Nevada, Texas, and Florida, among others. It's also a good bet in states as diverse as North Carolina and Washington State. And with the real estate market projected to bottom out nationally in 2012 (this time for real), there are plenty of houses to be renovated and plenty of money to be made by the enterprising in all fifty states. This book shows real estate investors everything they need to know to get started fixing and reselling houses either as a substantial sideline or a full-on business.

 Now in a newly updated second edition, this guide covers all the ins and outs of buying, renovating, and reselling distressed properties at big profits. Berges shows investors how to excel at every aspect of flipping, from finding great deals to analyzing property values, negotiating sales, and closing deals.

The Book on Flipping Houses John Wiley & Sons
 Whether you're looking to make a career out of flipping homes or see it as a part-time venture, you can make fast money legitimately. Before you get started, you need to know the right way to flip, regardless of local market conditions and current economic trends. There's more to flipping than redoing a kitchen or staging a property. Every deal is different, and each investor must have a clear business strategy. Expert investors William Bronchick and Robert Dahlstrom have learned how to be successful in all types of markets—and now they share their secrets with you. From the bestselling authors of *Flipping Properties*, which brought the term "flipping" to American households, *The Business of Flipping Homes* is an A-to-Z guide for both new and seasoned investors. The book explains what flipping is and isn't, goes beyond the investment of a basic single-family home, and demonstrates how to find, renovate, and sell properties using proven methods. With more than 40 years combined experience in buying and selling investment properties, Bronchick and Dahlstrom explain how to avoid many of the pitfalls and issues that could drain your funds and come back to haunt you. They give systematic approaches on long-term planning, including how to find and work with partners, structure a business, and utilize your specific talents, resources, and aspirations in realistic ways. You'll learn how to figure out timelines, work with real-estate agents, understand the paperwork, analyze the numbers, utilize technology, and, most important, find the money.
